Healthcare Management, Program Review, Section 1

Summary Statement about the State of the Program

Chair's Summary Statement

Over the past three years, the School of Business Leadership has experienced a trend of declining enrollments. The Health Care Management degree, begun in 2007 and currently directed by Dr. Kelly Riesenmy, participates in this trend at approximately the same levels as other SBL degree programs, although notably with an improving retention rate over that period. In this program, and across SBL, declining enrollments seem to be more closely related to new student recruitment than to retention, although SBL acknowledges retention as a factor and bases many of its continuous improvement processes toward the accomplishment of better retention rates.

The graphical and tabular data below, derived from the BI Analytics Retention Portal, demonstrates that enrolled students in SBL have decreased by an average of 11% per year over the last three years, and that the HCM program has experienced an average 13% decrease in that same time. HCM decreases were lower than the School average until the current year, but were greater in the 2019-20 year (28% vs. 16%). This phenomenon needs to be more closely investigated, since it seems to be a rather large deviation from expected results. It should be noted, however, that the MBA/HCM emphasis, created and managed by Dr. Riesenmy in that same period, now claims 13 current students, who may be seen as replacing lost undergraduate HCM student with more profitable graduate students, and forming the basis for the development of an expanding HCM or MPH graduate program.

HCM Retention rates, by contrast, were lower when Dr. Riesenmy assumed management of the program, but have increased by 3% to the point that they are now comparable to other UG programs in SBL. Comparison indicates that improvements may still be made in retention rates, and improving retention will continue to be a primary focus going forward.

I attribute initial low retention rates to generally poor curriculum in the HCM program dating in some instances back to its inception. One of Dr. Riesenmy's proudest accomplishments has been a nearly total restructuring of HCM curriculum to update academic materials and to align with industry requirements and Health Management job descriptions. I have a great degree of confidence in the quality and value of the HCM curriculum, and inclining retention rates seem to bear out this confidence. Part of Dr. Riesenmy's curriculum innovation has been the inclusion of SBL's first integrated third party certifications through NHA, which we believe add to the value of the educational credential that students receive.

As the evidence included with this Program Review will demonstrate, Dr. Riesenmy has been a champion of retention-related activities, including universal instructor review and remediation, quarterly HCM student-facing communications to raise awareness of program and School management and resources, and many example of personal investment into student success. I perceive no indication that declining enrollments in HCM are due to any program management deficits; rather, despite Dr. Riesenmy's consistently superior management, we seem to be failing to connect with student prospects for Health Care Management careers. I know that Dr. Riesenmy wants to address this with a more structured approach to creating workplace-based relationships with the employers of our potential students, and I agree. I also think there may be opportunities to leverage the relative success of our graduate HCM coursework, which is apparently finding a more consistent set of student prospects.

Wm. Scott McMurry
Interim Chair, MACU School of Business Leadership

S.W.O.T. Matrix: (2018) HCM-CAGS**Strengths**

1. Connection with community via Advisory Counsel for student placement.
2. Health Care Management (HCM) program is built on a competency model so that students are offered KSAs for placement in a top 20 careers by the Dept of Labor Statistics.
3. HCM program curriculum is based on the Commission on Accreditation of Healthcare Management Education (CAHME) criteria. CAHME criteria fulfill many of the same criteria required for the Higher Learning Commission (HLC) accreditation. This alignment strengthens the overall creditability of MACU.
4. Part-time faculty are interested in teaching and leading students to success.

Opportunities**HCM-CAGS**

1. Develop and market HCM program in the greater Oklahoma City region and beyond within the field of healthcare. Create partnerships with hospitals, nursing homes, physician practices to both support current student career opportunities and build a referral base to grow the HCM program (BBS and MBA).
2. Revise the HCM program to have a cutting-edge program of study and student placement rate that grows the program through student and community support and enthusiasm.
3. HCM seeks to include certification programs (CBCS and CEHRS) to draw students into the university.
4. Use local churches to support and encourage a Biblical world-view education through MACU.
5. Build synergy with each cohort as a life-long learning community through an annual HC

focused leadership conference at MACU.

6. Regular faculty development via webex/video chat and microlearning techniques.

Weaknesses

HCM-CAGS

1. Student drops due to poor HCM curriculum.
2. Outdated textbooks and poorly constructed curriculum.
3. Poor performing part-time faculty.
4. Lack of internship and placement opportunities.

Threats

HCM-CAGS

1. Increased government funding for students to attend Community College.
2. Large number of online programs in HCM.
3. Field of HCM changes continually with the flow of the legal and regulatory context, technology, and market.
4. Christian world-view education can be intimidating to non-Christian student.

S.W.O.T. Matrix: (Conducted in even numbered years)

From 5.23.18 SWOT Analysis
CAGS Academics

STRENGTHS:

Culture
Strong service based
Christian perspective (Wesleyan)
Advertising
Adjunct Quality
Community connection
Large census of students
Diverse student body
Student support
Consolidation of school (one school)

WEAKNESSES:

Understaffed
Adjuncts don't understand who our students are
Students are technologically challenged
Students lack necessary writing skills
Course workload and/or complexity
Budget shortfalls
Instructor credential issues
Students not having computer access
Emphasis on program development over program improvement
Lack of focus on CAGS
TOL
Textbooks
Advertising – internal
Communication – internal
Available on-ground adjuncts

OPPORTUNITIES:

Use face-to-face technology in courses
Accreditation
Certification programs
Creating partnerships
Explore more specific Associates degree
Connect with more denominations
Spanish program for local students
Full access to everything D2L has to offer
Professional Development – internal
Our state is highly undereducated
Presence at professional conferences

THREATS:

Public perception
Competition
State schools in higher education
General Reputation of online programs
Community colleges receiving government funds
Students not seeing value in a degree
Community colleges have tech schools
HLC regulations
Salary
Saturation of market
TV advertising
People intimidated (or put off) by Christian education

S.W.O.T. Analysis (Strengths, Weaknesses, Opportunities, and Threats)	
Strengths	
What does our Department/School do well?	Consistently high student retention rates via quarterly student newsletter and video engagement practices with students in coursework. A high performing team of adjunct instructors. Close monitoring of instructor performance.
What does the University as a whole do well?	Student support services, enrollment counselor support services, support staff for faculty. MACU does an extraordinary job of communicating with remote employees, especially during the pandemic.
What do those outside MACU see as the Department's/School's strengths?	Christian perspective, low teacher to student ratio, online and onground options, small campus.
What is our strongest degree program?	BBS, Accounting; ML
What do we consider to be the Department's/School's niche(s)?	Management
Other Observations	The HCM program is relatively new in its current format which is highly focused on management principles as they relate to healthcare.
Weaknesses	
What needs improvement in our Department/School?	
Where does the Department/School lack resources?	
Are degree programs or student services outdated or ineffective?	
What complaints or objections do our customers frequently raise?	
Department's/School's employees lack vital skills?	
Other Observations	

S.W.O.T. Analysis (Strengths, Weaknesses, Opportunities, and Threats)	
Opportunities	
Are there any trends that we feel will generate opportunities for the Department/School?	
Niches that competitors are missing?	
Any new delivery methods or technologies that would advance our Department/School?	
Training programs that would benefit employees' skills?	
Degrees that students are asking for?	
New needs of customers?	
Other Observations	
Threats	
Obstacles to overcome?	
Where are competitors about to threaten the Department/School's position?	
Can the Department/School attract and retain the employees it needs?	
What are the negative economic trends?	
What are the negative political and social trends?	
Will the Department/School lose any key faculty or staff?	
Any Department/School vulnerabilities?	
Other Observations	

S.W.O.T. Matrix: HCM 2020

Strengths	Weaknesses
<p>The HCM Program has consistently high student retention rates through the following retention efforts: quarterly student newsletter, video engagement practices with students in coursework, keeping course contents new and relevant. Another strength of the HCM Program is the high performing team of adjunct instructors. They are closely monitored to assure compliance with the instructor agreement. Instructors are reminded to use first alert for student support services. The HCM Program Director meets with enrollment counselors yearly to apprise them of new programs and certificates to sell the program. Other marketing efforts attending Open Houses and New Student Orientation have been valuable in selling the HCM program to students. The HCM Program's strength comes from the collaboration between the Program Director the innovative and communicative Chair and methodical and creative Program Coordinator.</p>	<p>The HCM Program doesn't have an official capstone project. Many undergraduate and graduate programs require senior students to complete a capstone project or senior thesis. A capstone project or thesis would provide an assessment of student learning and give students an opportunity to apply learning to a specific area of interest. The HCM Program does not internships for eligible students. Internships speak to the employability of a degree. Internships provide students with experience and networking for future employment. Four courses are due for revision during this period for current textbooks and content updates. Complaints received about the program have been related to employment opportunities post graduation.</p>
Opportunities	Threats
<p>The pandemic presented opportunities to reach out to students and identify them as frontline people in the business of healthcare. According to the US Department of Labor Statistics, healthcare management and service jobs have increased by 32% from 2018 to 2019 (approximately 422,300 jobs available). Healthcare service entry is at the bachelor's level. Exploiting opportunities to partner with Healthcare Organizations (HCO) for employee tuition reimbursement programs is important, both to recruit students and to place students in jobs prior to graduation. The SBL Advisory Council has added three new members who have a focus in healthcare. Building partnerships with their HCOs and others (e.g., Integris, Mercy) is mutually beneficial. Creating credibility and visibility for the HCM Program by writing articles for popular press and industry journals is a priority. Adding certificates to the MBA program would enhance opportunities for students to stack credentials.</p>	<p>Public health concerns continue to be a threat as epidemics of viral infections may cause closures and shutdowns. Continuing to be flexible will assure resiliency. The pandemic may cause some people who wanted to enter the field of healthcare be hesitant due to fears of contagion. Larger universities with ties to healthcare organizations pose a threat in terms of providing greater resources and networking for students.</p>

Healthcare Management, Program Review, Section 2

Program Sheet from Catalog

Program Sheet for the Bachelor of Science in Healthcare Management

Mid-America Christian University Catalog 2019-2020

March 15, 2020

Healthcare Management and Ethics, B.S.

Effective: 9/01/2017

As the healthcare sector continues to expand, organizations need healthcare managers more than ever – and this degree plan is designed to prepare students to enter the workforce with special knowledge and confidence. Focus is placed on the “hands-on” practice and business aspects of healthcare management systems, to provide the student knowledge and skills that can be immediately applied in a variety of settings, such as private practices, clinics, auxiliary services, or hospitals. Courses such as Human Resources, Legal Environment, Medical Language, Operations, and Information Systems go beyond traditional business content to address the unique application of these topics within the healthcare industry. Consideration of Christian principles with respect to ethical and moral dilemmas in healthcare is an important component of each course.

University Core

Specific courses within the University Core are listed on the first page of this catalog section.

University Core (46 Hrs)

Bible/Theology (12 hrs)
 Communication (9 hrs)
 U.S. History and Government (6 hrs)
 Science (6 hrs *plus 1 hr of lab*)
 Math (3 hrs)
 Social Sciences (3 hrs)
 Humanities (6 hrs – 3 hrs *must be literature*)

See the Academic Program Requirements section of this Catalog for additional requirements.

Orientation Requirement

Orientation (3 Hrs)

UNIV 1123 Success at MACU

Required prior to Major Courses (6 Hrs)

BUAD 2503 Business and Professional Communications
 MGMT 2103 Business Software Applications

Major Requirements

Healthcare Management Major (30 Hrs)

BUAD 3403 Business Finance
 HC 3203 Introduction to Healthcare Management
 HC 3213 Fundamentals of Medical Practice Management
 HC 3313 Healthcare Human Resource Management
 HC 3503 Legal Aspects of Healthcare Management
 HC 4103 Healthcare Economics
 HC 4203 Healthcare Operations Management
 HC 4303 Healthcare Information Systems
 MGMT 3213 Applied Business Management
 MGMT 4303 Accounting for Managers

Electives (37 Hrs)

Choose thirty-seven (37) hours from any area to meet the required minimum 122-hour requirement for your bachelor's degree.

A student must have a minimum of 40 hours of 3000 and 4000 level courses in order to receive a bachelor's degree. Please note: This may require the student to take at least ten (10 Hrs) of upper division elective hours in order to meet this graduation requirement.

Program Sheet for the Master of Business Administration with a Healthcare Management Emphasis

Mid-America Christian University Catalog 2019-2020

March 15, 2020

Graduate Degree Programs

"Jesus increased in wisdom and stature and in favor with God and Man." Luke 2:52

Business Administration, M.B.A.

Effective: 06/01/2018

The Master of Business Administration (M.B.A) program is a dynamic course of study geared toward today's rapidly changing business environment. Grounded in traditional business theory, the program is integrated with practical application, timeless biblical principles and Christian values. Professionals enhance their existing knowledge with a deeper understanding of effective business practices, including: strategic planning and execution, resource management, and how to lead new and expanding enterprises, businesses, and organizations.

DEGREE REQUIREMENTS

See the Academic Program Requirements section of this Catalog for additional requirements.

M.B.A. Core Requirements (18 Hrs)

Students are required to complete a Business Case Study.

ACCN 5133 Managerial Accounting
 ECON 5223 Managerial Economics in a Globalized Environment
 FINC 5333 Modern Corporate Finance
 *MGMT 5113 Organizational Behavior
 *MGMT 5323 Human Resource Management
 *MGMT 5413 Legal Environment and Ethics (Christian Worldview)

Additional M.B.A. Course Requirements (18 Hrs)

MGMT 5233 Marketing Analysis and Strategy, Sales and Consumer Behavior
 *MGMT 5353 Communication in Professional Organizations
 MGMT 6313 Management Science/Operations Management
 MGMT 6423 Strategic Business Management
 Choose six (6) additional hours from the list below to complete a general M.B.A. degree.
 MGMT 6433 Exec. Seminar Series: International Business
 MGMT 6443 International Business Strategies
 MKTG 5113 Global Mktg and Multi-Cultural Comm.

Total M.B.A. Required Hours – 36

M.B.A. OPTIONAL EMPHASES

Students may choose to replace the additional degree requirements above with one of the following emphases:

CPA Accounting Emphasis (18 Hrs)

Required Prerequisites for students who do not have a bachelor's degree in Accounting. **If student has not completed Intermediate Accounting II, there may be additional prerequisite courses that must be taken prior to enrollment in course: ACCN 3913 Intermediate Accounting II, ACCN 3933 Income Tax Accounting I, ACCN 4443 Advanced Financial Accounting **OR** Equivalent, and ACCN 4633 Auditing

ACCN 5153 Advanced Accounting Information Systems
 ACCN 5163 Business Taxation
 ACCN 5173 Advanced Auditing
 ACCN 6113 Advanced Theories of Financial Accounting
 Choose six (6) additional hours from the list below to complete a general M.B.A. & CPA Accounting Emphasis:
 ACCN 5143 Advanced Cost Accounting

Healthcare Management Emphasis (24 Hrs)

MGMT 5233 Marketing Analysis and Strategy, Sales and Consumer Behavior
 *MGMT 5353 Communication in Professional Organizations
 MGMT 6313 Management Science/Operations Management
 MGMT 6423 Strategic Business Management
 HC 5213 Healthcare Management
 HC 5223 Healthcare Legal Environment
 HC 5233 Healthcare Finance
 HC 5243 Healthcare Information Systems

Total MBA & Healthcare Management Emphasis Required Hrs – 42

Human Resource Management Emphasis (27 Hrs)

MGMT 5233 Marketing Analysis and Strategy, Sales and Consumer Behavior
 *MGMT 5353 Communication in Professional Organizations
 MGMT 6313 Management Science/Operations Management
 MGMT 6423 Strategic Business Management
 HR 5213 Compensation and Benefit
 HR 5223 Human Resource Development
 HR 5233 Recruiting and Selection
 HR 5243 Labor-Law and Employee Relations
 HR 6213 Knowledge for Professional Certification

Total MBA & Human Resource Mgmt. Emph. Required Hrs – 45

International Business Emphasis (24 Hrs)

MGMT 5233 Marketing Analysis and Strategy, Sales and Consumer Behavior
 *MGMT 5353 Communication in Professional Organizations

This is NOT a guarantee that the student will be awarded credit stated. MGMT 2503 is an elective course. If all elective requirements have been met in the degree plan, financial aid may not cover the cost of this course.							

Healthcare Management, Program Review, Section 3

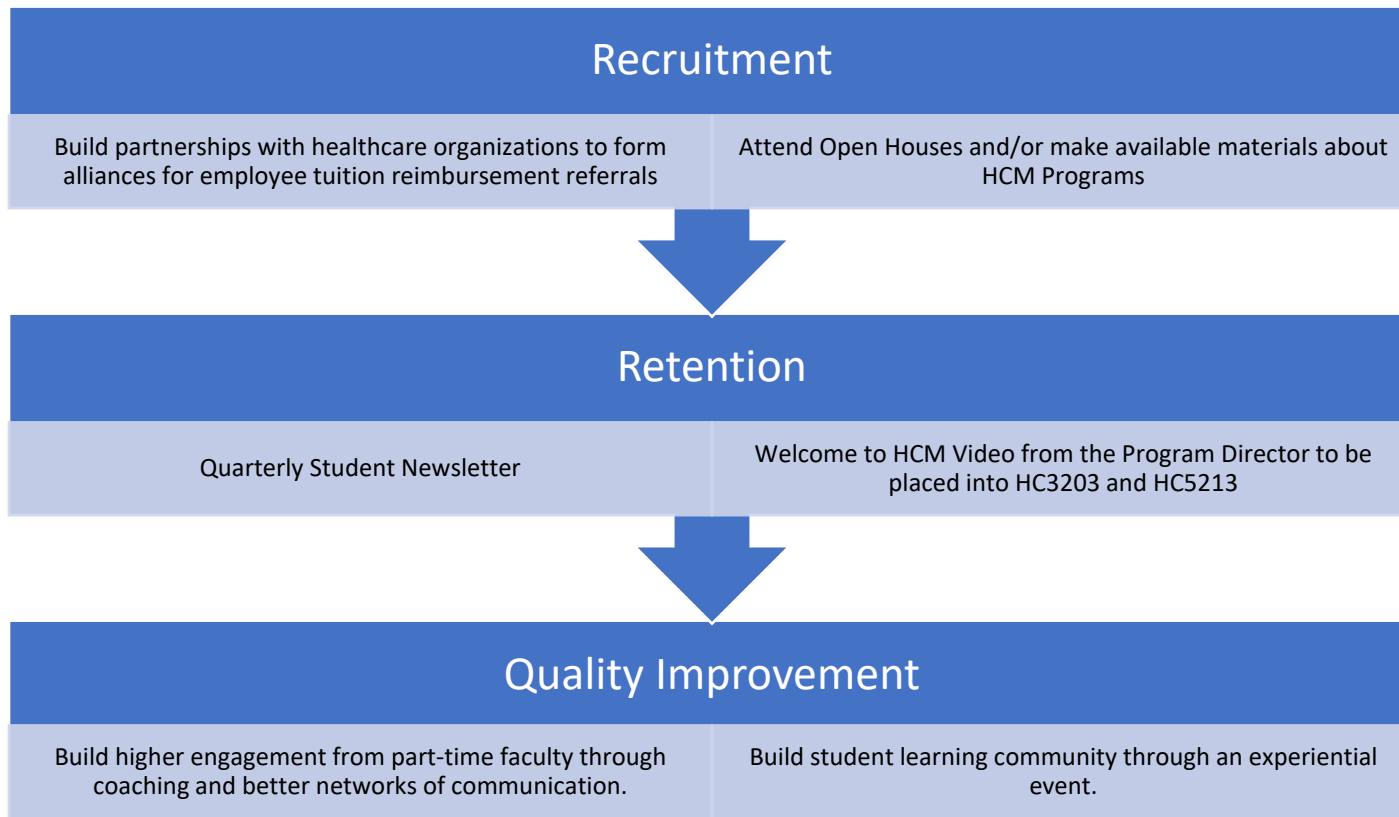

Strategic Plans and Budgets Related to Program (most recent SPUN)

Goal Statement	Description	Action Steps to Achieve Goal	Person	Estimated Budget	Personnel	Capital Resources	Start	End
<p>1.0 Health Care Management (HCM) Program Development</p> <p>A well-defined and articulated program will attract and retain students. Students will develop a community of learning through collegial activities. Students will produce resume ready work while at MACU. By August 2019, the HCM Program will increase student retention by 98% and new student growth by 25%.</p>	<p>1.A) Students will successfully matriculate to BBS and MBA with a drop-rate of less than 2-3 student per graduating class/cohort, respectively. Data will be provided by Registrar and tracked monthly.</p> <p>1.B) New cohorts will increase in size by 2 new students per cohort from program promotion and marketing efforts. Data will be provided by Registrar and tracked monthly.</p>	<p>1.1 Produce an Executive Summary of the Program Competency Model and Objectives to match curriculum and program objectives with competencies necessary careers in the field of HCM.</p> <p>1.2 Develop partnerships in the Oklahoma City area and beyond to build student opportunities for internships, and employment in the field of HCM. These partnerships will also provide a referral base for new students to grow the program. Partnerships will be created via contacts (both known and cold calls).</p> <p>1.3 Attend professional meeting (AUPHA, AOM, ATD) to be a presence in HCM academic and practitioner contexts.</p> <p>1.4 Publish and present academic papers with student involvement.</p> <p>1.5 Produce a quarterly Student Newsletter to enhance a community</p>	<p>HCM Program Director</p>	<p>1.1 none</p>	<p>HCM Program Director</p>	<p>None</p>	<p>4/1/2018</p>	<p>5/31/2018</p>
				<p>1.2 Travel, lunch costs \$250.00</p>	<p>HCM Program Director</p>	<p>None</p>	<p>4/1/2018</p>	<p>6/15/2019</p>

		of learning within the program. 1.6 Implement an annual Health Care Leadership Roundtable event at MACU for students to present and participate, interact with HC leaders and practitioners.		1.6 Incidental costs \$250.00	HCM Program Director/Interested Part-time Faculty	None	6/15/2019	ongoing annually
2.0 Curriculum Revision Students will be qualified candidates for a career in administration and management in the field of healthcare. To this end, courses will be revised according to the guidelines presented by the Commission of Accreditation of Healthcare Management Education (CAHME) criteria and competencies based on Healthcare Leadership Alliance (HLA) and industry models (AUPHA, AHME). Curriculum revision process will occur between 2018-2019.	The HCM curriculum will provide students with the knowledge, skills, abilities, and attributes necessary to function as a healthcare manager and executive. The HCM competency model matrix aligns courses with competencies based on established standards. Competencies are then matched with criteria from CAHME, HLA, AUPHA, AHME and verified with O*Net national data base.	2.1 Write course HC3213 from Medical Terminology for Managers to HCA3213 Fundamentals of Medical Practice Management 2.2 Revise course HCA4203 Healthcare Operations Management. Current content does not reflect course and program objectives 2.3 Revise HCA5243 to reflect new textbook 2.4 Revise HCA 5223 to reflect current edition of textbook	HCM Program Directors HCM Program Director HCM Program Director HCM Program Director	Curriculum Development not in Dept. Mission Statement

Mid-America Christian University prepares students through a Wesleyan perspective to create, collaborate, and innovate to solve local and global problems for the glory of God through Jesus Christ and the good of society.

University Outcomes

1. SPIRITUAL FORMATION - To integrate Christian principles and behaviors in professional and personal experience; (Head and Heart; Encounter and Expression)
2. EFFECTIVE COMMUNICATION - To communicate effectively and ethically with diverse audiences using a variety of media; (Head and Hands; Engagement and Emphasis)
3. EXAMINATION AND ADOPTION OF IDEAS – To examine, reflect, and build upon ideas to transform self and community; (Head, Heart, and Hands; Encounter, Engagement, Emphasis, and Expression)
4. CREATIVE PROBLEM SOLVING & ENTREPRENEURSHIP - To create innovative solutions to problems; (Head and Hands; Encounter, Engagement, Emphasis, and Expression)
5. COLLABORATION - To engage in ongoing collaborative inquiry and intellectual curiosity for lifelong learning and practice; (Head, Heart, and Hands; Encounter, Engagement, and Expression)
6. ETHICAL LEADERSHIP AND VALUES - To apply leadership principles and integrate them in professional and personal experience; (Head and Hands; Encounter, Engagement, and Expression)

7. **EXPERTISE IN THE DISCIPLINE** - To integrate expertise of the core content of their discipline in real world contexts; (Head and Hands; Engagement and Emphasis)

8. **ENGAGEMENT IN SCHOLARSHIP** - To engage with and contribute to scholarly pursuits with creativity and innovation; (Head and Hands; Engagement and Emphasis)

9. **LOCAL AND GLOBAL APPLICATION** - To apply skillful and creative expertise to issues facing communities, both locally and globally. (Head and Hands; Engagement, Emphasis, and Expression)

All Following Worksheets Describe How the Strategic Planning Unit (SPU) Has Strategized To Manage the Whirlwind and Achieve the SPU's Goals.

VISIONING EXERCISE	
<p>Step 1: Describe what you would like your department or school to look like and operate as 5 years from now. Use one word or short sentence descriptors (e.g. activities, relationships, policies, personnel, decisions, programs, attitudes, and so forth.)</p>	<p>We envision a School of Business Leadership that participates with all students to create an innovative, interconnected, and engaged educational experience.</p>
<p>Step 2: Create a "vision statement." A vision statement is a brief description of how your department or school will look like in the future. A vision statement can be a few sentences, a few paragraphs, or even a few pages. Some Strategic Planning Units (SPU's) prefer to create a vision statement acronym to help the SPU's personnel to easily recall the vision.</p>	<p>INNOVATIVE (HEAD) - Programs are "fresh," with current content and engaging educational methods that are suitable to the modality, and responsive to student needs. Each course is distinctive, comparing favorably with other competing colleges. Program Directors and Instructors are flexible, and open to experimentation and new ideas.</p> <p>INTERCONNECTED (HEART) - Regardless of modality, students find that courses represent MACU's essential identity consistently, so that students can move between modalities without encountering subculture conflicts. On-ground and online students, younger and older, remote and local - all feel a sense of community that is inclusive and supportive of all groups. The concern of the institution for the success of the student is evident in all facets of education. The values and mission of the University are made manifest as a function of coursework.</p> <p>ENGAGED (HANDS) - Students and Instructors are recognized and rewarded for being involved and committed. Students and Instructors communicate actively during the learning process, not just about the outcomes of that process.</p>

S.W.O.T. Analysis (Strengths, Weaknesses, Opportunities, and Threats)	
Strengths	
What does our Department/School do well?	
What does the University as a whole do well?	
What do those outside MACU see as the Department's/School's strengths?	
What is our strongest degree program?	
What do we consider to be the Department's/School's niche(s)?	
Other Observations	
Weaknesses	
What needs improvement in our Department/School?	
Where does the Department/School lack resources?	
Are degree programs or student services outdated or ineffective?	
What complaints or objections do our customers frequently raise?	
Department's/School's employees lack vital skills?	
Other Observations	

S.W.O.T. Analysis (Strengths, Weaknesses, Opportunities, and Threats)	
Opportunities	
Are there any trends that we feel will generate opportunities for the Department/School?	
Niches that competitors are missing?	
Any new delivery methods or technologies that would advance our Department/School?	
Training programs that would benefit employees' skills?	
Degrees that students are asking for?	
New needs of customers?	
Other Observations	
Threats	
Obstacles to overcome?	
Where are competitors about to threaten the Department/School's position?	
Can the Department/School attract and retain the employees it needs?	
What are the negative economic trends?	
What are the negative political and social trends?	
Will the Department/School lose any key faculty or staff?	
Any Department/School vulnerabilities?	
Other Observations	

S.W.O.T. Matrix: (Conducted in even numbered years)

Strengths	Weaknesses
<p>Small class sizes Quality of best online instructors Unified CAS/CAGS operation Flexibility Student service orientation Focus on maximum prior learning/transfer credit Empowered and responsible team members Incorporation of GiANT in curriculum Degree options Diverse student population Easy access to school leadership</p>	<p>Some poorly written or outdated curriculum/textbooks Quality of worst online instructors Lack of internship and placement opportunities Not enough PLA staff Insufficient personal development funding Disability accessibility in online curriculum Poor communication with other schools and leadership above school level Poorly performing textbook provider Adjunct training process Insufficient administrative staff Instructor pay rate/scale is not competitive and unrealistically structured</p>
Opportunities	Threats
<p>Addition of certificate programs within degrees (CMA, Quickbooks, CBCS, CEHRS, etc.) Partner development to support internships and placements Better program alignment with external standards (job skills, association accreditation criteria) Identify opportunities to expand connection with students after graduation Micro-learning opportunities for faculty and administration Improved program marketing Increase multi-disciplinary/cross-disciplinary/unique emphasis programs Improve conversion rate of undergrad into grad programs</p>	<p>Lack of available qualified faculty in hiring pool for some positions Decreasing class sizes Increase in number of institutions competing for students Improved online offerings from traditional universities Decreased employer financial support for academic work Community college cooperation/consolidation Financial aid sources not meeting cost of education Changing accreditation requirements Rapid changes in legal, regulatory, tech, market that make classes obsolete more quickly</p>

Goals to Improve Department in the Midst of the W

(S.M.A.R.T. Goals)

S = Specific, M = Measurable, A = Assignable, R = Realistic, T = Timely

Specific		Measurable		Assignable
Obj. No.	Goal Statement	Description (How do we measure our progress? Level of performance expected? What type of data do we collect?)	Action Steps to Achieve Goal (Action Step Statements Begin with Action Verbs - One year or Less in Duration)	Person
1.0	Restore SBL Advisory Council to full membership (12) with emphasis on members that bring diversity to the Council.	Minimum AC membership of 12 by second quarter of '21 academic year, including at least three members that represent in at least one category (ethnic minority, female, millennial)	1.1 Solicit nominations from Chair, PDs, and other interested parties	CHAIR
			1.2 Forward candidates to leadership for approval	CHAIR PDs
			1.3 Extend invitations to candidates	CHAIR PDs
			1.4 Repeat process 1.1 - 1.3 until objectives met, conducting regular quarterly AC meetings	CHAIR PDs COOD
2.0	Create opportunity for ACCN students and qualified individuals to earn CMA certification	At least 12 students complete CMA certification class by end of academic year (5/31/20)	2.1 Confirm that addition of CMA prep course, combined with ACCN courses already available, will constitute adequate preparation for the CMA.	ACCN PD
			2.2 Determine method of cost recovery for CMA test expense (student fee, independent pay, scholarship)	ACCN PD
			2.3 Obtain Faculty and Senate approval for the addition of CMA prep course.	ACCN PD
			2.4 Write CMA prep course(s) for online/onground deployment.	ACCN PD
SBL	Increase value of HCM		3.1 All exenginces for course provision fees, tuition, third party access in place per 2018-19 plan	HCM PD

Evaluation of SPU Progress (Using Goal as the Measure)					
Objective No.	Department/School Goals	Resources Used	Summary of Evaluation Results	How were results used to make improvements?	Percentage Achieved
1.0 Restore SBL Advisory Council to full membership (12) with emphasis on members that bring diversity to the Council.	Minimum AC membership of 12 by second quarter of '21 academic year, including at least three members that represent in at least one category (ethnic minority, female, millennial)	AC Council Members SBL Faculty Admins SBL Chair Café meal and use of meeting rooms	Added only two members, one ethnic minority	AC input to assignments and curriculum development, increase applicability to various MACU student populations	50%
2.0 Create opportunity for ACCN students and qualified individuals to earn CMA certification	At least 12 students complete CMA certification class by end of academic year (5/31/20)	PD ACCN Curriculum Development SBL Chair	Focused on other certification opportunities in HCA, MBA, and the Financial Accounting certification, which were easier to implement at the time.	It is our belief that less-than-degree academic accomplishment is attractive to both students and employers, and helps to retain students who can earn meaningful educational accomplishments on the way to a full degree.	0%
3.0 Increase value of HCM degree by ensuring students take advantage of certification opportunities in CMAA and CEHRS through NHA	At least 12 students complete CMA certification class by end of academic year (5/31/20)	PD HCM Curriculum Development SBL Chair	Dr. Resinmey researched, developed, and implemented two complimentary certificate programs through NHA, a nationally recognized HC educator. All HCM student are enrolled by default	It is our belief that less-than-degree academic accomplishment is attractive to both students and employers, and helps to retain students who can earn meaningful educational accomplishments on the way to a full degree.	100%
4.0 Complete the implementation of integrated, instructor-led rubrics in all Master's-level programming.	All assessed classes in SBL contain integrated instructor-led rubrics by 8/31/2020	PD ML PD MBA(Chair) D2L /CLT	All undergrad programs now contain embedded adjunct-led evaluation of student learning outcomes. The Master's program's curriculum maps needed to be updated first, so that it would be clear which courses. That has now been completed, with the advent of new leadership in the ML degree (Dr. Sampedro)	Instructor-led assessment provides more accurate information for data-driven decisions and course improvement, more data overall due to a higher density of assessment, and superior assessment quality due to the proximity of the instructor to student outcomes.	25%
5.0 (WIG 1) Create and distribute a monthly communication that increases the sense of a common community between online and onground students, and increases recognition of Program Directors and Chair in SBL.	Monthly SBL Communication beginning in September 2019	All PDs Program Coordinator	All preliminary work (Newsletter templates, distribution method, statistical measuring of results) is completed. Newsletters completed every quarter in most programs.	It is our belief that program-specific communications will encourage a closer identification and engagement with students, especially affecting knowledge of the identity of Program Directors, Coordinator, and Chair - an area for improvement identified on the SSI.	80%
6.0 Establish a school-wide APA policy that makes APA format and grading expectations consistent across all courses.	Inclusion of APA example document, supporting materials, and grading rubrics in all SBL courses by 12/31/19	CHAIR BUSINESS ALL PDS Coordinator Curr. Dev. D2L/CLT	A master APA template was agreed on by all PDs, and inserted in the Common Resources folder for MBA and ML. Individual communications were made with instructors based on observed difference in APA grading. However, a problem has been identified with other support mechanisms such as the Writing Center, which creates potentially confusing situation for students.	Frustrations with differences in APA grading from instructor to instructor, and the potential for APA compliance to occupy too great an importance in assessment, are complaints that are regularly received from students on the SSI and anecdotally. Our objective is to make APA compliance relatively easy, and consistent from course to course.	60%
7.0 Create multidisciplinary options in all undergraduate degree programs, creating a greater number of degree options and more flexibility for students	Identify courses comprising multidisc and add to catalog	ALL UG PDs Registrar Faculty/Senate Approval	All SBL degree programs now have a multidisc option in the catalog, essentially allowing students to take a "minor" in any other SBL academic discipline. This means there are 20 distinct major/minor combinations, not counting concentrations.	More multidisciplinary programs create more pathways through the degree programs, and help student tailor their educational experience to better fit diverse occupational goals. Multi-disc programs help smaller degree programs maintain viability.	100%
8.0 Continue implementation of "high-engagement" practices in MBA emphasis courses, already completed in core	Add Common Resources, Live Feed, Post-First DQs, Video Assignments, Simulations, and other "high-engagement" practices to increase the quality and distinctiveness of all coursework.	PD MBA Curriculum Design D2L/CLT	Core MBA courses were updated in 2019-20. Continue with Emphasis courses in 2020-21	High-engagement practices make MACU graduate coursework distinctive and more interesting to students, encouraging greater learning and retention.	75%
9.0 Update ML program to reflect "high-engagement" practices in all courses.	Add Common Resources, Live Feed, Post-First DQs, Video Assignments, Simulations, and other "high-engagement" practices to increase the quality and distinctiveness of all coursework.	PD ML Curriculum Design D2L/CLT	Feeds) were implemented across the board with MBA in 2019-20. The combination of three core courses that run in both MBA and ML also helped to accelerate ML HE changes. New courses that were written in 19-20 as part of the ML revision are HE. The remaining courses, mostly emphasis courses, still need to be	High-engagement practices make MACU graduate coursework distinctive and more interesting to students, encouraging greater learning and retention.	50%
10.0 Achieve an equitable full-time faculty/student ratio in CAGS and CAS programs in the SBL.	Additional faculty or process/technology in place by 5/31/21	CO-CHAIR CHAIR DEAN/VP	Both schools now use the same Program Outcomes, same classes, and share instructors.	Unified management of CAS and CAGS schools of business has created efficiencies leading to cost reductions and coordination of curriculum.	100%
11.0 Get faculty more involved in student recruitment (WIG #2)	Identify at least 12 students recruited into an SBL program primarily by an SBL faculty member or administrator	SBL Chair All PDs Enrollment Recruitment	Faculty attendance at every Open House, Orientation, site visit, or other opportunity to interface with potential students. All PDs identified potential recruiting grounds (organizations that offer support for employees to attend college, and ade attempts to understand how we could interface with the HR or Management function of those organizations. In 20-21, we will focus on creating relationships with these organizations, along with our	We believe that academicians are underutilized as recruiting resources, although they were previously engaged more fully in that function at this institution.	50%

Assurance Argument - Requirements	School / Department
Criterion One. Mission	
The institution’s mission is clear and articulated publicly; it guides the institution’s operations.	
<i>Core Components</i>	
1.A. The institution’s mission is broadly understood within the institution and guides its operations.	
1. The mission statement is developed through a process suited to the nature and culture of the institution and is adopted by the governing board.	
2. The institution’s academic programs, student support services, and enrollment profile are consistent with its stated mission.	Possible
3. The institution’s planning and budgeting priorities align with and support the mission. (This sub-component may be addressed by reference to the response to Criterion 5.C.1.)	
1.B. The mission is articulated publicly.	
1. The institution clearly articulates its mission through one or more public documents, such as statements of purpose, vision, values, goals, plans, or institutional priorities	
2. The mission document or documents are current and explain the extent of the institution’s emphasis on the various aspects of its mission, such as instruction, scholarship, research, application of research	Possible

<p>3. The mission document or documents identify the nature, scope, and intended constituents of the higher education programs and services the institution provides.</p>	
<p>1.C. The institution understands the relationship between its mission and the diversity of society.</p>	
<p>1. The institution addresses its role in a multicultural society.</p>	
<p>2. The institution’s processes and activities reflect attention to human diversity as appropriate within its mission and for the constituencies it serves.</p>	Possible
<p>1.D. The institution’s mission demonstrates commitment to the public good.</p>	
<p>1. Actions and decisions reflect an understanding that in its educational role the institution serves the public, not solely the institution, and thus entails a public obligation.</p>	Possible
<p>2. The institution’s educational responsibilities take primacy over other purposes, such as generating financial returns for investors, contributing to a related or parent organization, or supporting external</p>	
<p>3. The institution engages with its identified external constituencies and communities of interest and responds to their needs as its mission and capacity allow.</p>	Possible
<p>The institution acts with integrity; its conduct is ethical and responsible.</p>	
<p><i>Core Components</i></p>	

<p>2.A. The institution operates with integrity in its financial, academic, personnel, and auxiliary functions; it establishes and follows policies and processes for fair and ethical behavior on the part of its governing</p>	
<p>2.B. The institution presents itself clearly and completely to its students and to the public with regard to its programs, requirements, faculty and staff, costs to students, control, and accreditation</p>	
<p>2.C. The governing board of the institution is sufficiently autonomous to make decisions in the best interest of the institution and to assure its integrity.</p>	
<p>1. The governing board's deliberations reflect priorities to preserve and enhance the institution.</p>	
<p>2. The governing board reviews and considers the reasonable and relevant interests of the institution's internal and external constituencies during its decision-making deliberations</p>	
<p>3. The governing board preserves its independence from undue influence on the part of donors, elected officials, ownership interests, or other external parties when such influence would not be in the best interest of</p>	
<p>4. The governing board delegates day-to-day management of the institution to the administration and expects the faculty to oversee academic matters.</p>	
<p>2.D. The institution is committed to freedom of expression and the pursuit of truth in teaching and learning.</p>	Possible
<p>2.E. The institution's policies and procedures call for responsible acquisition, discovery and application of knowledge by its faculty, students, and staff.</p>	Possible
<p>1. The institution provides effective oversight and support services to ensure the integrity of research and scholarly practice conducted by its faculty, staff, and students.</p>	Possible
<p>2. Students are offered guidance in the ethical use of information resources.</p>	Possible

<p>3. The institution has and enforces policies on academic honesty and integrity.</p>	<p>Possible</p>
<p>Criterion Three. Teaching and Learning: Quality, Resources, and Support</p>	
<p>The institution provides high quality education, wherever and however its offerings are delivered.</p>	<p>Possible</p>
<p><i>Core Components</i></p>	
<p>3.A. The institution’s degree programs are appropriate to higher education.</p>	
<p>1. Courses and programs are current and require levels of performance by students appropriate to the degree or certificate awarded.</p>	<p>Possible</p>
<p>2. The institution articulates and differentiates learning goals for its undergraduate, graduate, post-baccalaureate, post-graduate, and certificate programs.</p>	<p>Possible</p>
<p>3. The institution’s program quality and learning goals are consistent across all modes of delivery and all locations (on the main campus, at additional locations, by distance delivery, or dual credit through contractual</p>	<p>Probable</p>
<p>3.B. The institution demonstrates that the exercise of intellectual inquiry and the acquisition, application, and integration of broad learning and skills are integral to its educational programs</p>	
<p>1. The general education program is appropriate to the mission, educational offerings, and degree levels of the institution.</p>	
<p>2. The institution articulates the purposes, content, and intended learning outcomes of its undergraduate general education requirements. The program of general education is grounded in a philosophy or</p>	<p>Possible</p>

3. Every degree program offered by the institution engages students in collecting, analyzing, and communicating information; in mastering modes of inquiry or creative work; and in developing skills adaptable to	Possible
4. The education offered by the institution recognizes the human and cultural diversity of the world in which students live and work.	Possible
5. The faculty and students contribute to scholarship, creative work, and the discovery of knowledge to the extent appropriate to their programs and the institution's mission.	Possible
3.C. The institution has the faculty and staff needed for effective, high-quality programs and student services.	
1. The institution has sufficient numbers and continuity of faculty members to carry out both the classroom and the non-classroom roles of faculty, including oversight of the curriculum and expectations for student	Possible
2. All instructors are appropriately qualified, including those in dual credit, contractual, and consortial programs.	Possible
3. Instructors are evaluated regularly in accordance with established institutional policies and procedures.	Probable
4. The institution has processes and resources for assuring that instructors are current in their disciplines and adept in their teaching roles; it supports their professional development.	Probable
5. Instructors are accessible for student inquiry.	Possible
6. Staff members providing student support services, such as tutoring, financial aid advising, academic advising, and co-curricular activities, are appropriately qualified, trained, and supported in their	
3.D. The institution provides support for student learning and effective teaching.	

<p>1. The institution provides student support services suited to the needs of its student populations.</p>	
<p>2. The institution provides for learning support and preparatory instruction to address the academic needs of its students. It has a process for directing entering students to courses and programs for which the</p>	
<p>3. The institution provides academic advising suited to its programs and the needs of its students.</p>	Possible
<p>4. The institution provides to students and instructors the infrastructure and resources necessary to support effective teaching and learning (technological infrastructure, scientific laboratories,</p>	
<p>5. The institution provides to students guidance in the effective use of research and information resources.</p>	Possible
<p>3.E. The institution fulfills the claims it makes for an enriched educational environment.</p>	
<p>1. Co-curricular programs are suited to the institution’s mission and contribute to the educational experience of its students.</p>	
<p>2. The institution demonstrates any claims it makes about contributions to its students’ educational experience by virtue of aspects of its mission, such as research, community engagement, service learning, religious or</p>	Possible
<p>Criterion Four. Teaching and Learning: Evaluation and Improvement</p>	
<p>The institution demonstrates responsibility for the quality of its educational programs, learning environments, and support services, and it evaluates their effectiveness for student learning through processes designed</p>	
<p><i>Core Components</i></p>	

4.A. The institution demonstrates responsibility for the quality of its educational programs.	
1. The institution maintains a practice of regular program reviews.	Possible
2. The institution evaluates all the credit that it transcripts, including what it awards for experiential learning or other forms of prior learning, or relies on the evaluation of responsible third parties.	
3. The institution has policies that assure the quality of the credit it accepts in transfer.	
4. The institution maintains and exercises authority over the prerequisites for courses, rigor of courses, expectations for student learning, access to learning resources, and faculty qualifications for all its	Possible
5. The institution maintains specialized accreditation for its programs as appropriate to its educational purposes.	
6. The institution evaluates the success of its graduates. The institution assures that the degree or certificate programs it represents as preparation for advanced study or employment accomplish these purposes. For	Possible
4.B. The institution demonstrates a commitment to educational achievement and improvement through ongoing assessment of student learning.	
1. The institution has clearly stated goals for student learning and effective processes for assessment of student learning and achievement of learning goals.	Probable
2. The institution assesses achievement of the learning outcomes that it claims for its curricular and co-curricular programs.	Probable
3. The institution uses the information gained from assessment to improve student learning.	Probable

<p>4. The institution’s processes and methodologies to assess student learning reflect good practice, including the substantial participation of faculty and other instructional staff members.</p>	<p>Possible</p>
<p>4.C. The institution demonstrates a commitment to educational improvement through ongoing attention to retention, persistence, and completion rates in its degree and certificate programs.</p>	
<p>1. The institution has defined goals for student retention, persistence, and completion that are ambitious but attainable and appropriate to its mission, student populations, and educational offerings.</p>	
<p>2. The institution collects and analyzes information on student retention, persistence, and completion of its programs.</p>	
<p>3. The institution uses information on student retention, persistence, and completion of programs to make improvements as warranted by the data.</p>	
<p>4. The institution’s processes and methodologies for collecting and analyzing information on student retention, persistence, and completion of programs reflect good practice. (Institutions are not required to use</p>	
<p>Criterion Five. Resources, Planning, and Institutional Effectiveness</p>	
<p>The institution’s resources, structures, and processes are sufficient to fulfill its mission, improve the quality of its educational offerings, and respond to future challenges and opportunities. The institution plans for</p>	
<p><i>Core Components</i></p>	
<p>5.A. The institution’s resource base supports its current educational programs and its plans for maintaining and strengthening their quality in the future.</p>	
<p>1. The institution has the fiscal and human resources and physical and technological infrastructure sufficient to support its operations wherever and however programs are delivered.</p>	

<p>2. The institution’s resource allocation process ensures that its educational purposes are not adversely affected by elective resource allocations to other areas or disbursement of revenue to a superordinate</p>	<p>Possible</p>
<p>3. The goals incorporated into mission statements or elaborations of mission statements are realistic in light of the institution’s organization, resources, and opportunities</p>	
<p>4. The institution’s staff in all areas are appropriately qualified and trained.</p>	<p>Possible</p>
<p>5. The institution has a well-developed process in place for budgeting and for monitoring expense.</p>	
<p>5.B. The institution’s governance and administrative structures promote effective leadership and support collaborative processes that enable the institution to fulfill its mission</p>	
<p>1. The governing board is knowledgeable about the institution; it provides oversight of the institution’s financial and academic policies and practices and meets its legal and fiduciary responsibilities</p>	
<p>2. The institution has and employs policies and procedures to engage its internal constituencies—including its governing board, administration, faculty, staff, and students—in the institution’s governance</p>	
<p>3. Administration, faculty, staff, and students are involved in setting academic requirements, policy, and processes through effective structures for contribution and collaborative effort</p>	
<p>5.C. The institution engages in systematic and integrated planning.</p>	
<p>1. The institution allocates its resources in alignment with its mission and priorities.</p>	
<p>2. The institution links its processes for assessment of student learning, evaluation of operations, planning, and budgeting.</p>	<p>Possible</p>

<p>3. The planning process encompasses the institution as a whole and considers the perspectives of internal and external constituent groups.</p>	
<p>4. The institution plans on the basis of a sound understanding of its current capacity. Institutional plans anticipate the possible impact of fluctuations in the institution's sources of revenue, such as enrollment, the</p>	
<p>5. Institutional planning anticipates emerging factors, such as technology, demographic shifts, and globalization.</p>	
<p>5.D. The institution works systematically to improve its performance.</p>	
<p>1. The institution develops and documents evidence of performance in its operations.</p>	<p>Probable</p>
<p>2. The institution learns from its operational experience and applies that learning to improve its institutional effectiveness, capabilities, and sustainability, overall and in its component parts.</p>

1	Graduates will demonstrate the ability to integrate knowledge of business theory and practice in the design of viable business models, and to assess legal, competitive, financial, and technological challenges or opportunities for that model.											
2	Graduates will demonstrate the ability to analyze personal and corporate values utilizing the framework of a Christian worldview.											
3	Graduates will assess, articulate, and demonstrate the function and value of interpersonal skills in organizational settings involving groups and teams.											
4	Graduates will demonstrate knowledge and skills of research, problem solving, and decision-making with appropriate written and oral communication of results and action plans.											
5	Graduates will demonstrate awareness of international business trends, and assess their impact on traditional business practices in the United States.											
6	Graduates will demonstrate the ability to integrate knowledge of global business strategies when evaluating the marketing, communications, and planning needs of a business.											
Student Learning Outcomes												
1.1	The student will use measurable indices and ratios to identify and emphasize challenges and opportunities and to effectively design business process based on that knowledge.											
1.2	The student will identify and analyze internal and external environmental variables that affect a firm's competitive advantage.											
2.1	The student will engage in discussion about business cases to identify ethical issues and challenges.											
2.2	The student will demonstrate the ability to address managerial problems through ethical and legal analysis.											
3.1	The student will collaborate with other students to apply teamwork principles on group projects.											
3.2	Students will work in designated or ad hoc work groups to review, discuss, analyze and present solutions based on case studies or source materials.											
4.1	The student will be able to make a professional and effective presentation to a group, utilizing presentation technologies such as PowerPoint, Prezi, Google Presentations, Keynote or other widely-used presentation tools.											
4.2	Students will demonstrate the ability to distinguish between quantitative and qualitative measurements and to determine the value of each for testing and structuring business models.											
5.1	Student will demonstrate an awareness of international perspectives and global challenges in written assignments.											
5.2	The student will evaluate competitive forces, with the goal of developing and implementing appropriate strategies to compete effectively in the marketplace.											
6.1	The student will discover how environmental factors and the global business environment affect strategic management decisions.											
6.2	The student will analyze and apply eCommerce in international marketing strategies, including the use of social networks and methods of communication and commerce.

End of Course Data-driven Decision (D3) Forms

Healthcare Management, Program Review, Section 10

Instructor/Faculty Evaluations

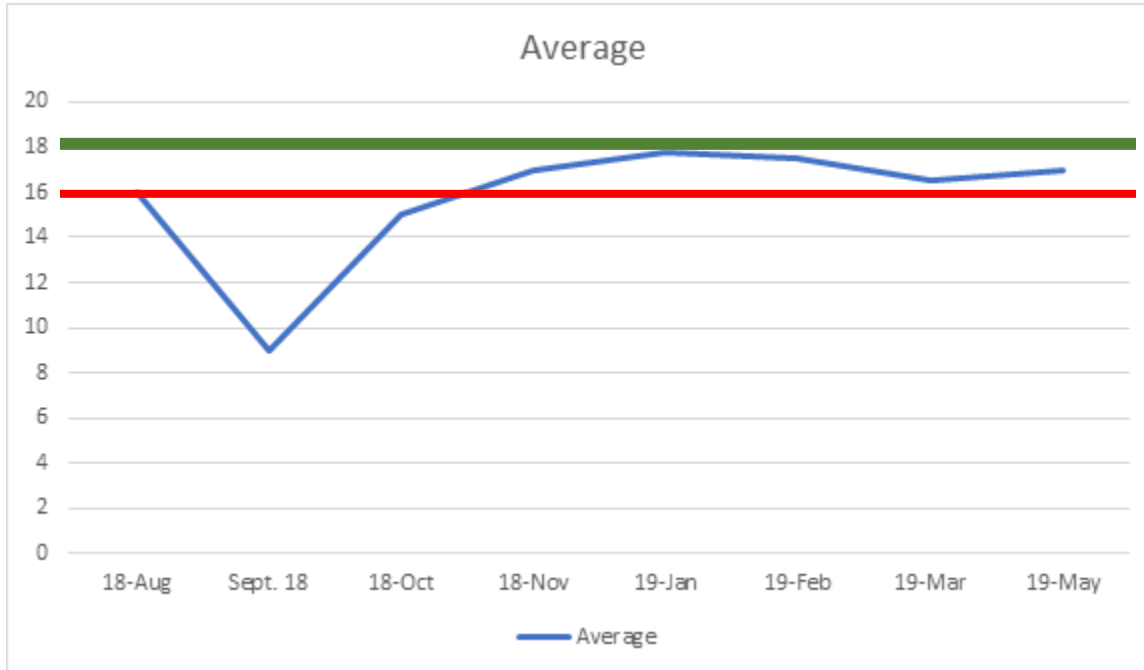

Faculty Monitoring and Performance 2018 through 2020

Faculty Performance on Contract Expectations: February 2018 – April 2018 [No access to data prior to 2/2018]. This chart reflects a performance score with 10 possible points.

The current Program Director started in this position in March 2018, monitoring began in March with an audit of courses from the prior month. Data from auditing the classroom showed concerns with the inconsistencies in performance on contract expectations. The lowest score was 3 contract indicator points out of 10 possible indicators of the contract expectations. Only one faculty member met all 10 indicators and 2 met an acceptable range of performance (8) between February and April in 2018.

Faculty Performance on Contract Expectations: August 2018 through May 2019. In August 2018, the CAGS Dean implemented a revised Monitoring Metrics for Faculty Performance. The following charts reflect scores based on 18 indicators from the Faculty Contract. Faculty who were performing below 16 indicator points were identified and coached on how to improve performance and better meet their contract expectations. During the Fall of 2018 faculty consistently remained above the minimum expectation.

Faculty Performance on Contract Expectations: June 2019 – Faculty performance dropped during the February-March course sections. This change in performance may or may not reflect the issues related to the pandemic. In response to COVID pressures, strategies were implemented offer support to faculty during this time appears. During April and May performance resumed with decline in June but moving upward during the Fall sections.

CAGS End of Course (EOC) Evaluation Survey AY18-19 (2nd QTR)

1. My instructor responded to questions within 48 hours.
2. My instructor encouraged my participation in the course through discussions.
3. My instructor provided regular updates about our class through the News section, discussion boards, c
4. My instructor provided feedback on assignments within 5 class days of the due date for CAGS courses.
5. The feedback received on assignments and discussions helped me learn the material for the course.
6. The feedback received on assignments and discussions helped me know how to improve on future wo
7. The instructor enhanced our course through supplemental relevant content.
8. Instructions on assignments, discussions, and other course expectations were clear.
9. The concepts, materials, and activities of this course are useful outside of the classroom.
10. The workload for this course was what should be expected for a course at this level.
11. The resources provided in the course helped me achieve course objectives.
12. What are the strengths of the instructor?
13. How might the instructor be more effective?
14. What do you like best about this course?
15. What do you suggest to improve this course?

CAGS End of Course (EOC) Evaluation Survey AY18-19 (2nd QTR)

Mean Score

1. My instructor responded to questions within 48 hours.
 2. My instructor encouraged my participation in the course through discussions.
- My instructor provided regular updates about our class through the News section, discussion boards, class announcements, and other communication methods.
- My instructor provided feedback on assignments within 5 class days of the due date for CAGS courses / 2 weeks for other courses.
- The feedback received on assignments and discussions helped me learn the material for the course.
- The feedback received on assignments and discussions helped me know how to improve on future work in the course.
- The instructor enhanced our course through supplemental relevant content.
- Instructions on assignments, discussions, and other course expectations were clear.
- The concepts, materials, and activities of this course are useful outside of the classroom.
- The workload for this course was what should be expected for a course at this level.
- The resources provided in the course helped me achieve course objectives.
- What are the strengths of the instructor?
- How might the instructor be more effective?
- What do you like best about this course?
- What do you suggest to improve this course?

Large Student Evaluation Score
December 2019

CAGS End of Course (EOC) Evaluation Survey AY18-19 (2nd QTR)

1. My instructor responded to questions within 48 hours.
2. My instructor encouraged my participation in the course through discussions.
3. My instructor provided regular updates about our class through the News section
4. My instructor provided feedback on assignments within 5 class days of the due date
5. The feedback received on assignments and discussions helped me learn the material
6. The feedback received on assignments and discussions helped me know how to improve
7. The instructor enhanced our course through supplemental relevant content.
8. Instructions on assignments, discussions, and other course expectations were clear
9. The concepts, materials, and activities of this course are useful outside of the classroom
10. The workload for this course was what should be expected for a course at this level
11. The resources provided in the course helped me achieve course objectives.
12. What are the strengths of the instructor?
13. How might the instructor be more effective?
14. What do you like best about this course?
15. What do you suggest to improve this course?

CAGS End of Course (EOC) Evaluation Survey Questions

1. My instructor responded to questions within 48 hours.
2. My instructor encouraged my participation in the course through discussions.
3. My instructor provided regular updates about our class through the News section, discussion boards, c
4. My instructor provided feedback on assignments within 5 class days of the due date for CAGS courses.
5. The feedback received on assignments and discussions helped me learn the material for the course.
6. The feedback received on assignments and discussions helped me know how to improve on future wo
7. The instructor enhanced our course through supplemental relevant content.
8. Instructions on assignments, discussions, and other course expectations were clear.
9. The concepts, materials, and activities of this course are useful outside of the classroom.
10. The workload for this course was what should be expected for a course at this level.
11. The resources provided in the course helped me achieve course objectives.
12. What are the strengths of the instructor?
13. How might the instructor be more effective?
14. What do you like best about this course?
15. What do you suggest to improve this course?

CAGS End of Course (EOC) Evaluation Survey Questions

1. My instructor responded to questions within 48 hours.
2. My instructor encouraged my participation in the course through discussions.
3. My instructor provided regular updates about our class through the News section, discussion boards, c
4. My instructor provided feedback on assignments within 5 class days of the due date for CAGS courses .
5. The feedback received on assignments and discussions helped me learn the material for the course.
6. The feedback received on assignments and discussions helped me know how to improve on future wo
7. The instructor enhanced our course through supplemental relevant content.
8. Instructions on assignments, discussions, and other course expectations were clear.
9. The concepts, materials, and activities of this course are useful outside of the classroom.
10. The workload for this course was what should be expected for a course at this level.
11. The resources provided in the course helped me achieve course objectives.
12. What are the strengths of the instructor?
13. How might the instructor be more effective?
14. What do you like best about this course?
15. What do you suggest to improve this course?

3.00	3.00	3.00	2.00	Prompt communication.	N/A	I enjoyed the discussion posts.
4.00	4.00	4.00	4.00	The instructor is knowledgeable about the information covered in this course.	The instructor is already effective by being well prepared and flexible at the same time.	The objectives taught in this course are very useful in the business world.
4.00	4.00	3.00	4.00	Professor Bell is a excellent educator.	N/A	N/A
3.00	3.00	3.00	3.00	Communication	N/A	It helped me with my job.
2.00	2.00	3.00	2.00	N/A	N/A	N/A
4.00	4.00	4.00	4.00	"Motivating, engaging and responsive. Outstanding professor!"	I would appreciate if the instructors were consistent with the APA format guidelines. I am nearly finished with my degree and have received perfect scores on my APA formatting from some instructors while others say that I am wrong.	I enjoyed everything about it. I especially appreciate that I did not need to purchase books or other materials.
3.00	2.00	3.00	2.00	N/A	N/A	N/A
4.00	4.00	4.00	4.00	Communication and explanation	I think she has done a great job	Learning different methods of the learning cycle

<p>"I believe it would have benefitted me, to have had more realistic examples than just the book. Some of the hint videos on the assignments were very helpful, but I still needed more. I felt there was too long of a gap between this course and other business finance courses, so I had some difficulty with formulas. I tried MACU tutoring, it was okay but enough and reached out to someone in my community for more support to catch up."</p>
<p>This course is good as it is.</p>
<p>N/A</p>
<p>N/A</p>
<p>If you have material that is covered over all 5 weeks you cannot use feedback to write the next section because had not been received</p>
<p>This course is great.</p>
<p>This course would be best served with a virtual classroom environment</p>
<p>I would'nt change anything about it. I really enjoyed this class</p>

End Date:	10/21/2019

Scale:	0=not at all .5=partial 1=met expectations
---------------	---

Adam,

Your weekly lectures are great, very interesting! Your enthusiasm for law is evident!! Our students are very blessed to learn about the legal aspects of healthcare from you. Thank you for your diligence and creativity in making this course interesting and engaging! You are the primary instructor for this course, and I have added you to the MBA schedule as well. See my comments below.

Many Blessings,

Kelly Riesenmy, PhD

		Possible Points	Actual Points	Comments
Course Set Up	1a Welcome message posted to the news section 5 days prior to the start date.	1	1	
	1b Participation register created by start date	1	1	
	1c Calendar developed for the course by start date	1	1	
	1d News item with office hours and means of contact posted	1	1	
Instructor Presence	2a Available to students for Office Hours at least two hours a week, using a real-time, interactive medium of your choice (phone, video chat, YouSeeU, etc.).	1	1	
	2b Respond to student inquiries or requests for assistance within 24 hours	1	1	
	2c Post weekly updates to the News Section of the course	1	1	Outstanding – model work!
	2d Post a biblical concept or truth weekly via discussions or the News Section	1	0	Please let me know if I missed the weekly biblical truth. You can add those into

				your weekly News update or in your discussion posts.
Deadlines	3a Participation from the previous week is to be accurately recorded on the first day of Weeks 2 and 3.	1	1	
	3b Mid-term grades must be submitted to the MACU Portal by Day 5 (Saturday) of Week 3	1	1	
	3c Final grades must be posted to D2L and the MACU Portal no later than 7 days after the end of the course.	1	1	
Discussions	4a Must respond to at least ½ (one discussion) or ⅓ (two discussions) of posts on each discussion by Day 5 (Saturday) of the course to allow students the opportunity to read your response and reply.	1	1	
	4b Discussion posts should be instructive, referencing course materials or supplemental resources	1	1	Your extensive weekly videos provided good groundwork for the discussion. You refer to the textbook in your video which help students get into the material.
	4c Discussion posts should be engaging, asking questions or pointing out specific highlights or issues with student posts	1	1	
Feedback	5a Feedback on all student work must be completed, with comments, within 5 days of the due date.	1	1	
	5b When available, rubrics must be used for grading and specific rubric scores explained in student feedback	1	1	
	5c Feedback should be: Personalized to student, Encouraging, Instructive, explaining both strengths and areas for improvement	1	1	Your grading feedback is great – you might want to add their name to it just to personalize it a bit.
	5d As appropriate, feedback should point students to tutorial resources	1	1

End Date:	9/23/2019

Scale:	0=not at all .5=partial 1=met expectations
---------------	---

NOTE: Not included on the instructor’s feedback is that the student complained that the instructor yelled at her. I have no evidence to support the student’s claim. The student reported the incident to student services and asked for an extension. In discussing the matter with Dr. Clark, she did admit to being very upset with the student for being late with her work. Dr. Clark had a funeral to attend and did not want to do an incomplete. Dr. Riesenmy allowed the student to do an incomplete to finish the final project under her instruction. Dr. Clark completed grading except for the final project.

Dr. Clark,

I appreciate your work on this course. You clearly worked closely with your student. She finished well with a “B” in the course. I hope that your family is doing well.

Thank you for sharing your knowledge and expertise! Let me know if you have any questions or concerns.

Many Blessings,

Dr. Kelly Riesenmy

Andrew,

Great job teaching your first course at MACU! I'm impressed with your presence in the course. For your next course, areas I would like to see you develop is building a dialog with students in the discussion board and providing rich grading feedback. See the comments below for my tips and recommendations in those areas. Please feel free to give me a call if you have any questions or concerns. Good first run!!

Many Blessings,

Kelly Riesenmy, PhD

		Possible Points	Actual Points	Comments
Course Set Up	1a Welcome message posted to the news section 5 days prior to the start date.	1	1	
	1b Participation register created by start date	1	1	
	1c Calendar developed for the course by start date	1	1	
	1d News item with office hours and means of contact posted	1	1	
Instructor Presence	2a Available to students for Office Hours at least two hours a week, using a real-time, interactive medium of your choice (phone, video chat, YouSeeU, etc.).	1	1	
	2b Respond to student inquiries or requests for assistance within 24 hours	1	1	The response to the student's question in the virtual office is just a little over 24 hours, but not by much.

	2c Post weekly updates to the News Section of the course	1	1	
	2d Post a biblical concept or truth weekly via discussions or the News Section	1	1	
Deadlines	3a Participation from the previous week is to be accurately recorded on the first day of Weeks 2 and 3.	1	1	
	3b Mid-term grades must be submitted to the MACU Portal by Day 5 (Saturday) of Week 3	1	1	
	3c Final grades must be posted to D2L and the MACU Portal no later than 7 days after the end of the course.	1	1	
Discussions	4a Must respond to at least ½ (one discussion) or ⅓ (two discussions) of posts on each discussion by Day 5 (Saturday) of the course to allow students the opportunity to read your response and reply.	1		
	4b Discussion posts should be instructive, referencing course materials or supplemental resources	1	.5	You were present and provided instruction and thought-provoking questions. I encourage you to refer to the textbook on at least ½ of response posts. By doing so you will model expectations for posts and APA format for students. I really appreciate your work in week 5!
	4c Discussion posts should be engaging, asking questions or pointing out specific highlights or issues with student posts	1	.5	Encourage students to build a dialog by returning to students you've responded and reply to their answers/comments to your questions. It is good for them to know you are following-up with them. In some instances, you may need to help them better understand a concept or issue.
Feedback	5a Feedback on all student work must be completed, with comments, within 5 days of the due date.	1	1	
	5b When available, rubrics must be used for grading and specific rubric scores explained in student feedback	1	.5	You did a great job of keeping students on track for late submission. Take time to make comments on the papers or a direct reference in the grading feedback box to areas on their papers for more in depth instruction.

				<p>The grading feedback box is to be used to give students specific feedback on ways to improve and/or reasons for point deductions. You can also add comments directly on their papers using the D2L tools. Address the student by name. If you make comments on the paper, you can use a modifiable "canned" feedback to paste into the feedback box. Let me know if you would like more information on using the "canned" feedback approach. Grading feedback is the area where teaching is most valuable for students. For journal feedback, it is important for student to know that you read their thoughts. Provide feedback to them that reflects your interest in what they had to say in the journal.</p>
	5c Feedback should be: Personalized to student, Encouraging, Instructive, explaining both strengths and areas for improvement	1	0	
	5d As appropriate, feedback should point students to tutorial resources	1	1

Andy,

Thank you for your excellence in instruction! I Please keep up the great work! Retaining students is our number one objective. Your presence and level of instruction offers value but also shows students that you are serious so they should be serious about their education, too! Thank you!! In week 5, I noticed that you copied the rubric. Let me know if a rubric is not available in courses. All the HCM courses should have rubrics, they should all be downloadable in MSWord. In MSWord, while in the table, the far-right Layout link will appear in the toolbar, go to formula, and it should calculate the total in the total cell of the table. Let me know if you have any questions or needs with your next course. Thank you again for all you do for your students!

Scale:	0=not at all .5=partial 1=met expectations
---------------	---

Hi Dr. Irwin,

I hope you are doing well considering COVID19. I appreciate you checking-in with students during discussion board about how they were doing since the course coincided with shelter-at-home orders and other higher rates of contagion. Good work in retaining students during this difficult transition for so many people!

The omissions in the course are easy to remedy. The School of Business Leadership has instituted a policy to offer courses to instructors with scores on faculty contract expectations that are greater than 16 points. Accomplishing the two areas described below would help you meet those contracted obligations. Let me know if you have any questions.

Thank you for sharing your expertise with the students. I know they value your instruction. We appreciate you!

Many Blessings,

Kelly Riesenmy, PhD

Associate Professor/Program Director HCM

		Possible Points	Actual Points	Comments
Course Set Up	1a Welcome message posted to the news section 5 days prior to the start date.	1	1	
	1b Participation register created by start date	1	1	
	1c Calendar developed for the course by start date	1	0	It does take a few moments to enter the due dates for

				assignments, but even if you could add major project or group project due dates, it would help students and allow me to check this off your expectations met. The calendar is now visible in the right side of the course page so students see those deadlines as soon as they log into the course.
	1d News item with office hours and means of contact posted	1	1	
Instructor Presence	2a Available to students for Office Hours at least two hours a week, using a real-time, interactive medium of your choice (phone, video chat, YouSeeU, etc.).	1	1	Thanks for making a note in week 2 that you covered the question from Frankie in an email.
	2b Respond to student inquiries or requests for assistance within 24 hours	1	1	
	2c Post weekly updates to the News Section of the course	1	1	
	2d Post a biblical concept or truth weekly via discussions or the News Section	1	0	Let me know if I overlooked a biblical concept in your course week. It is very easy to add a scripture or inspirational Christian concept or ethical perspective in your weekly news announcement or your weekly post to students in discussion board.
Deadlines	3a Participation from the previous week is to be accurately recorded on the first day of Weeks 2 and 3.	1	1	
	3b Mid-term grades must be submitted to the MACU Portal by Day 5 (Saturday) of Week 3	1	1	
	3c Final grades must be posted to D2L and the MACU Portal no later than 7 days after the end of the course.	1	1

	2b Respond to student inquiries or requests for assistance within 24 hours	1	1	
	2c Post weekly updates to the News Section of the course	1	.5	You used your News Announcement for the welcome and good reminder that you are available to students. Use the News Announcement to add a

				weekly update. I usually copy the overview for the week from the course content folder and paste it into the News Announcements. I schedule it to appear on Tuesday at 12am Click here for a quick how-to-video
	2d Post a biblical concept or truth weekly via discussions or the News Section	1	1	
Deadlines	3a Participation from the previous week is to be accurately recorded on the first day of Weeks 2 and 3.	1	1	
	3b Mid-term grades must be submitted to the MACU Portal by Day 5 (Saturday) of Week 3	1	1	
	3c Final grades must be posted to D2L and the MACU Portal no later than 7 days after the end of the course.	1	1	
Discussions	4a Must respond to at least ½ (one discussion) or ½ (two discussions) of posts on each discussion by Day 5 (Saturday) of the course to allow students the opportunity to read your response and reply.	1	.5	We hope that instructors will interact with students a couple of times through the course week. I recommend a pattern of Friday, Saturday or Sunday, and again to follow-up to response posts on Monday. This pattern generally reflects students' pattern of posting, too.
	4b Discussion posts should be instructive, referencing course materials or supplemental resources	1	1	
	4c Discussion posts should be engaging, asking questions or pointing out specific highlights or issues with student posts	1	1	I really appreciated you posting as another student in the course! This is outstanding! It also gave you a wonderful vehicle to teach!
Feedback	5a Feedback on all student work must be completed, with comments, within 5 days of the due date.	1	1	
	5b When available, rubrics must be used for grading and specific rubric scores explained in student feedback	1	1	Rubrics are available to use, and you may feel free to adapt.
	5c Feedback should be: Personalized to student, Encouraging, Instructive, explaining both strengths and areas for improvement	1	1	Great to see you do track changes. Don't hold back from making comments in response to good or poor topic content in the assignment.

	5d As appropriate, feedback should point students to tutorial resources	1	1

Program Director Evaluation Rubric for Instructor Monitoring Evaluation on Expectations in the Instructor Agreement

Instructor:	Cindy Milam
Course:	HC4303
Section:	06W1
Term:	19SU
End Date:	7/8/2019

Scale:	0=not at all .5=partial 1=met expectations
---------------	---

Cindy,

You deserve an award for grace and patience for this term! You handled a variety of difficult situations professionally and God-honoring! We greatly appreciate you working with the students. When you teach this course again, you will find it much more student and instructor friendly! I padded it with additional resources and revised the assignments. Deep links to Mindtap are now embedded into D2L, including the Mindtap gradebook. Instructor grading is greatly reduced. I look forward to you teaching again!

Dr. Kelly Riesenmy

Hi Kathleen,
 You were present in the course and interacted well with Debra, your student. Below is a list of the areas on the contract that are assessed on our analytics and reviewed by the Chair and Dean. Note the areas below that are important to maintain in the course. I've added some tips that might help you efficiently meet these contract expectations. Let me know if you have any comments or concerns. It was good to see that Debra and you had a good working relationship during the course.
 Thank you!

Create course events in Calendar

To create course events in Calendar

1. On the navbar, click **Calendar**.
2. Click **Create Event**.
3. To associate course content with the event, click  **Add Content**. Select the module from which you want to add content. Click **Add**.

4. Do one of the following:

- If you've associated course content with the event and want to use a custom name for the event, select the **Use custom name** check box. Enter a name for your event.
- If you have not associated course content with the event, enter a name for your event.

5. To add date and time details to your course event, in the **When** area, click on the provided fields.

6. To add recurrences to the event, click  **Add Recurrence**. Enter your event recurrence details.

7. To add restrictions to the event, click  **Add Restriction**. Enter your event restriction details.

8. To add a location for the event, from the **Location** drop-down list, select the location.

9. Click **Create**.

Program Director Evaluation Rubric for Instructor Monitoring Evaluation on Expectations in the Instructor Agreement

Instructor:	Dr. Jack McCaffery
Course:	MGMT4304
Section:	03W1
Term:	20S2
End Date:	4/27/20

Scale:	0=not at all .5=partial 1=met expectations
---------------	--

Dr. McCaffery,

It is nice to meet you! I am the Program Director for the Healthcare Management Program. I am currently overseeing MGMT4304. As part of that oversight, I will be helping instructors with their work in the course. My role is to assist you with course content needs and coach you in areas that need attention. I reviewed the course for the March-April term, and I am very impressed with your weekly video lectures, and good interaction and presence with students. I have provided some tips below on how to better meet your contract expectations. The School of Business Leadership is implementing a policy that contracts for courses will be offered to instructors who do not fall below 16 on Contract Expectations. We appreciate all you do for your students. It is apparent that they enjoy interacting with you. Let me know if you have any questions or concerns.

Many Blessings,

Dr. Kelly Riesenmy

Associate Professor/Program Director Healthcare Management

Program Director Evaluation Rubric for Instructor Monitoring Evaluation on Expectations in the Instructor Agreement

Instructor:	Jenna Lawter
Course:	HC4303
Section:	10W1
Term:	19F2
End Date:	11/25/2019

Scale:	0=not at all .5=partial 1=met expectations
---------------	---

Jenna,

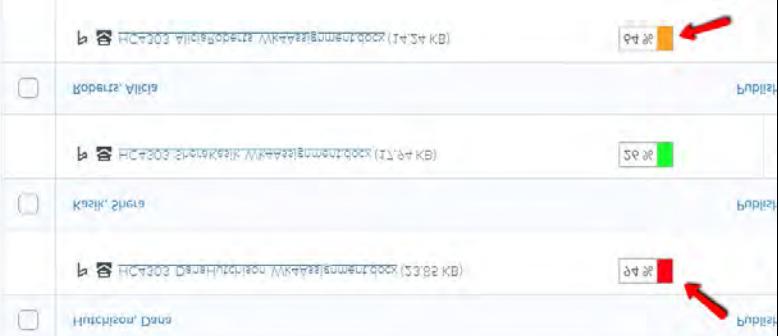

Thank you for being available and resourceful in adapting to the interface with Mindtap. Ultimately, I believe it will make this an easier course to teach. I have several coaching tips for you below. If you have any questions of concerns, please let me know. We appreciate you.

Kelly Riesenmy, PhD

		Possible Points	Actual Points	Comments
Course Set Up	1a Welcome message posted to the news section 5 days prior to the start date.	1	1	
	1b Participation register created by start date	1	1	
	1c Calendar developed for the course by start date	1	1	
	1d News item with office hours and means of contact posted	1	1	
Instructor Presence	2a Available to students for Office Hours at least two hours a week, using a real-time, interactive medium of your choice (phone, video chat, YouSeeU, etc.).	1	1	An easy way to cover a lot of student questions is to open the virtual office with a thread. Students often post questions that other students have and answering them in one place is a great way to reduce the number of questions via email.
	2b Respond to student inquiries or requests for assistance within 24 hours	1	1	
	2c Post weekly updates to the News Section of the course	1	1	
	2d Post a biblical concept or truth weekly via discussions or the News Section	1	1	
Deadlines	3a Participation from the previous week is to be accurately recorded on the first day of Weeks 2 and 3.	1	1	

	3b Mid-term grades must be submitted to the MACU Portal by Day 5 (Saturday) of Week 3	1	1	
	3c Final grades must be posted to D2L and the MACU Portal no later than 7 days after the end of the course.	1	1	Thank you for your availability with Cengage to make sure that all the pieces of the deep link fell into place. Great job!!
Discussions	4a Must respond to at least ½ (one discussion) or ⅓ (two discussions) of posts on each discussion by Day 5 (Saturday) of the course to allow students the opportunity to read your response and reply.	1	0	Good interactions in week 1-3 but in weeks 4 and 5 you were not present in the discussion. In courses with 1 discussion, the expectation is to respond to ½ of the students, which would have been 4-5 interactions in each discussion board. The discussion board is the classroom, so this is a very important place to teach. If you have a situation that limits your ability to be in the discussion, please let me know.
	4b Discussion posts should be instructive, referencing course materials or supplemental resources	1	.5	Your interactions were positive and informative. Be sure to provide support for your instructions by citing your sources. This helps to point students to the source of your knowledge.
	4c Discussion posts should be engaging, asking questions or pointing out specific highlights or issues with student posts	1	1	
Feedback	5a Feedback on all student work must be completed, with comments, within 5 days of the due date.	1	1	
	5b When available, rubrics must be used for grading and specific rubric scores explained in student feedback	1	0	Grading feedback is the second area of the course to teach. It is important when you make point deductions to explain to students why they have deductions and how they can improve. For example, on reference lists when they do not adhere to APA format, either give them an example or give them a link such as Purdue OWL APA Guidelines . I recommend using the rubrics in grading, it helps you to accurately make deductions and it shows students where to improve. Much like this coaching sheet, you can copy and paste the rubric to show deductions and provided a sentence or two of feedback. (See Elizabeth Steele's week 2 as an example where a rubric would be helpful to explain why she should have had 10 points deducted for not including annotations). Let me know if you have any questions. I am happy to go over this with you.
	5c Feedback should be: Personalized to student, Encouraging, Instructive, explaining both strengths and areas for improvement	1	0	Similarly, in giving feedback do not hold back on the critiquing aspect of your feedback. Again, the rubric will help you in this area. Also, in case you aren't familiar with Turnitin it is our plagiarism software. For example, when you see red, orange, or yellow bars you should click on the Turnitin link located in the student's dropbox on the upper left top of the assignment. See

				<p>attached report. In this case, contact me and you and I can discuss next steps with the student on high Turnitin reports.</p> 	
	<p>5d As appropriate, feedback should point students to tutorial resources</p>	<p>1</p>	<p>0</p>	<p>You and I can talk more about next steps to refer students in cases of plagiarism, doing an early alert, or referring to tutoring.</p>	
		<p>TOTAL</p>	<p>18</p>	<p>13.5</p>

Program Director Evaluation Rubric for Instructor Monitoring Evaluation on Expectations in the Instructor Agreement

Instructor:	Ms. Kyli Fitzgerald
Course:	HC3213
Section:	06W1
Term:	SU20
End Date:	7/6/20

Scale:	0=not at all .5=partial 1=met expectations
---------------	---

Revised evaluation after meeting on July 23,2020

Kyli,

It was a pleasure to meet you in a video call today (putting a face to the name is wonderful!). Thank you for sending me the update on what happened to assignments in week 5 and your resolution via email. I am glad you took the initiative to immediately help students. As we discussed, let us know when technical glitches occur so we can help resolve the problem. Do as much as with the students as possible via D2L to show-off your good work. I hope that using a modifiable “canned” grading feedback with rubrics will increase efficiency in grading while still giving students specific areas where they can improve. We appreciate your work and look forward to you working with students in the next course. Let me know if you need anything. See revised evaluation below.

Kyli,

We should set-up a time to go over the grading for the course. Your interactions in discussion board are fine. ~~I am concerned about grading feedback. Particularly in week 5, only 3 of the 7 people submitted work yet the 4 without work have grades assigned in the gradebook.~~ Other areas we should review are the Virtual Office and follow-up in discussion board. Your overall evaluation is ~~12.5~~ which falls below the 16-threshold placing you on hold for teaching future courses. I value the expertise you bring to this course. For you to teach future courses, we need to go over your contractual agreement to teach for us. Please let me know a convenient time for you to do a video chat. Thank you.

I look forward to working with you,

Dr. Kelly Riesenmy
Associate Professor/HCM Program Director

		Possible Points	Actual Points	Comments
Course Set Up	1a Welcome message posted to the news section 5 days prior to the start date.	1	1	

	1b Participation register created by start date	1	1	
	1c Calendar developed for the course by start date	1	1	
	1d News item with office hours and means of contact posted	1	1	
Instructor Presence	2a Available to students for Office Hours at least two hours a week, using a real-time, interactive medium of your choice (phone, video chat, YouSeeU, etc.).	1	1	
	2b Respond to student inquiries or requests for assistance within 24 hours	1	1	
				I recommend copy and pasting the weekly overview in the course content. Also consider doing a video note introduction to the week, give them instruction for what you hope they will gain from the week, or do a devotional or all the above. The News Announcement go to students' email so it is a good prompt to them to begin the week.
	2c Post weekly updates to the News Section of the course	1	.5	
	2d Post a biblical concept or truth weekly via discussions or the News Section	1	1	
Deadlines	3a Participation from the previous week is to be accurately recorded on the first day of Weeks 2 and 3.	1	1	
	3b Mid-term grades must be submitted to the MACU Portal by Day 5 (Saturday) of Week 3	1	1	
	3c Final grades must be posted to D2L and the MACU Portal no later than 7 days after the end of the course.	1	1	
Discussions	4a Must respond to at least ½ (one discussion) or ⅓ (two discussions) of posts on each discussion by Day 5 (Saturday) of the course to allow students the opportunity to read your response and reply.	1	1	
	4b Discussion posts should be instructive, referencing course materials or supplemental resources	1	1	
	4c Discussion posts should be engaging, asking questions or pointing out specific highlights or issues with student posts	1	1	
Feedback	5a Feedback on all student work must be completed, with comments, within 5 days of the due date.	1	1	
				Copy and paste the rubric then adjust the points according to each student's performance. They will better understand specifically where improvements are required.
	5b When available, rubrics must be used for grading and specific rubric scores explained in student feedback	1	.5	
	5c Feedback should be: Personalized to student, Encouraging, Instructive, explaining both strengths and areas for improvement	1	.5	Give students grading feedback as you did in the

				email, in the D2L feedback dropbox.
	5d As appropriate, feedback should point students to tutorial resources	1	1

Program Director Evaluation Rubric for Instructor Monitoring Evaluation on Expectations in the Instructor Agreement

Instructor:	Dr. Claret Onukogu
Course:	HC5243
Section:	02W1
Term:	20S1
End Date:	3/30/20

Scale:	0=not at all .5=partial 1=met expectations
---------------	---

Dr. Onukogu,

We are thankful to have an instructor with your experience and knowledge teaching our students. Below you will find my coaching tips to help you meet your contractual agreement with MACU. Typically, we do not offer contracts to instructors who fall below 16 points on their contract. I believe you have a lot to offer our students so please review my recommendations. If you apply these strategies, you will notice greater student retention and participation. I realize that during week 5 of the course that the COVID19 issue was becoming more serious. One of your students seems to have dropped off in weeks 5 and 6. It would be very important in this case to reach out to the student. Always feel free to contact me about ways to help students who seem to be struggling with course work or participation. Please let me know if you have any questions or concerns about the evaluation.

Blessings,

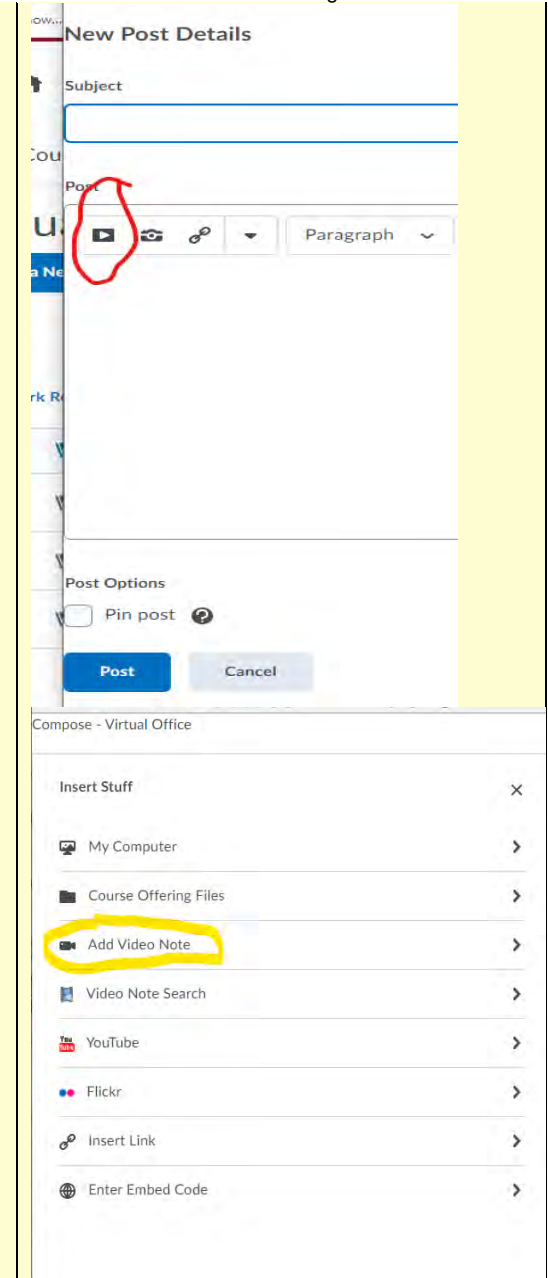

Dr. Kelly Riesenmy

Program Director, Healthcare Management

		Possible Points	Actual Points	Comments
Course Set Up	1a Welcome message posted to the news section 5 days prior to the start date.	1	1	
	1b Participation register created by start date	1	1	
	1c Calendar developed for the course by start date	1	0	You can easily set-up the course calendar by inserting the course contents for the first day of each course week and

				<p>identifying due dates on the calendar. Watch this video for the easy how-to-tips.</p> 
	1d News item with office hours and means of contact posted	1	1	
Instructor Presence	2a Available to students for Office Hours at least two hours a week, using a real-time, interactive medium of your choice (phone, video chat, YouSeeU, etc.).	1	1	I like your photo with instructor information in the virtual office! This was excellent – building presence is important, and this was a great start!
	2b Respond to student inquiries or requests for assistance within 24 hours	1	0	Virtual office was a 6-day delay. I try to check the virtual office every day, if not every other day.
	2c Post weekly updates to the News Section of the course	1	0	A weekly News Announcement can introduce the topic for each week, give them encouragement for the assignment, and a great place to put a devotion or scripture to encourage students.
	2d Post a biblical concept or truth weekly via discussions or the News Section	1	0.5	I appreciate the scripture posted in the discussion board, but what we really hope to see instructors do is take a biblical truth and apply it to the topic. Post a scripture for each week ahead of time does not fit well in the discussion board because no real discussion sprung from the post. I encourage you to take this idea but use it to help students use God’s word to understand the topic spiritually or open their minds to a biblical view of the topic.
Deadlines	3a Participation from the previous week is to be accurately recorded on the first day of Weeks 2 and 3.	1	1	
	3b Mid-term grades must be submitted to the MACU Portal by Day 5 (Saturday) of Week 3	1	1	

	3c Final grades must be posted to D2L and the MACU Portal no later than 7 days after the end of the course.	1	1	
	4a Must respond to at least ½ (one discussion) or ⅓ (two discussions) of posts on each discussion by Day 5 (Saturday) of the course to allow students the opportunity to read your response and reply.	1	1	
Discussions				You have posted some good questions to students. The main post you include in each week do not seem to relevant to the topic. For example, in week 6 the discussion is about a specific case in the textbook. You started a thread about The Natural Environment relating to grand projects that do not relate to the case or HIT but about the use of grant money for environmental health issues. I love the idea of a main post for students to begin an interaction with you. Be sure that it connects with the topic so not to confuse students. I see one student desperately wanting to connect with you on these topics.
	4b Discussion posts should be instructive, referencing course materials or supplemental resources	1	0.5	
	4c Discussion posts should be engaging, asking questions or pointing out specific highlights or issues with student posts	1	0.5	I encourage faculty to build a discussion with students by responding to answers students give to your questions/comments. The discussion board is like the classroom – participation with the instructor is a critical part of the classroom experience. You can even insert video to make the experience more personalize.

Feedback	5a Feedback on all student work must be completed, with comments, within 5 days of the due date.	1	1	
	5b When available, rubrics must be used for grading and specific rubric scores explained in student feedback	1	0.5	The course has rubrics for each assignment under Course Documents, Rubrics. I find that using the rubric can

				help students identify the specific area where they missed points. E
	5c Feedback should be: Personalized to student, Encouraging, Instructive, explaining both strengths and areas for improvement	1	1	
	5d As appropriate, feedback should point students to tutorial resources	1	1	
	TOTAL	18	13	

Program Director Evaluation Rubric for Instructor Monitoring Evaluation on Expectations in the Instructor Agreement

Instructor:	Andrew Rohn
Course:	HC3203
Section:	02W1
Term:	20S1
End Date:	3/23/20

Scale:	0=not at all .5=partial 1=met expectations
---------------	---

Andy,

Great job teaching the course! You are the frontline guy when teaching HC3203 (first emphasis course in HCM), so you are the setting the tone for expectations for students in the program. Note my recommendations for students who you identify as having poor writing skills. We need to encourage them to go to the writing center. See my tips and tricks below. Wonderful work – keep engaging our students with great discussion questions. Build a learning community with them! I loved your video – add videos often and frequently. We are finding students enjoy this facetime with instructors. It also shows students who they are interacting with during the course. Well done!

Blessings,

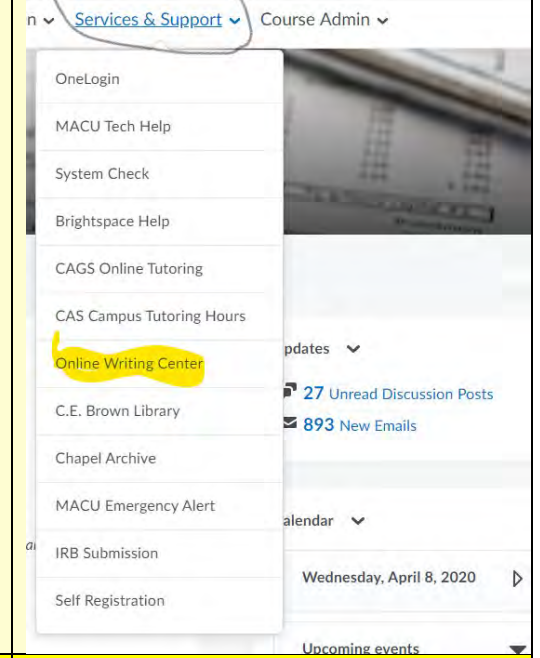

Kelly Riesenmy, PhD

Program Director, HCM

	1d News item with office hours and means of contact posted	1	1	
Instructor Presence	2a Available to students for Office Hours at least two hours a week, using a real-time, interactive medium of your choice (phone, video chat, YouSeeU, etc.).	1	1	
	2b Respond to student inquiries or requests for assistance within 24 hours	1	1	Good work with questions about the group assignment!

	2c Post weekly updates to the News Section of the course	1	1	
	2d Post a biblical concept or truth weekly via discussions or the News Section	1	1	
Deadlines	3a Participation from the previous week is to be accurately recorded on the first day of Weeks 2 and 3.	1	1	
	3b Mid-term grades must be submitted to the MACU Portal by Day 5 (Saturday) of Week 3	1	1	
	3c Final grades must be posted to D2L and the MACU Portal no later than 7 days after the end of the course.	1	1	
Discussions	4a Must respond to at least ½ (one discussion) or ⅓ (two discussions) of posts on each discussion by Day 5 (Saturday) of the course to allow students the opportunity to read your response and reply.	1	1	
	4b Discussion posts should be instructive, referencing course materials or supplemental resources	1	1	
	4c Discussion posts should be engaging, asking questions or pointing out specific highlights or issues with student posts	1	1	Take your discussions to the next level by acknowledging students' responses to your questions – let them know if they are on track or guide them back to your desired teaching point for your question.
Feedback	5a Feedback on all student work must be completed, with comments, within 5 days of the due date.	1	1	I like to use the grading feedback on the journals to connect with students – you can add your thoughts about their progress based on their reflections. I like the journal assignment for this reason.
	5b When available, rubrics must be used for grading and specific rubric scores explained in student feedback	1	1	I was glad to see you refer to the rubric in the feedback to one of the students. I recommend that you copy and paste the rubric into the grading feedback. Students can see specifically where points are deducted on their work. The assignment rubrics are in the "Content" link under "Instructor Only" where you can download the rubrics. Students can view them from their assignment folders.
	5c Feedback should be: Personalized to student, Encouraging, Instructive, explaining both strengths and areas for improvement	1	1	Don't hold back from guiding students on their writing quality.
	5d As appropriate, feedback should point students to tutorial resources	1	1	Don't hold back from guiding students on their writing quality. Refer them to the writing center if you find a problematic writer. I noticed one paper that was just a solid sheet of writing – this person would be good to send to the writing center. It is super easy – there is

a link under "Services & Support" students can directly access to get help.

Don,

Your courses are always amazing! You teach!! Which is so great to see in the discussion boards! You are present and interacting with students which is very exciting for the students. Your grading feedback is rich in detail for both encouragement, correction, and teaching! You are the best of our best! Sorry for the ding on the weekly Biblical concept or truth. If I missed something, please let me know. See my comment below on ways to make scripture stand out. We appreciate and value you greatly!! Thanks so much!!

Blessings,

Kelly Riesenmy, PhD

Deadlines	3a Participation from the previous week is to be accurately recorded on the first day of Weeks 2 and 3.	1	1	
	3b Mid-term grades must be submitted to the MACU Portal by Day 5 (Saturday) of Week 3	1	1	
	3c Final grades must be posted to D2L and the MACU Portal no later than 7 days after the end of the course.	1	1	
Discussions	4a Must respond to at least ½ (one discussion) or ⅓ (two discussions) of posts on each discussion by Day 5 (Saturday) of the course to allow students the opportunity to read your response and reply.	1	1	What happened in week 5? Debra Mann was the only one who posted.
	4b Discussion posts should be instructive, referencing course materials or supplemental resources	1	.5	You developed rich content in your discussion with students. Referencing the textbook or other articles is always appreciated – especially for HCL accreditation 😊
	4c Discussion posts should be engaging, asking questions or pointing out specific highlights or issues with student posts	1	1	
Feedback	5a Feedback on all student work must be completed, with comments, within 5 days of the due date.	1	1	
	5b When available, rubrics must be used for grading and specific rubric scores explained in student feedback	1	1	Dr. Hall (our Dean) encourages the use of the D2L comments tool. It is easier on brief assignments to offer all the feedback in the D2L box. Your grading feedback is detailed and instructive – thank you!!
	5c Feedback should be: Personalized to student, Encouraging, Instructive, explaining both strengths and areas for improvement	1	1	
	5d As appropriate, feedback should point students to tutorial resources	1	1	
	TOTAL	18	17.5

Professional Development of Faculty

College of Adult Graduate Studies

FACULTY GATHERING

February 8, 2020

The Faculty Gathering was inspired by a desire to express appreciation to the faculty at MACU for their dedication and service. Faculty are the face and heart of MACU. You make the difference in the lives of MACU students. You inspire and motivate them to *dream greater and do bigger!* Thank you!!

KEYNOTE SPEAKER

Beth Doyle

Vice President of Partner Success
Council for Adult and Experiential Learning (CAEL)

As vice president for partner success at CAEL, Doyle oversees a team providing services for workforce and economic developers, higher education institutions, and employers who improve learning opportunities for adults. Members of her team manage consulting projects, professional development offerings, advising services for employees, and technology-enabled tools that scale prior learning assessment and career navigation.

Doyle joined CAEL in October 2006. Previously, she was the associate vice president for marketing and communications and vice president for higher education services at CAEL, working directly with CAEL's highest-level clients and partners to raise awareness of CAEL's mission and provide consulting services and training. She also has 20 years of experience in brand building, marketing, and public relations, which she began building at a Chicago advertising agency.

Doyle started her learning journey at a community college and earned her bachelor's degree as a returning adult student at DePaul University. She also completed the Executive Development Program at Michigan State University and is currently pursuing her EdD at Fielding Graduate University. As a former and current returning adult student, Doyle understands the adult learner journey and is committed to providing those learning and career opportunities to others.

SCHEDULE OF EVENTS

Greetings	8:30 – 9:00am
Coffee and Pastries by Pioneer	Rooms KH117 & 118
Opening Ceremony: Steve Clouse	9:00 to 10:00am
Welcome and Prayer: Executive Vice President Dr. Spurgeon-Harris	
Keynote Speaker: Beth Doyle	

Adult Learners: The New Normal

This presentation will cover trends in higher education and workforce development and the challenges they present. Given these trends, a focus on adult learners is increasingly important for higher education. The presenter will cover some challenges and barriers that adult learners face in their college journey and discuss ways to overcome them.

BREAKOUT SCHEDULE

Break	10:00 to 10:15am
Coffee, tea, and water	Rooms K117 & 118

Breakout Sessions

Instructional Technology (waiting on a final title from them)

Presenters: Josh Waggoner and Michael Hurdman

Waiting on a description

Michael is a veteran of the United States Navy and served in Viet Nam aboard two aircraft carriers as a jet mechanic. He was a pastor for 26 years in Louisiana. He received his master's degree from Southwestern Christian University and has taught for Mid America Christian University since 2011. He became a full-time faculty member in 2015, serving in the College of Adult and Graduate Studies, Christian Ministries.

Josh's bio: waiting to receive this

Engaging Nontraditional Learners

TIME

Room

Presenter: Dr. Kelsey Carroll, Instructional Design Specialist, MACU

This breakout session explores the challenges nontraditional learners face in the online environment and the key factors that influence engagement and motivation. Strategies for engaging nontraditional learners will include the instructor's presence, the role of curriculum design, and the impact of content delivery in online learning environments.

Dr. Kelsey Carroll has been in the field of education for over 10 years with diverse experiences in teaching various age groups and learner backgrounds. Dr. Carroll's specializations and current research interests include instructional design and curriculum development. Her passion for English language learner transfers to her current work in creating online learning environments that foster learner autonomy and engagement.

Value Term	Definition	Cultural Competitor	Verse:
Integrity	We do the right things the right way for the right reasons.	Inconsistency	2 Corinthians 8:21
Accountability	We personally own the responsibility to deliver a remarkable MACU experience.	Apathy	1 Thessalonians 5:11
People	We compassionately respond and solve problems to effectively meet the needs of those we serve.	Process	Luke 6:31
Adaptability	We willingly navigate change to achieve the highest good.	Avoidance	Philippians 3: 13-14
Communication	We intentionally share information to empower those we serve.	Confusion	Colossians 4:6

II Corinthians 8:21

21 For we are taking pains to do what is right, not only in the eyes of the Lord but also in the eyes of man. NIV

I Thessalonians 5:11

11 Therefore encourage one another and build each other up, just as in fact you are doing. NIV

Luke 6:31

31 Do to others as you would have them do to you. NIV

Philippians 3:13 -14

13 Brothers and sisters, I do not consider myself yet to have taken hold of it. But one thing I do: Forgetting what is behind and straining toward what is ahead, **14** I press on toward the goal to win the prize for which God has called me heavenward in Christ Jesus. NIV

Colossians 4:6

6 Let your conversation be always full of grace, seasoned with salt, so that you may know how to answer everyone. NIV

People

URX VALUES EXERCISE

Values: The beliefs or standards that guide our actions

Values define who we are , what we are, why we act (or not) as we do, and how we interact with others.

- Who we are as CAS
- Who we are within our Schools
- Who are we as Instructors/Professors/Admin
- How we interact with students & each other
- Our hearts for our students & colleagues

We compassionately respond and solve problems to effectively meet the needs of those we serve

PEOPLE

What does this value mean to you?

How do you apply putting people above process in your personal life and at MACU?

PROCESS

When and how does process compete against people?

What is one thing you can do to live out the value of People over process more intentionally?

URX TRAINING – PILLAR OF CREATIVITY

From the book “Roadmap to Remarkable!” by Ross, Southerland, and Walton

Remarkable People + Remarkable Culture = Remarkable Results

WHAT HAVE WE DONE...

University Operational Values

Integrity vs. Inconsistency

“We do the right things the right way for the right reasons.”

Accountability vs. Apathy

“We personally own the responsibility to deliver a remarkable MACU experience.”

People vs. Process

“We compassionately respond and solve problems to effectively meet the needs of those we serve.”

Adaptability vs. Avoidance

“We willingly navigate change to achieve the highest good.”

Communication vs. Confusion

“We intentionally share information to empower those we serve.”

Personal Values

Values drive your priorities.

Your Priorities drive your decisions.

Your Values drive YOU!

Valucentricity

Your teams discussed how they can align their personal values with the University Values.

“The energy and momentum produced when values are properly identified and aligned, producing a unified and energized workforce.”

MACU PURPOSE STATEMENT

You and your team members individually filled out a MACU Purpose statement to intentionally own your personal values, your alignment with the University Values, and your contribution to the team.

M M

MY MACU
PURPOSE STATEMENT

My Purpose at MACU is to...

M M

THE 4 PILLARS

4 Pillars of Value Creation

Pillar of Creativity

We are designed to create value in life

Pillar of Positivity

Authentic positivity is the by-product of creating true value

Pillar of Sustainability

To continuously create value, leverage your passion and strengths to solve problems.

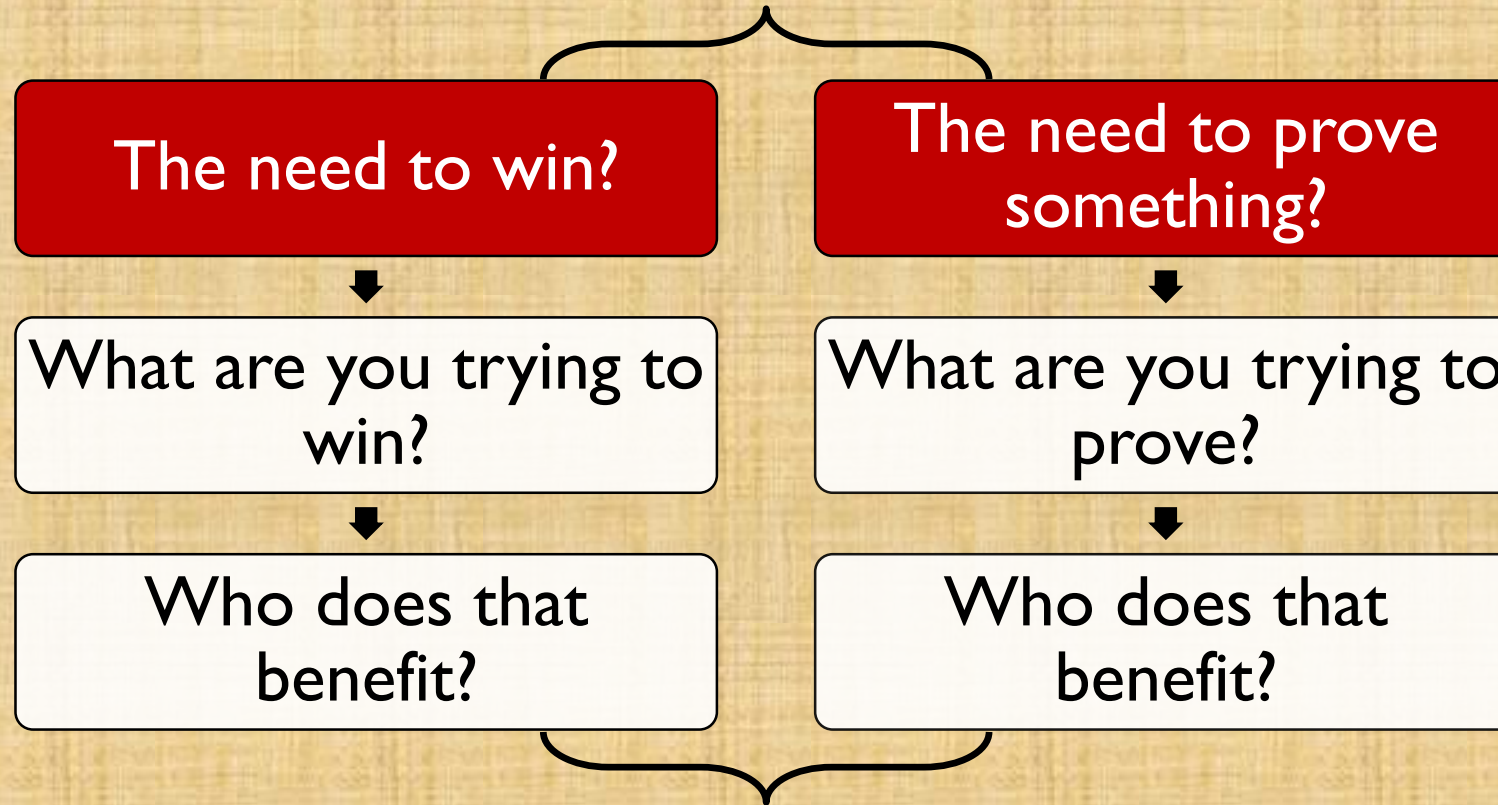

Pillar of Responsibility

Ownership empowers people to take responsibility for creating value

COMPETITION

What drives you to compete rather than collaborate?

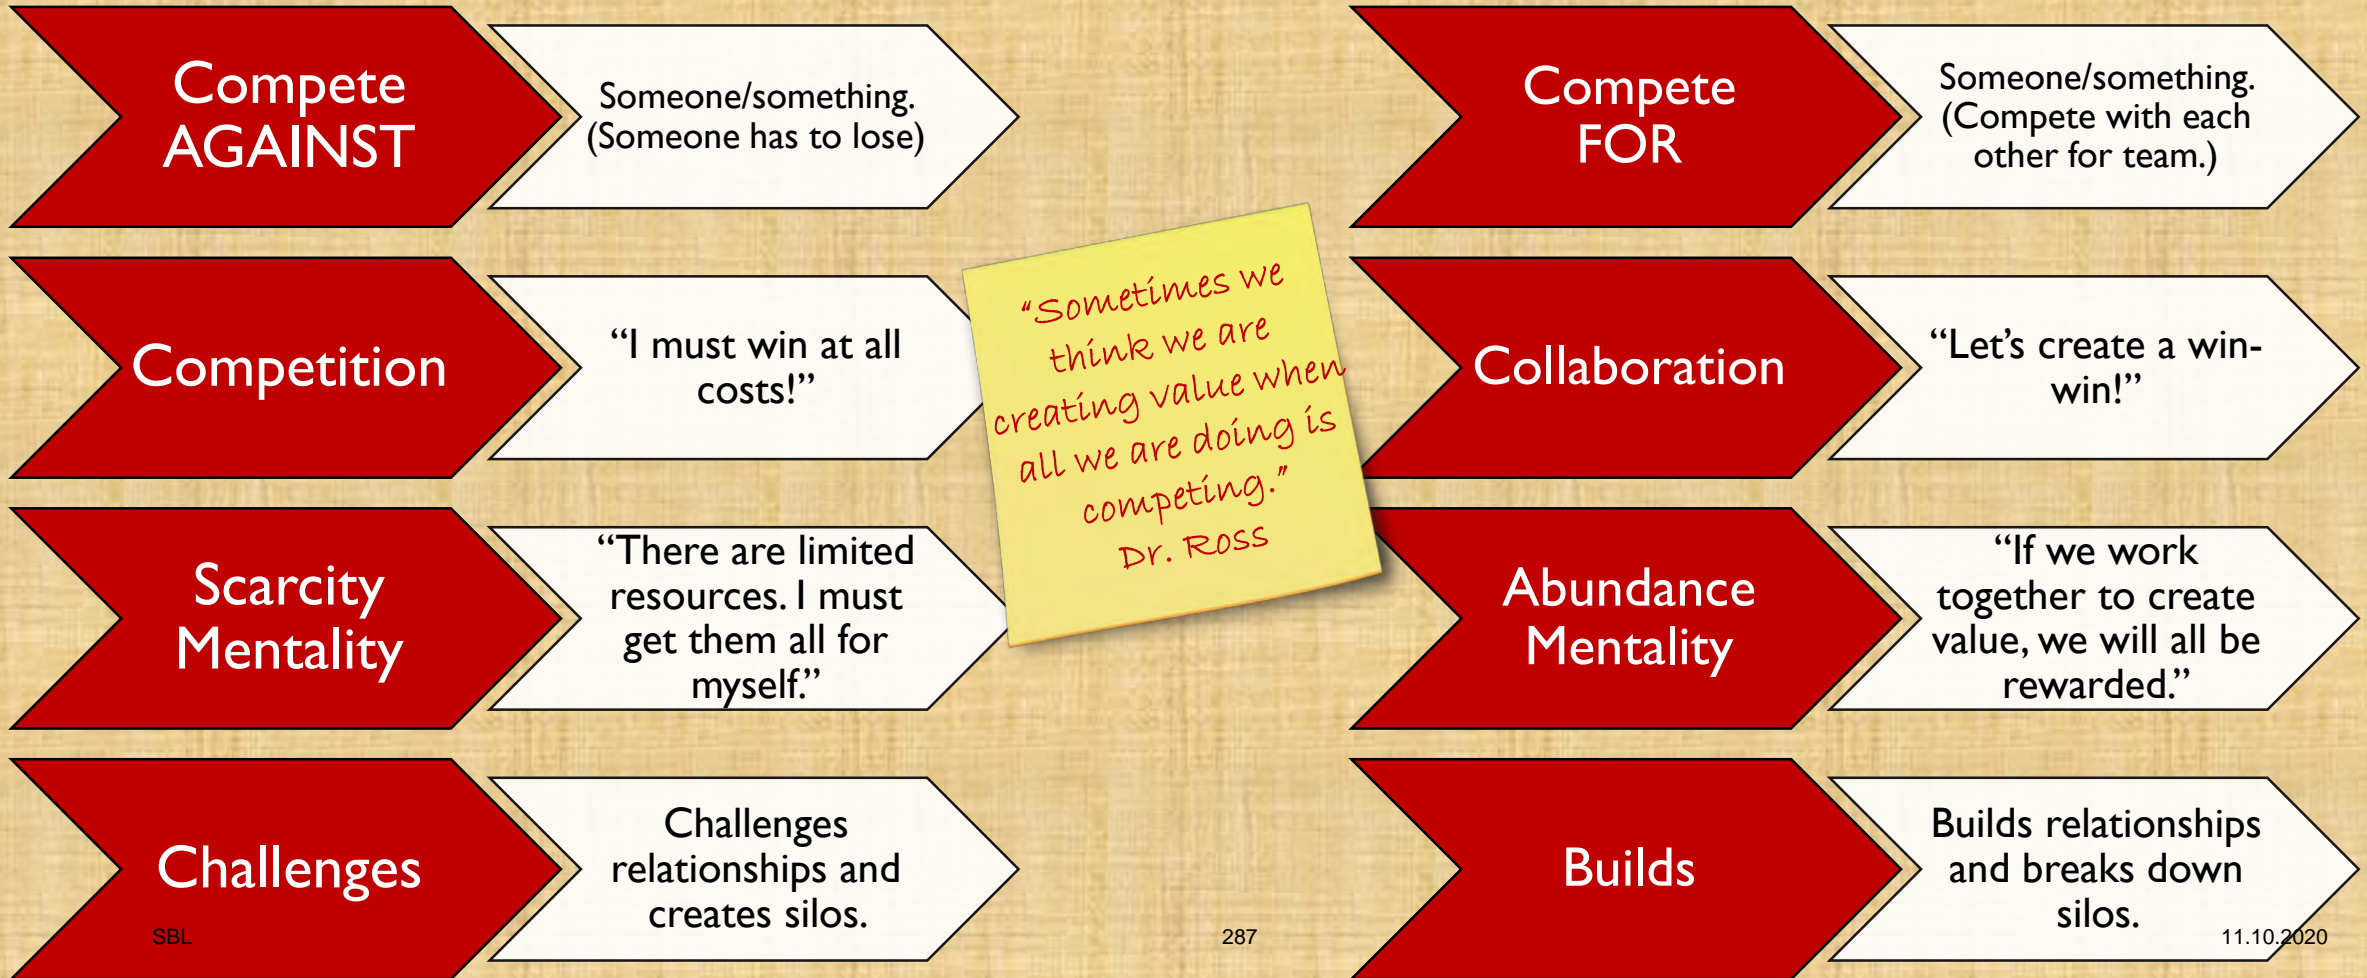

Answer: YOU!

PERSPECTIVE IS EVERYTHING...

Competition can be good and necessary...But you need the RIGHT perspective.

REMEMBER TO “MIND THE GAP”

A remarkable culture is one in which we
“Believe the best *IN* each other, want the best *FOR* each other, and expect the best
FROM each other.”- Dr. Randy Ross

Expectations

VS.

Reality

Trust or Suspicion?

Trust vs. Suspicion

“Trust is important because in any organization where there is more than one person from time to time there is going to be a gap between what is expected and what actually happens. A gap between what is promised and what is actually fulfilled. And when there is a gap, what we place in that gap really determines to a great extent the culture of that relationship but more importantly... the culture of the entire organization.” – Andy Stanley Leadership Podcast.

We create our own culture by choosing what to place in the gap.

HOW ARE YOU COMPETING?

Reflect on the presence of competition and collaboration in your life.

Where do you find yourself competing against others?

What's the outcome?

Where do you find yourself collaborating with others?

What's the result?

Share with your team.

WE ARE DESIGNED TO CREATE VALUE IN LIFE...

Extracting Value

Extract Value From Every Endeavor

Make Withdrawals From Your Relationships

2 Approaches To Life

VS.

Creating Value

Bring Value To Every Endeavor

Make Deposits Into Your Relationships

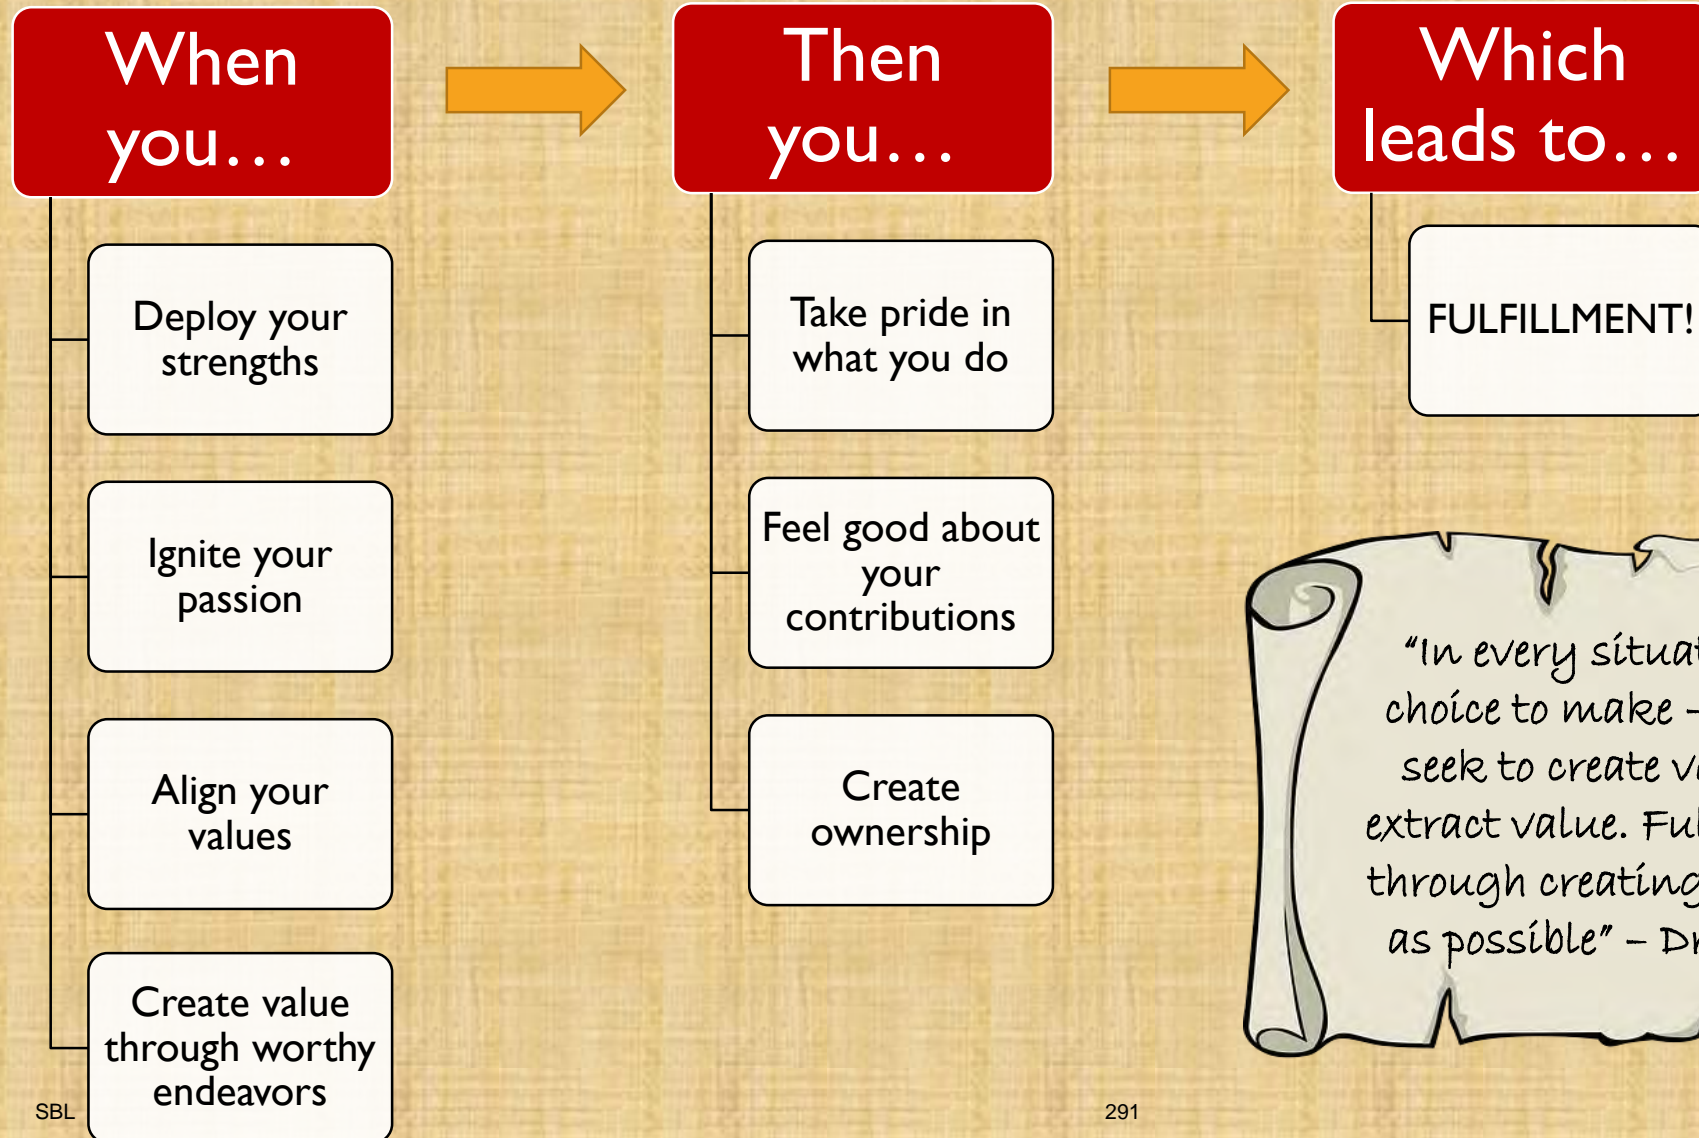

"When the value you create greatly exceeds what you take, people will talk about it. You become Remarkable!"

SBL

$$\text{Value Created (Deposits)} > \text{Extractions (Withdrawals)} = \text{Remarkable!}$$

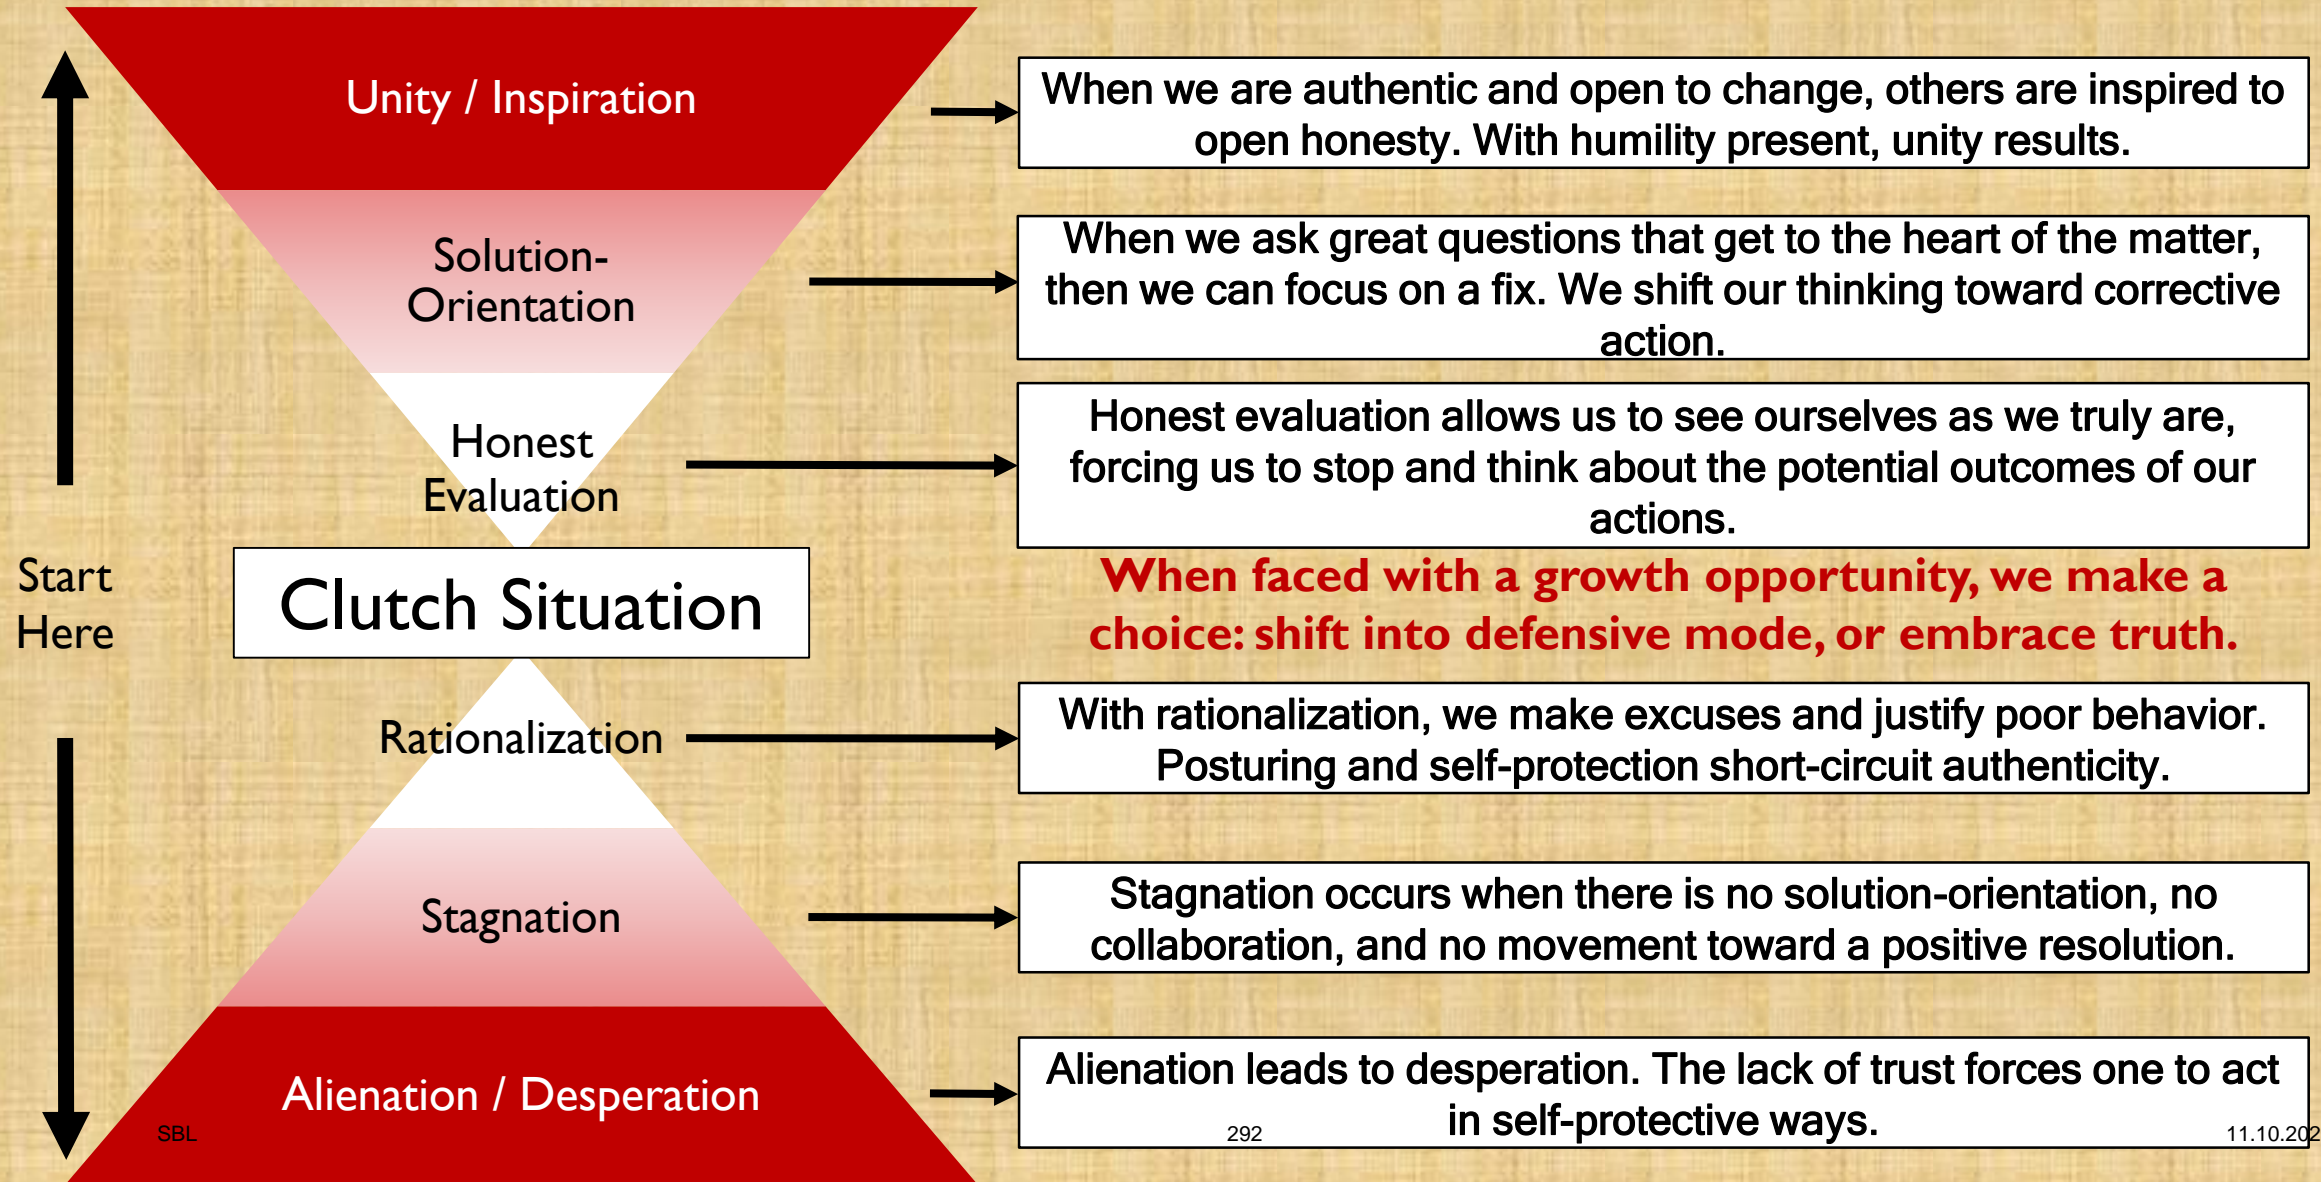

...AND WE HAVE A CHOICE TO MAKE.

"In every situation we have a choice to make - we can either seek to create value or seek to extract value. Fulfillment comes through creating as much value as possible" - Dr. Randy Ross

CLUTCH SITUATION

ME VS. WE *The choice to create value is not always easy...*

Clutch Situation

Position Yourself To Extract Value

Seek To Create Value For Everyone Involved

Me Mentality
The natural tendency is to be self-centered and do what's best for me

We Mentality
Seek to do what is best for all involved.

I / US
Choosing to extract value automatically puts I over Us creates competition and antagonism

We / Me
Choosing to put we over me produces the best long-term outcomes for both parties. Seeks a win-win solution.

Scarcity Mentality
"I must win at all cost"
Belief that there are limited resources and that I must get my share of those resources to survive

Abundance Mentality
By creating value, an abundance of resources can be produced and shared by those involved in creating that value. Those who create value are rewarded. Everyone handles resources responsibly for the greater good of all.

Competition and Alienation
Creates silos in the workplace

Collaboration and Relationship Building
Breaks down silos.

WIIFM: What's In It For Me
Short-Circuits Valucentricity

WWCV: What Will Create Value
Promotes Valucentricity.

TEAM DISCUSSION

Discussion Tips:

- What are we doing to extract value in our relationships at MACU?
- What are we doing to create value in our relationships at MACU?
- What can we do to turn our “withdrawals” into “deposits”?

THE ER FACTOR

$$VE = I/US \times ER$$

VE: Value Extraction

I/US: Choosing to extract value places I over US

ER: The ER factor is about competing against others and positioning self over others. It's about self-promotion and posturing. It's the opposite of humility. ER stands for Ego and Rivalry.

EGO: Elevation of self over others: posturing self as being smartER, fastER, strongER, brightER, prettiER, wealthiER – Essentially bettER than others.

Rivalry: Creates a competitive atmosphere with a winnER and a losER. This rivalry introduces another element that is even more crippling - powerER. Where there is opposition, the winnER is usually the one who is loudER and demonstrates more powerER than others involved. This “powering up” or “escalation” is the opposite of collaboration. It involves self-promotion and dominance.

THE OR FACTOR

$$VC = WE/ME \times OR$$

VC: Value Creation

WE/ME: Choosing to create value means you place WE ahead of ME. You think beyond yourself and make decisions for the greater good of all.

OR: The OR factor multiplies your efforts to create value. It plugs you into the power of valucentricity. OR stands for Ownership and Relationships.

Ownership: Assuming personal responsibility for one's own decisions and actions.

Relationship: A desire to stay engaged with others. A focus on Relationships means you ensure your relationships are healthy, and you bring more to the table than you take away. You don't take advantage of people to serve your own purposes.

*"The rivalry is with
ourselves. I try to be
better than is possible.
I compete against
myself, not against
the other."
- Luciano Pavarotti*

SITUATIONAL SCORECARD

There are three situations described below. Rate yourself on the impact of Ego, Rivalry, Ownership, and Relationships for each situation by drawing a line on the gauge in each column.

DRAIN (-)
Ego and rivalry drain the situation.

<p>EGO</p> <ul style="list-style-type: none"> • Did I elevate myself over others? • Did I posture myself as being better? 	<p>RIVALRY</p> <ul style="list-style-type: none"> • Was I competitive? • Did I escalate the situation? • Did I try to exert power?
--	--

ENERGIZE (+)
Ownership and a focus on relationships energize the situation.

<p>OWNERSHIP</p> <ul style="list-style-type: none"> • Did I take personal responsibility? • Was I accountable for my choices and actions? 	<p>RELATIONSHIPS</p> <ul style="list-style-type: none"> • Is this relationship healthy? • Did I build the relationship? • Did I contribute as much as I took away?
--	--

Overall Result

Estimate the overall impact of ER and OR in each situation. Are you creating more value than you are taking?

Situation 1:
The last argument you had with someone close to you.

Situation 2:
The last time your performance was being evaluated by your boss.

Situation 3:
The last time you offered an idea at a team meeting.

DEFINING SUCCESS

The Pursuit of Happiness VS. The Creation of Good

The common definition of success revolves around what we have: car, house, gigantic paycheck, fame, and bragging rights. A WIIFM “What’s In It For Me?” mentality.

“Success is a byproduct of creating value for others. You become successful by helping those around you to become successful.” Dr. Randy Ross

“When it comes to your career, know your strengths. Find something you are passionate about and a cause you believe in. Align all of that within an organization that shares your values. When you do, you’ll likely have found a job from which you’ll never want to retire.” – Dr. Randy

Pillar of Positivity

Authentic positivity is the by-product of creating true value

Pillar of Sustainability

To continuously create value, leverage your passion and strengths to solve problems.

Pillar of Responsibility

Ownership empowers people to take responsibility for creating value

Let's Do An Activity!

Let's take a break and have some fun!

- Find a partner at your table and team up for this exercise.
- One person will be X and one will be O.
- X will place his/her mark on the graph first, followed by O and then you will alternate back and forth until the entire grid is filled.
- The object of the exercise is to capture as many rows (from edge to edge) with your mark as you possibly can, without being blocked by the other.
- You may capture a row horizontally, vertically, or diagonally as long as you have your mark in each box from edge to edge.

How did you do?

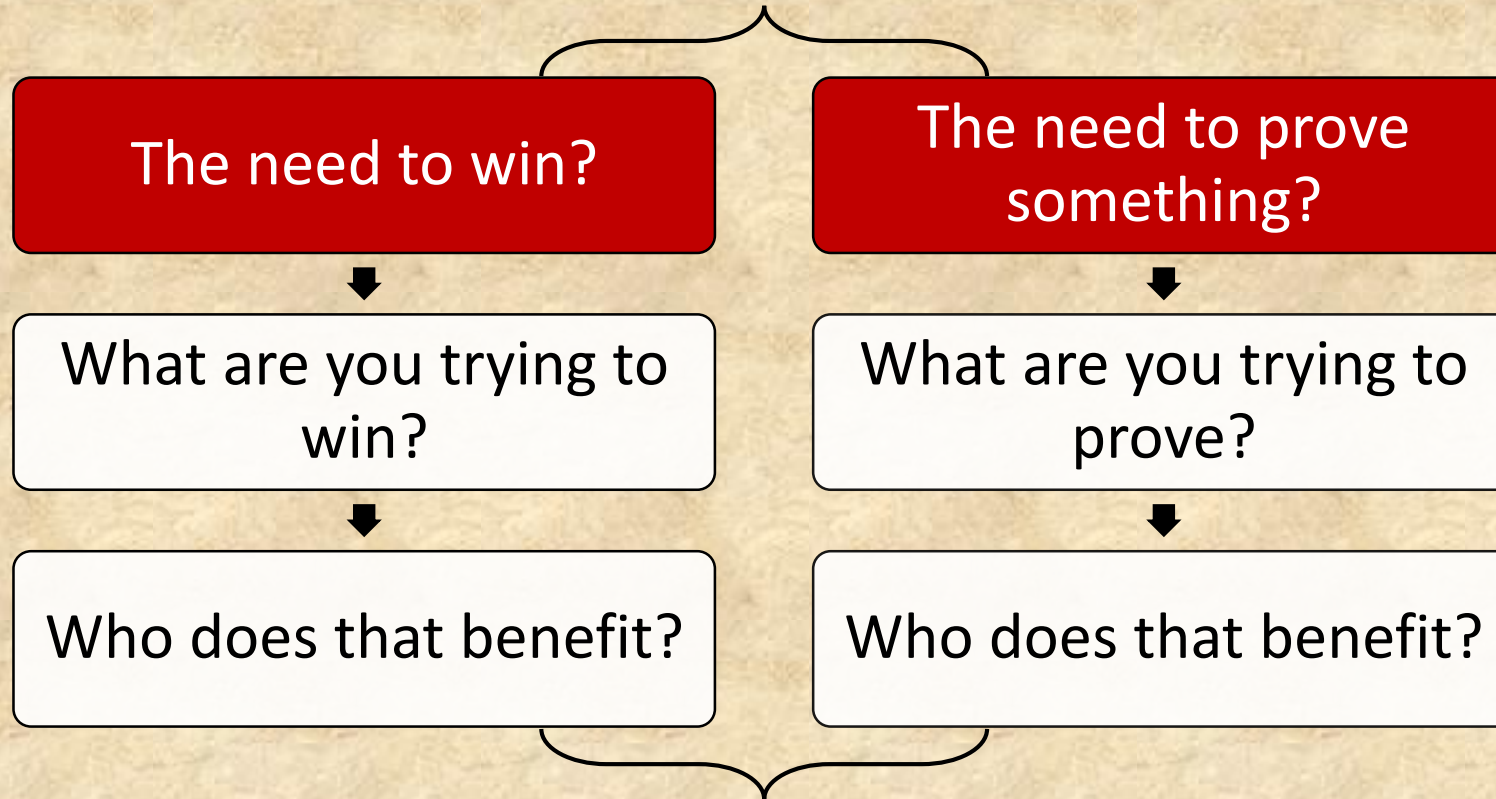

1. Tally your results!
2. Share with your team.
3. Click the picture to view the video.

Competition

What drives you to compete rather than collaborate?

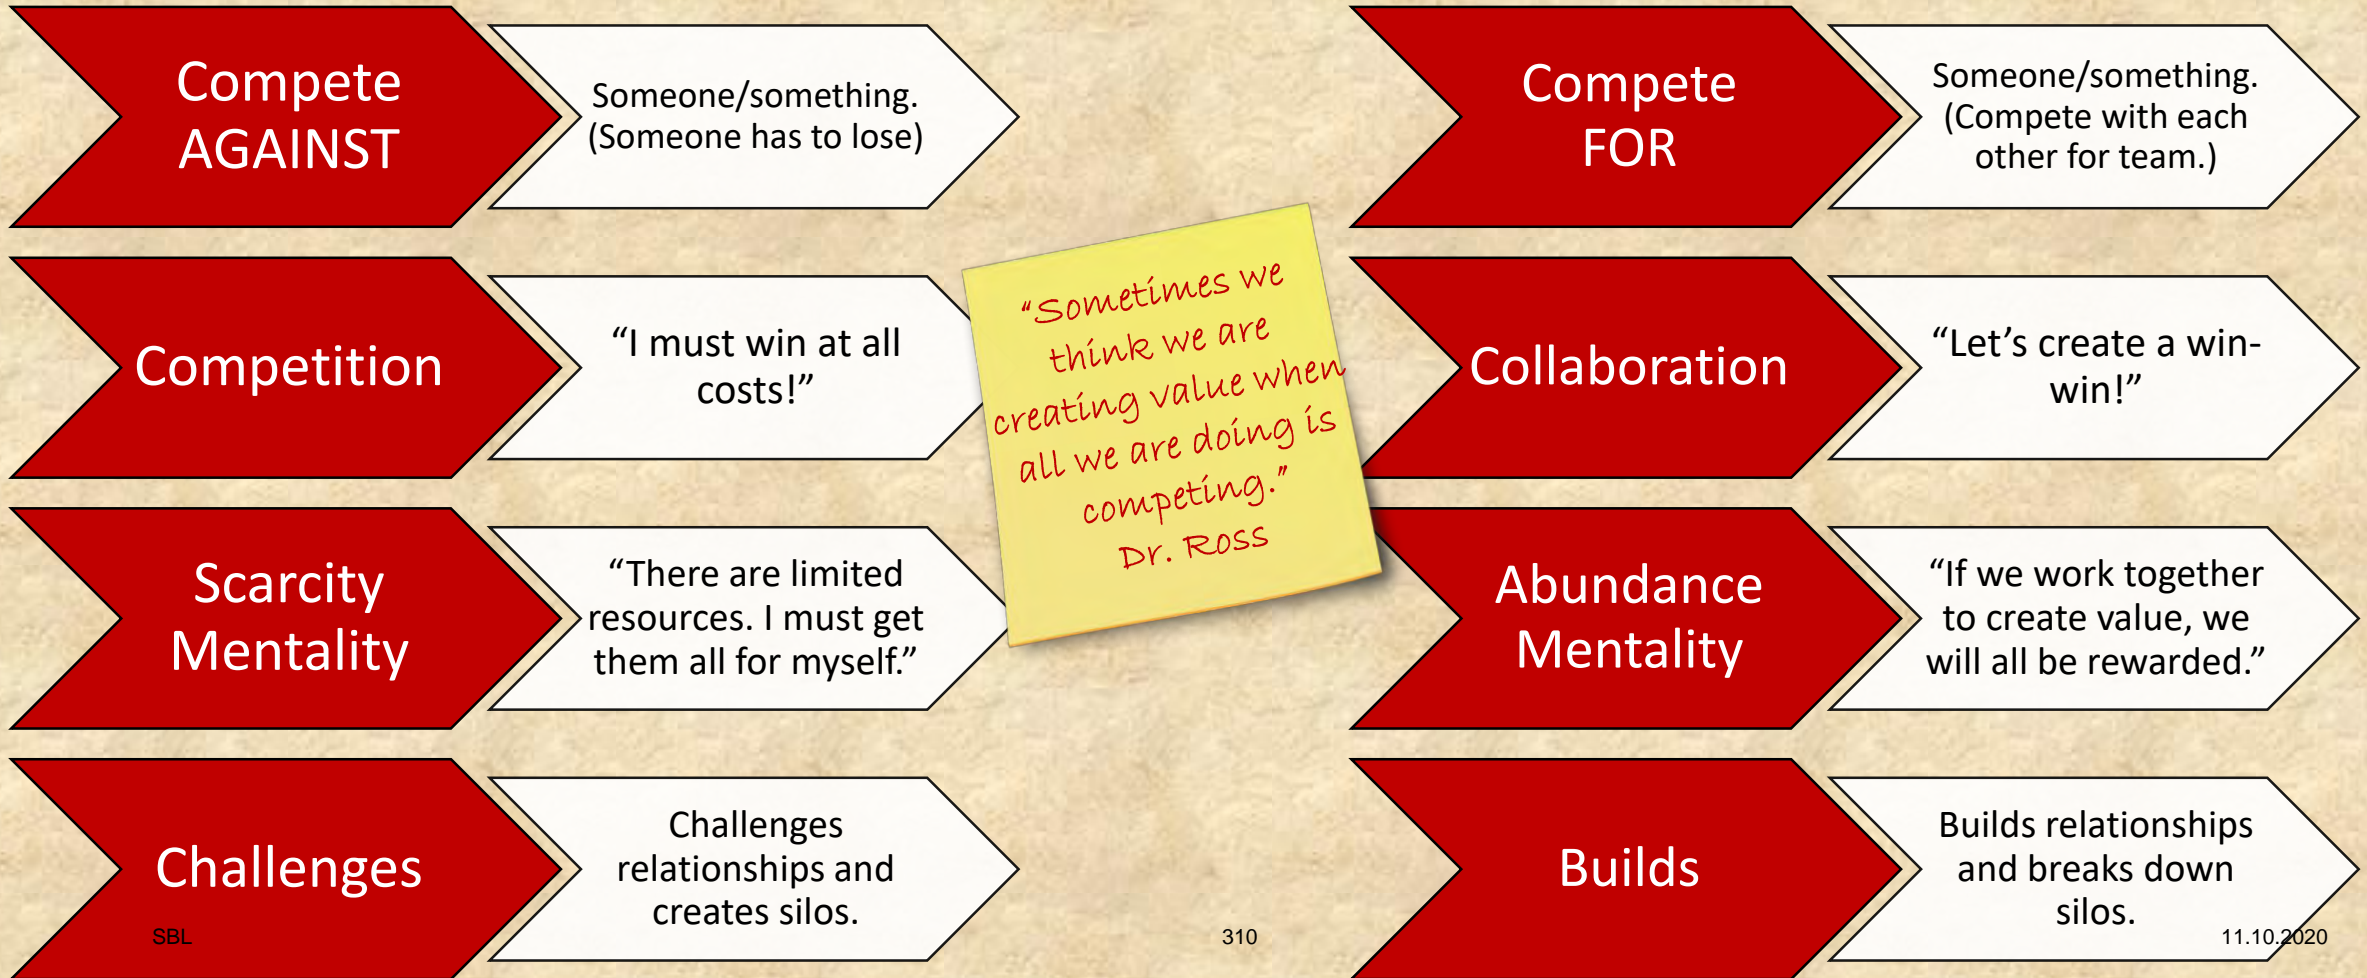

Answer: YOU!

Perspective is everything...

Competition can be good and necessary...But you need the RIGHT perspective.

Remember to “Mind the Gap”.

A remarkable culture is one in which we
“Believe the best IN each other, want the best FOR each other, and expect the best FROM each other.”- Dr. Randy Ross

Expectations

Reflect on the presence of competition and collaboration in your life.

Where do you find yourself competing against others?

What's the outcome?

Where do you find yourself collaborating with others?

What's the result?

Share with your team.

Trainer Tips (Delete Me when training the team)

- This exercise is focused inward, on their personal experience.
- Take some time afterward to discuss among the team. Just like GiANT teaches, you always start with self and work outward.
- There may come a time that the conversation will turn from self to coworkers or other departments.
 - BEWARE THE BLAME GAME. – Don't let anyone point the finger at someone else. You must be ready for this and rise above it.
 - Remember, we are all about believing the best in each other, wanting the best for each other, and expecting the best from each other. Remind them of this. The only actions you or your team can control, is their own.

We Are Designed To Create Value In Life...

Extracting Value

Extract Value From Every Endeavor
Make Withdrawals From Your Relationships

2 Approaches To Life

VS.

Creating Value

Bring Value To Every Endeavor
Make Deposits Into Your Relationships

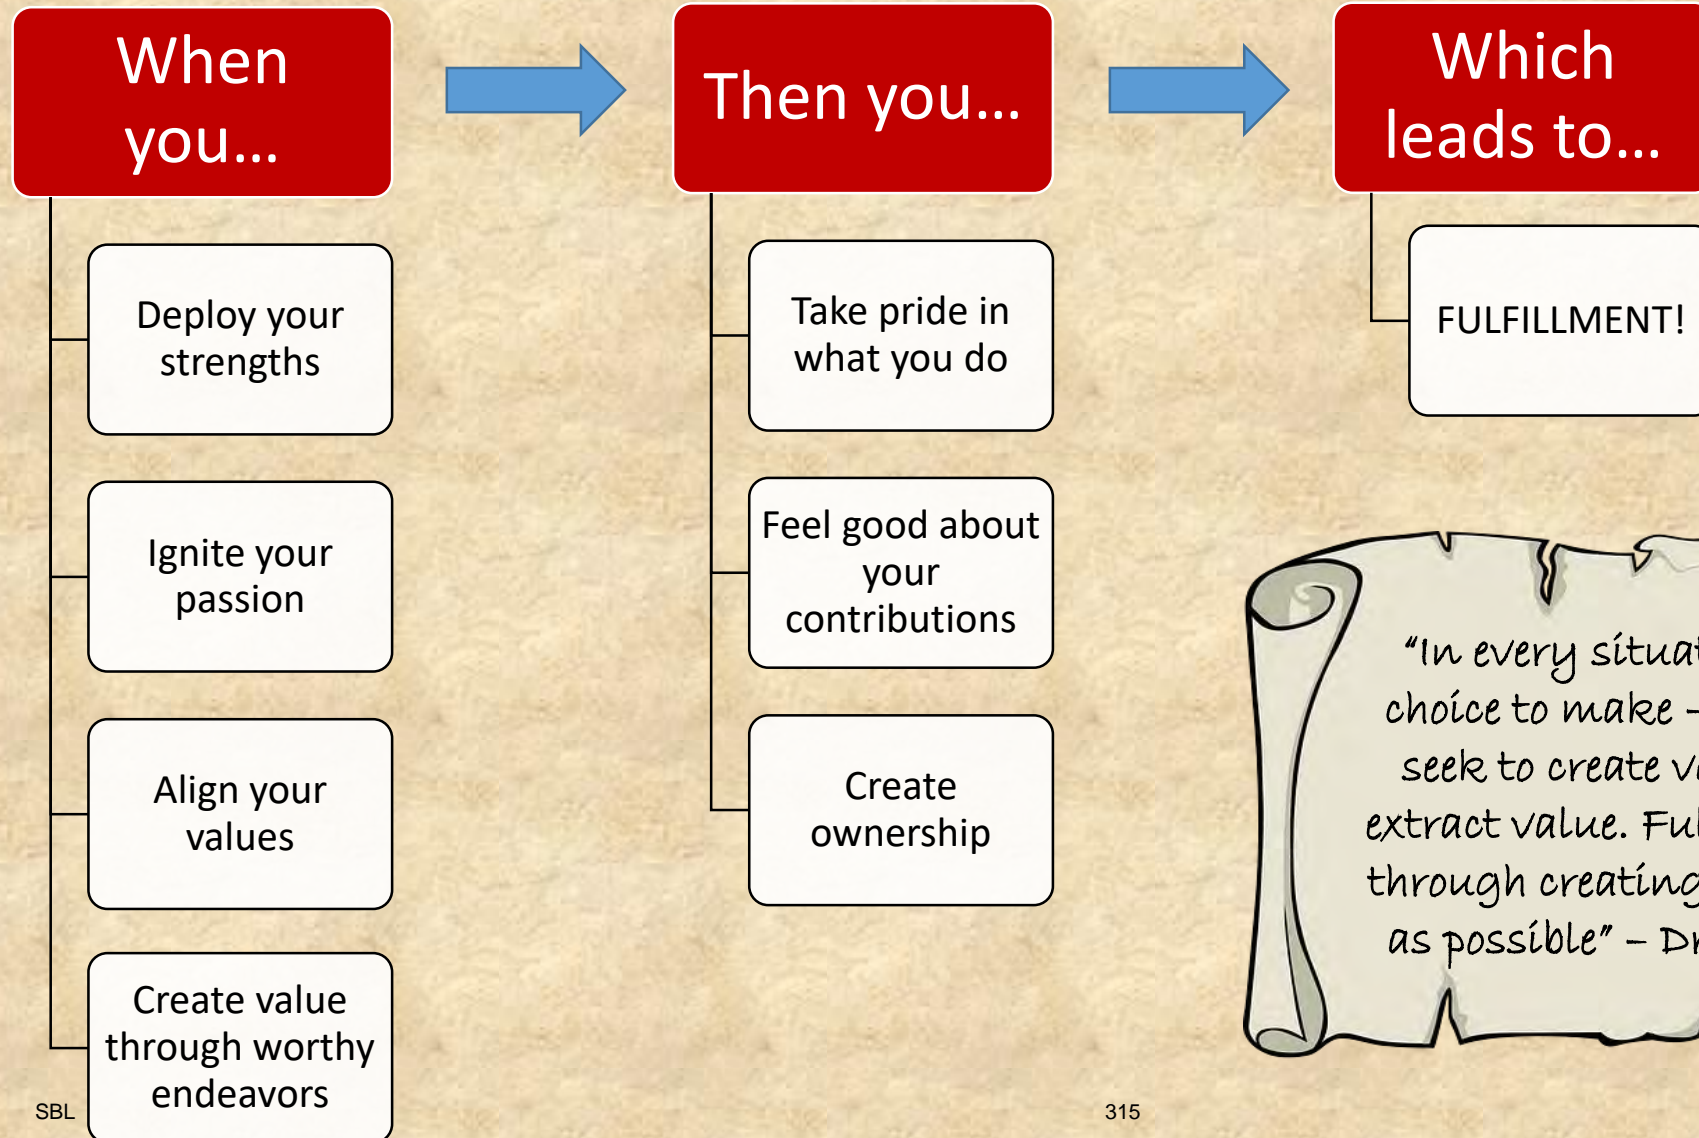

"When the value you create greatly exceeds what you take, people will talk about it. You become Remarkable!"

WWCV: What Will Create Value
Promotes Valucentricity.

Team Discussion

First, watch this video and then discuss the questions to the right.

Discussion Tips:

- What are we doing to extract value in our relationships at MACU?
- What are we doing to create value in our relationships at MACU?
- What can we do to turn our “withdrawals” into “deposits”?

Trainer Tips (Delete Me when training the team)

- Unlike before, this is a team focused exercise. Make sure your group stays centered on their own actions and not those of others.
- Think outside the box. Include interactions with students, faculty and staff, processes, roles and responsibilities...all of it.
- This is a great opportunity to bring the University Values back into the discussion. Let them guide you on any changes your team would like to make.

The ER Factor

$$VE = I/US \times ER$$

VE: Value Extraction

I/US: Choosing to extract value places I over US

ER: The ER factor is about competing against others and positioning self over others. It's about self-promotion and posturing. It's the opposite of humility. ER stands for Ego and Rivalry.

EGO: Elevation of self over others: posturing self as being smartER, fastER, strongER, brightER, prettiER, wealthiER – Essentially bettER than others.

Rivalry: Creates a competitive atmosphere with a winnER and a losER. This rivalry introduces another element that is even more crippling - powerER. Where there is opposition, the winnER is usually the one who is loudER and demonstrates more powerER than others involved. This “powering up” or “escalation” is the opposite of collaboration. It involves self-promotion and dominance.

The OR Factor

$$VC = WE/ME \times OR$$

VC: Value Creation

WE/ME: Choosing to create value means you place WE ahead of ME. You think beyond yourself and make decisions for the greater good of all.

OR: The OR factor multiplies your efforts to create value. It plugs you into the power of valucentricity. OR stands for Ownership and Relationships.

Ownership: Assuming personal responsibility for one's own decisions and actions.

Relationship: A desire to stay engaged with others. A focus on Relationships means you ensure your relationships are healthy, and you bring more to the table than you take away. You don't take advantage of people to serve your own purposes.

*"The rivalry is with
ourselves. I try to be
better than is possible.
I compete against
myself, not against
the other."
- Luciano Pavarotti*

Situational Scorecard

There are three situations described below. Rate yourself on the impact of Ego, Rivalry, Ownership, and Relationships for each situation by drawing a line on the gauge in each column.

DRAIN (-)
Ego and rivalry drain the situation.

<p>EGO</p> <ul style="list-style-type: none"> • Did I elevate myself over others? • Did I posture myself as being better? 	<p>RIVALRY</p> <ul style="list-style-type: none"> • Was I competitive? • Did I escalate the situation? • Did I try to exert power?
--	--

ENERGIZE (+)
Ownership and a focus on relationships energize the situation.

<p>OWNERSHIP</p> <ul style="list-style-type: none"> • Did I take personal responsibility? • Was I accountable for my choices and actions? 	<p>RELATIONSHIPS</p> <ul style="list-style-type: none"> • Is this relationship healthy? • Did I build the relationship? • Did I contribute as much as I took away?
--	--

Overall Result

Estimate the overall impact of ER and OR in each situation. Are you creating more value than you are taking?

Situation 1:
The last argument you had with someone close to you.

Situation 2:
The last time your performance was being evaluated by your boss.

Situation 3:
The last time you offered an idea at a team meeting.

Defining Success

The Pursuit of Happiness VS. The Creation of Good

The common definition of success revolves around what we have: car, house, gigantic paycheck, fame, and bragging rights. A WIIFM "What's In It For Me?" mentality.

"Success is a byproduct of creating value for others. You become successful by helping those around you to become successful." Dr. Randy Ross

"When it comes to your career, know your strengths. Find something you are passionate about and a cause you believe in. Align all of that within an organization that shares your values. When you do, you'll likely have found a job from which you'll never want to retire."
— Dr. Randy Ross

Trainer Tips (Delete Me when training the team)

- Let's talk about the elephant in the room: "Money doesn't buy happiness." 100% be ready for a "pshaw" in the room.
- Some in your area may see this piece of content as a means to tell people to "get over not making any money." That is NOT at all the intent.
- For some, there will come a point when the mission does not outweigh the need to support a family. And that's ok!
- The purpose of this information is to acknowledge that while stability and personal growth are still worthy goals, they alone are not what will bring satisfaction and fulfillment in a career. At any level of the hierarchy, long term satisfaction and success comes as a bi-product of what you have given.

2020-2021

Intro to Values Initiative

Interactive sessions across the University

2020-2021 Agenda

1. **People** (July, August, September)
2. **Adaptability** (October, November, December)
3. **Communication** (January, February, March)
4. **Accountability** (April, May, June).
5. **Integrity**

Defining Values (6 min.)

- **Values:** *The beliefs or standards that guide our actions.*
- Values define Who we are, What we are, Why we act (or not) as we do, and How we interact with others.

More on Values

Rockeach's 5 Assumptions on Values

1. Total number of values held is small (5 to 7 ideally)
2. All individuals possess the same values to different degrees
3. Values are organized into value systems
4. The antecedents of human values can be traced to culture, community, society, and personality
5. The consequences of human values can be manifested in almost every aspect of an individual's life

System of Values

A value system helps individuals and organizations:

- Focus on what is important
- Choose between alternatives
- Resolve conflicts
- Make decisions

2) Value to Focus (July-Sept.)

PEOPLE

We compassionately respond and solve problems to effectively meet the needs of those we serve.

*Cultural
Competitor:*
Process

Luke 6:31
“Do to others as you would have them do to you.” NIV

3) Share your thoughts (5 Min.)

- What do you think the value really means?
- How do you apply it in your life and at MACU?

(Share in pairs of participants openly)

4) Write and Share (5 Min.)

Reflect and write:

- What one thing you can do to live out that value more intentionally?

Julie Nance

"Professor Nance demonstrated a superior level of knowledge & insight in every class that she taught. The care & attention she shows students is evidence of her passion to do more than teach, but to develop great leaders. She is insightful and encouraging, recognizing the particular gifts of students and helping them to dream about the future. Professor Nance is the reason I have returned to MACU to pursue my graduate degree in Counseling. If any are deserving of being honored at MACU, it is Professor Nance. She truly exemplifies what it means to be Remarkable!"

Student Nominated Winner

Congratulations!

You are Remarkable!

Number of Student Lost by Year

Healthcare Management Program

COVID 19 Check-in

We are concerned about you! As part of the MACU family, your needs and concerns are important to us. Please complete the 15-item survey to let us know how you are doing during this crisis. It should take less 3- 5 minutes to complete the survey:

[COVID19 HCM Student Check-in](#)

The survey is anonymous unless you include your name in the first response. See the survey for details.

Chat Cafe

We will start a new forum to connect with each other as the Healthcare Management Program through Chat Café.

Chat Café will begin as a weekly Google Video Chat to connect as a community of learning and provide students with the opportunity to interact with each other,

Dr. Riesenmy, and other faculty in the HCM Program. Please keep your eyes open for an invitation for these events.

Be Empowered! Tools for the Work...

As students of healthcare management and/or working in the field of healthcare, having the right tools to do the work is critical. Here are important tools to empower you in your work or to give you a better understanding of the occurrences of COVID19 in your area.

[Institute for Health Metrics and Evaluation](#) COVID19 projects for resources by state.

[Johns Hopkins University COVID19 Map](#) Used by the WHO to track COVID19 worldwide, includes GPS maps by county/region for cases.

Protect Yourself

Tips for social distancing

- Follow guidance from authorities where you live.
- If you need to shop for food or medicine at the grocery store or pharmacy, stay at least 6 feet away from others.
 - Use mail-order for medications, if possible.
 - Consider a grocery delivery service.
 - Cover your mouth and nose with a [cloth face cover](#) when around others, including when you have to go out in public, for example to the grocery store.

- Stay at least 6 feet between yourself and others, even when you wear a face covering.
- Avoid large and small gatherings in private places and public spaces, such as a friend's house, parks, restaurants, shops, or any other place. This advice applies to people of any age, including teens and younger adults. Children should not have in-person playdates while school is out. To help maintain social connections while social distancing, learn [tips to keep children healthy while school's out](#).
- Work from home when possible.
- If possible, avoid using any kind of public transportation, ridesharing, or taxis.
- If you are a student or parent, talk to your school about options for digital/distance learning.

Stay connected while staying away. It is very important to stay in touch with friends and family that don't live in your home. Call, video chat, or stay connected using social media. Everyone reacts differently to stressful situations and having to socially distance yourself from someone you love can be difficult. [Read tips for stress and coping](#).

How Germs Spread

Washing hands can keep you healthy and prevent the spread of respiratory and diarrheal infections from one person to the next. Germs can spread from other people or surfaces when you:

- Touch your eyes, nose, and mouth with unwashed hands
- Prepare or eat food and drinks with unwashed hands
- Touch a contaminated surface or objects
- Blow your nose, cough, or sneeze into hands and then touch other people's hands or common objects

Key Times to Wash Hands

You can help yourself and your loved ones stay healthy by washing your hands often, especially during these key times when you are likely to get and spread germs:

- **Before, during, and after** preparing food
- **Before** eating food
- **Before and after** caring for someone at home who is sick with vomiting or diarrhea
- **Before and after** treating a cut or wound
- **After** using the toilet
- **After** [changing diapers or cleaning up a child who has used the toilet](#)
- **After** blowing your nose, coughing, or sneezing
- **After** touching an animal, animal feed, or animal waste
- **After** handling pet food or pet treats
- **After** touching garbage

During the COVID-19 pandemic, you should also clean hands:

- After you have been in a public place and touched an item or surface that may be frequently touched by other people, such as door handles, tables, gas pumps, shopping carts, or electronic cashier registers/screens, etc.
- Before touching your eyes, nose, or mouth because that's how germs enter our bodies.

Executive Summary

Healthcare Management Survey

Student COVID19 Check-in

The Healthcare Management Program (HCM) Student Newsletter is emailed on a quarterly basis to connect with students and create a learning community, as well as to leverage as a teaching tool for career development, professional competencies, and spiritual development. The Newsletter also provides a good vehicle to reach out to students to ask them about their welfare during the COVID19 crisis. To this end, a survey was developed and embedded into the Newsletter. In addition, resources were added into the Newsletter with content from the CDC about social distancing, handwashing techniques, and a video from the Surgeon General demonstrating how to make a face mask and the value of wearing a mask around other people. The Johns Hopkins Coronavirus Resources Center link was added along with a tool from the Institute for Health Metric and Evaluation for COVID19 projects and needed hospital resources. A video from the MACU HCM program director was added to introduce the content of the Newsletter with encouragement to reach out to her with any concerns or needs as a student at MACU. Ten students watched the program director video and one watched the Surgeon General Video. No students click on the other links.

Survey Results

One hundred fifty-nine Newsletters were successfully delivered to students. Of these, 73 students opened the Newsletter. A total of 20 students responded to the survey. Remarkably, of the 20 students who responded to the survey none answered the first open-ended question that also offered an opportunity to provide his/her name. As a result, the respondents provided anonymous answer to the survey questions.

Of those who responded, the majority (75%) felt that the HCM Program was providing the support he/she needed regarding the COVID19 situation. Only one student responded "false" to the question about support from the HCM Program, and four students reported that it was neither true nor false. A little over half of the students (55%) said that his/her life was significantly disrupted from the pandemic. About half of students (45%) felt that the pandemic would affect his/her life moving forward. Seventy-five percent of students feel exhausted and 60% feel exhausted thinking about doing course work. Forty percent of students feel they need spiritual support while fifty percent of student do not feel they need additional spiritual support.

The good news is that a little over half (60%) felt that their ability to continue at MACU is NOT at risk. Even so, 20% are unsure and 20% feel that their ability to continue at MACU is at risk. Most students (70%) report a good emotional support system for getting through the pandemic. Ninety-five percent of students feel that working on their degree is important. Even more exciting is that 80% of students believe that getting their degree empowers them to overcome during the COVID19 crisis.

The table below summarizes responses specific to students who are working during the crisis.

Question	Total N	Percent True	Percent neither True/False	Percent False
My work places me at increased risk for acquiring COVID19	20	70	5	25

I am unable to create social distance at work	20	45	20	35
I would like to talk to others in the field of healthcare for support during this time	20	20	20	60
The COVID19 crisis strengthens my desire to work in healthcare	20	60	25	15

Analysis

A sample size of 20 does not offer statistical power to detect statistically significant relationships or differences. Even so, paired differences and regression correlations were run in Qualtrics. No statistical differences were noted.

Discussion

The students who responded to the survey appear to be involved in working in healthcare in some capacity. Most feel supported and empowered to work on their degree. A concerning number of students feel that the pandemic may put working on their degree at risk. Perhaps due to exhaustion, since a high number of students report feeling exhausted just thinking about doing course work. Finding ways to help students manage time and resources are critical during the crisis. Novel approaches such as the offering from The Management and Ethics Program to help students with money management will provide a layer of resources to reduce burdens that may contribute to stress and fatigue.

Finding unique ways to support students in their work and learning is also important. The pandemic presents exceptional concerns to students, as indicated by feelings of insecurity and the need for spiritual support. Lynn Bufka (2020) suggests using technology to connect during this time of social distancing and shelter in place orders. CAGS students are comfortable and familiar with interacting in the online environment. In response, The HCM Program will begin Chat Café video conferencing for students to connect with each other, the program director, and invited faculty to discuss issues relevant to the pandemic, healthcare, coursework, and faith.

The HCM students are in a distinctive group since many already work in the field of healthcare. Most of the students agree that they feel at risk for COVID19 infection where they work and almost half feel it is difficult to social distance at work. Yet, more than half of students feel an enhanced desired to work in healthcare due to the COVID19 pandemic. Most students feel that working on their degree is important and empowering! Meeting as a community of learning will show students they are valued, and they are a “tribe” of healthcare service workers and professionals.

Higher Education must find niche responses to the pandemic in order to retain students and promote their institutions. Providing services specific to the epidemic will demonstrate MACU’s commitment to students and education. Even more importantly, we can demonstrate to students that the Christian response during crisis is other-focused. The results from this survey provide insights into the wellbeing and needs of the students in the HCM Program.

Health Care Management BBS, MBA

Mid-America Christian University is “Preparing people to do Greater Things for God and His Kingdom.”

Health Care Management Program

Transforming the Program: Matching program objectives to the field of healthcare

The School of Business Leadership, Health Care Management (HC) emphasis is transforming to match the knowledge, skills, and abilities (KSAs) necessary to work in health care management. The first phase of the transformation is to revise and update course textbooks and content. ***Health Care Legal Environment*** and ***Health Care Information Systems*** will be the first courses to be revised. We have made preliminary changes to both courses, but greater revision is scheduled to take place this summer.

Your success is our goal! Expect to see changes as we practice what we teach by implementing quality improvement processes for the Health Care Management Program.

Student Spotlight

We would like to feature you in our next newsletter. Submit your thoughts about health care management, study habits, a devotional, or work opportunity. We want student participation. You might consider submitting a brief piece as a cohort to encourage the upcoming cohort. This will be your spot to shine!

Why is APA Style Important?

Accuracy with APA format amid posting to discussion boards, writing essays, and developing presentations and proposals seems like an unnecessary inconvenience. However, the value of using an editorial style is very important! Here are a few reasons why:

- Promotes professionalism
- Removes questions about correct punctuation for a reference or proper form for numbers in a text
- Codifies rules for clear communication and presentation of written material (e.g., tables, graphics, headings, citations)
- Eliminates inconsistencies within a manuscript

Free APA Style resources on the web: [APA Style by the APA](#) and [Purdue OWL](#)

“Faith is the basis of any genuine relationship; the more sensitive and dynamic a relationship is, the greater the faith that must enter into it.” -TW Hunt (1986, p. 95).

Healthcare Management

New and Improved HCM Courses!!

Two Courses Go Live in August!!

By Dr. Kelly Riesenmy

One of my priorities as program director was to provide a curriculum that prepared students for a career in healthcare management.

I am happy to announce that two courses go live in August. **HC 3213** previously known as “Medical Terminology for Healthcare Managers” has been revised as “Fundamentals of Medical Practice Management.” Topics covered in this course include practice models, information technology and management, strategic planning, third party payers, revenue cycles in medical practice, and leading a medical practice.

The second course to go live in August is **HC 4203** “Healthcare Operations Management.” Students will learn about supply chain management, trend in healthcare operations such as applications for artificial intelligence, and quality improvement methods. Students will work in groups to

analyze and solve a case for process improvement. As a course capstone, students will prepare a “resume ready” major project - a business plan for an operation management project.

We are excited to offer new and improved courses that are competency based and prepare students for a career in healthcare management and leadership.

Jillian Herndon

Student

spotlight

Hello, my name is Jillian Herndon and I am the Practice Manager and Compliance Officer for the largest Long-Term Care practice in Oklahoma. I am also a freshman in the Health Care Management adult program at MACU. I have worked in the medical field since I was 18 years old. A lot of people ask me why I chose to get my degree in Health Care Management when I am already a Practice Manager. I chose this path not only because I want to better myself, but also because I own a medical credentialing and billing business. I felt that simply having experience was not enough to grow my business and that I needed a degree to grow successfully.

Holding a position as a Practice Manager is very rewarding. I not only supervise, but I teach daily. I have developed and trained each position in my office. Currently, I oversee 5 employees as the Practice Manager and 24 employees as the Compliance Officer. I work alongside our Chief Operating Officer when situations arise and together we develop solutions. I perform HR duties and provide staff with leave balances, send payroll to our accountant, and assist employees during open enrollment. I assist my staff during times of heavy workloads.

You are never too old to set another goal or to dream a new dream. ~ CS Lewis

“So, speak encouraging words to one another. Build up hope so you’ll all be together in this, no one left out, no one left behind. I know you’re already doing this; just keep on doing it.” 1 Thessalonians 5:11 (The Message Bible)

STUDENT CONTRIBUTIONS

We are thankful for students like Jillian who bring value to the program through experiences and knowledge. Interacting and networking with other students in the program is an important part of your academic development.

You will have colleagues for life!

Please send me your contribution!

We want to meet you!

Share something about yourself, your work, or a devotional.

ADULT SCHOOL OF BUSINESS LEADERSHIP (ASBL)

ASBL

Health Care Management Program

October 2018

IN THIS ISSUE

Student Success

by Dr. Kelly Riesenmy

We want our students to be successful, healthy, and happy at MACU. However, the path to student success has many roadblocks. Adult learners have full-time jobs, families, and activities which make it difficult to find time to effectively study and write. Here are a few tips that may help set guardrails as you drive the freeway to your success:

#1 Plan

The most important factor is to plan!

- Recruit a support team. Your support team may be your spouse, family member, or friend. These are your people who understand your drive and need for your degree. Ask them if they will help you keep timelines, provide encouragement, and help with your schedule.
- Arrange for time each day to work on your degree. Plan a minimum of 1-2 hours each day to stay on top of your assignments and discussion boards. Use the weekend for extended time to write. Most writing projects require 4 hours of uninterrupted focus.

SBL

#2 Take Breaks

It is critical to have time to refresh and re-energize.

- Schedule time for dinner with family or friends, your kids' activities, and a date with your spouse.
- Downtime replenishes the brain's stores of attention and memory at the neuronal level ([Scientific American](#)). Click link

#3 Live in the Moment

- When it is time to study, let your support team know you have to study. Ask them to step-in or be a buffer for distractions. Raise up your guardrails for quiet-time. Enjoy the learning process. This is your time and money – make the most of it!
- When it is time to relax, enjoy relaxing. Dance, play, have fun!

Page 2

Student Spotlight

NICCOLE RODENBERGER-DICKEY

I am motivated by helping people perform better work and building the most functional processes to accomplish that goal. I have a passion for uncovering ways to obtain the utmost quality work without sacrificing the metrics needed to drive business forward.

Niccole is an account manager for a Pharmacy Providers of Oklahoma (PPOk). In her role, she creates plans that provide fiscally sound choices for prescription medications for her customers. She is nationally certified as a pharmacy technician. She is currently working on her Bachelor of Science in HCM at MACU.

I am 31 years old, grew up in the southeastern corner of Oklahoma, but currently live in Oklahoma City with my husband, two year old daughter, and two puppies.

I accidentally fell into working in the managed care field of health care, specifically in pharmacy benefit management ten years ago as a temp and ended up loving the work. I have held many positions throughout my career, from frontline pharmacy technician to a vendor manager. My passion, specifically, within the PBM environment is finding ways to improve processes without sacrificing quality. I have thoroughly enjoyed my time at MACU and have used many of the things I learned in class toward real-life business goals.

Get started in
your career...

Source information at: [US Department of Labor - Bureau of Labor Statistics](#) (click link to learn more)

Do you love technology? Are you meticulous in your work? Consider working in HIM!

Technicians in HIM organize and manage health information. They ensure that all the data entered into the electronic health record is accurate and secure. Positions in this field require an understanding of medical classification codes and categorizing patient information for insurance databases and registries. HIM plays a crucial role in the quality of the patient record. Entry level median pay is \$39,180/year and is a fast growing field.

Excel in your work toward management positions to earn upward to \$98,350.00 annually. Your degree is a competitive advantage for these positions.

HC4303 Goes Live in November 2018!

Healthcare Information Management Systems

In this revised course, you will have access to Mindtap – a Cengage learning tool. The course uses Mindtap simulation projects so that students gain hands on experience with EHR. Many of the assignments are experiential with a video-based case study exploring issues faced by the director of HIM in a healthcare organization. We hope you enjoy the learning process in the updated course!

"Behold, the virgin shall be with child, and bear a Son, and they shall call His name Immanuel," which is translated, "God with us." —Matthew

1:23

His Birth in Me. "My little children, for whom I labor in birth again until Christ is formed in you..." ([Galatians 4:19](#)). Just as our Lord came into human history from outside it, He must also come into me from outside. Have I allowed my personal human life to become a "Bethlehem" for the Son of God? I cannot enter the realm of the kingdom of God unless I am born again from above by a birth totally unlike physical birth. "You must be born again" ([John 3:7](#)). This is not a command, but a fact based on the authority of God. The evidence of the new birth is that I yield myself so completely to God that "Christ is formed" in me. And once "Christ is formed" in me, His nature immediately begins to work through me.

Oswald Chambers
Christmas Devotional adapted from "My Utmost for His Highest"
page 1

Student Spotlight

We are blessed to have Matt Worcester leading the way in HIMs in our MACU HCM Program! Read his story

God is Good!!!!

I have been amazed by my whole introduction with MACU. Everything has been God centered and I have been, not only blessed, but in utter amazement with the college.

My name is Matt Worcester and I am full of energy as you can tell. I am fifty years young and am married to the love of my life going on thirty years. God has blessed me with 3 beautiful daughters. My oldest, Britani, went to be with Jesus on October 5, 2012. She was born totally disabled and lived to be 21 years. She was the center of our family and we were blessed every moment that she was with us. My daughter Ashli is 23 and Graduated this year in Social work and will begin work on her Masters. My youngest Mati is 19 and is a sophomore in college with a full softball scholarship. Needless to say, they keep us busy. My wife and I decided that since we now had an empty nest, that it was time that I finish what I started with college.

Worcester cont'd...

I currently work in a hospital as a Health Informatics Coordinator. I am pursuing my degree in Health Care Administration/Management with an end goal of an MBA in Health Care Administration/Management. I love life to the fullest and like to do my best to inspire everyone with the same inspiration that God has put into me.

My life has kind of been a roller coaster over the past 25 years. I started out very career driven and knowing which direction I was going. Then we had our first child and she was born with severe disabilities. My wife and I found ourselves having to put our careers on hold to focus on her and her needs. She passed away in 2012. I then had to regroup and decide what I was going to do.

Being a Chickasaw citizen, I decided that I wanted to go to work for the Chickasaw Nation. I started out working in Social Services helping the citizens with tribal needs. Shortly after, I took a job at the Chickasaw Nation Hospital as a Project Manager in the Business/Revenue part of the hospital. A year later I was offered the job as a Clinical Informatics Coordinator on the clinical side of the hospital. After working throughout the hospital, I decided that this is what I wanted to do in life.

I decided to go to college to finish my bachelor's degree. I scouted the colleges and found that MACU offered the HCM degree that I wanted. They also offered the master's degree in HCM. My goals are to obtain these two degrees. I have recently received my CAHIMS (certified associate in healthcare information and management systems) certification. This was a tough course but well worth the effort.

I have really found my passion working in the hospital. I have a strong desire to help create patient safety and provide a wonderful experience for every patient. My plans are to get the credentials that I need to be able to work in upper management in the administration at the hospital. I feel like that I can make an impact with my desires and passions towards patient concerns.

Revised HC5243 Health Information Management Systems Goes Live in February 2019

The new textbook is written for graduate students in HIM and health care administration executives. In the course, students will:

- Craft strategies for implementing HIM
- Develop a business report for selecting an electronic health records (EHR) platform
- Write a change management proposal to implement EHR

CAGS ASBL-HCM Student Update Summer 2019

In this issue:

- Career Development (pp. 1,3)
- Spiritual Formation in Assignments (p.3)
- Alumni Spotlight (p. 2)

Welcome to Summer!

“When a man’s heart is right with God the mysterious utterances of the Bible are spirit and life to him. Spirit truth is discernible only to a pure heart, not to a keen intellect. It is not a question of profundity of intellect, but of purity of heart.”

by Oswald Chambers, *Bringing Sons Unto Glory*

MID-AMERICA
CHRISTIAN UNIVERSITY

School of Adult Business Leadership Health Care Management Program

Career Development

Dr. Riesenmy

Education. Deciding on a career path can be one of the most challenging experiences in life. Making the decision to get a college degree is the first important step in meeting that challenge. According to the US Department of Labor Statistics (2018), individuals earning a bachelor’s degree will make on average 60% more than an individual with a high school diploma. Weekly earnings increase to 84% higher with a master’s degree ([Torpey, 2018](#)). Education is a great advantage in the career trajectory.

The choice to have an education with an emphasis in health care management and administration provides a strong foundation to launch a career. Several fields within health care management are considered [Bright Outlook](#) careers due to the demand and need (cont’d p. 3).

Alumni Spotlight

April Adkisson, MBA, CIC,
CISR

MBA with a Healthcare
Administration emphasis in
November 2018

Just after earning my degree, using the advice and guidance of Kelly Riesenmy, PhD, I was able to use my work experience combined with my education to set me on my chosen career path. I am so thankful to Dr. Riesenmy! When I went back to school for my MBA, I was a single mom with a young child, and engaged to be married.

While earning my MBA the following life events occurred:

- **I got married.**
- **Gained 4 wonderful stepchildren in the process!**
- **Sold my house.**
- **Went to Texas for a week to assist victims of Hurricane Harvey.**
 - **All of these events happened within three weeks.**
- **Then the last day of my second to last class, my grandmother unexpectedly passed away.**

Without the support of MACU, and especially Dr. Riesenmy, I would not have finished as strong as I did! Without my education, I would not be working at the level I am now.

Life happened, good and bad, but sometimes you must dig deep in your soul to remember why you are fighting to achieve more and be more. Then you become more and run the race you were meant to run. ~April Adkisson

Career Development (cont'd from p.1)

Goals and Vision. The next piece in career development is your career goal. In health care there are so many options! Entry level positions include pharmacy technician, health information technician, administrative assistant, and medical insurance claim examiner. Other less known career opportunities include community health education, insurance underwriter, operations, and finance. Getting your foot in the door is important, then as you find your niche and finish your education, the quality of your work will promote you within your area. Do you want to be the Chief Financial Officer at a hospital? Or, do you want to be the President of Human Resources within a large Health Care System. It is possible! MACU is preparing you to **“Dream Bigger, Do Greater.”**

Skills and Interests. You have an advantage if you are currently working in the field of health care. Your current skills and network are valuable resources to use to take you to the next level. If you are not in a position where you can gain the skills you need to work in your dream job, set out to obtain those skills. This can be accomplished through [job shadowing](#) or doing an [externship](#) through an agency in your area.

If your vision is not clear and you do not have a specific goal in mind, do not worry! God has given you interests and talents for a specific purpose. [Ephesians 2:10](#) tells us that God created us for a special work and that He has prepared good things for us to do. His heart is that we do good things to show our love and faith in Jesus. When your interests align with God’s Word, you can use them to guide you toward this special work He has for you to do. Ask Him to lead you, follow your interests and what you are good at doing, then trust God to open doors ~~that~~ **you** never knew were possible!

Developing Christian Ethics: Spiritual formation in course assignment

Dr. Riesenmy

If you look deep underneath the highest values and ethics in business and health care you will find underlying principles from God’s Word. Jesus provides the most valuable virtue in [Matthew 7:12](#) “...whatever you wish that others would do to you, do also to them...” This virtue comes through love. Love is uncommon in the secular world. However, as a Christian we are to develop a worldview which brings love, mercy, integrity, and peace into our workplace. Keeping in mind we are human beings; we ask the Holy Spirit to help us in this exercise. Then, we must use God’s Word to shape our lens of the workplace, our relationships, and in all areas of our lives. This is what we refer to in the academy as Spiritual Formation.

In your assignments, look for how God’s Word can provide a perspective on the work, the case, the task for which you have been assigned in the course. For example, [2 Peter 1: 4-7](#) provides an outline for the progression in forming Christian ethics. Examine these scriptures. How could each aspect of the divine nature relate to designing a quality improvement in healthcare? Or, use these verses to provide a framework to analyze a case for a report. God’s Word provides the right response to difficult dilemmas in life and work. Use His Word and Holy Spirit to shape your Christian ethics.

His Word is a Light for your path. [Psalm 119:105](#)

Healthcare Management: The value proposition

By Dr. Kelly Riesenmy

The business of healthcare is a critical part of delivering quality care efficiently and at lower costs. The value proposition in healthcare is an equation: quality divided by total costs of care. Each course at MACU-HCM Program is designed to inform you about elements of this equation. We hope to shape your perspective on your role in the value proposition as a healthcare manager.

In the MACU's HCM Program, you are learning how to add value to healthcare by improving outcomes for a variety of different healthcare stakeholders – patients, providers, payers, and policy makers. Value is defined as design (frameworks for helping the patient find the right treatment at the right time), its execution (reliably doing it right every time to improve outcomes), and its costs over time (Johnson & Sollecito, 2020). Whether you are working in admissions, medical records, a private practice, or in billing your work is part of the value proposition equation. Consider how you add value to your organization's stakeholders. Then, think about where you would like for your career to be in ten years. During this journey, you need to ponder your purposes now as well as your future in HCM to live to the fullest God's plan to use you to add value in healthcare!

Ephesians 2:10 (AMP) says "For we are His workmanship [His own master work, a work of art], created in Christ Jesus [reborn from above—spiritually transformed, renewed, ready to be used] for good works, which God prepared [for us] beforehand [taking paths which He set], so that we would walk in them [living the good life which He prearranged and made ready for us]." Your work in HCM is a path that God designed for you. He has the good life already arranged for you to live. His plan is that you follow the paths that He planned for you to help others and make a difference for His purposes!

Johnson, J.K., & Sollecito, W.A. (2020). *McLaughlin and Kaluzny's continuous quality improvement in health care* (5th ed.). Burlington, MA: Jones & Bartlett.

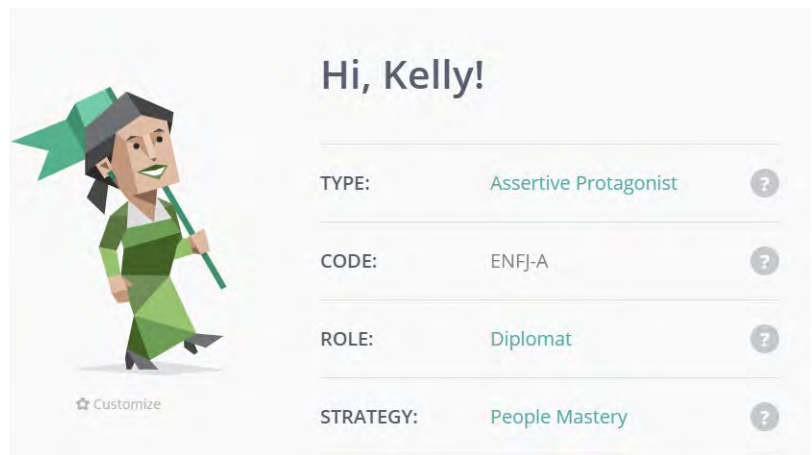

Professional Development

KNOW YOURSELF LEAD YOURSELF

Understanding your personality is an asset in navigating work life. Your personality strengths and weaknesses can be leveraged as a tool to help you adjust your thoughts, feelings, and behaviors to work more effectively with others. In order to do that, first you need to know your personality traits. Learn more about how to relax, energize, approach problems, and find solutions through your personality.

Below is a link to the 16 Personalities Test. It is free but requires you to create an account. Use the site to explore articles about your personality type, as well as other personality types you encounter at work.

Remember that personality can explain your approach to work, your ideas

about change, your style in communicating with others, and why you work more easily with some people than others. If you have any questions about your personality test profile, feel free to give me a call or email me. Dr. Riesenmy 405/703-8238, kelly.riesenmy@macu.edu.

Get Connected

DO YOU WANT TO LAND THAT PERFECT JOB IN HCM? ARE YOU LOOKING FOR A PROMOTION? Then become a member of a professional association in healthcare management. As a member of a professional association, you have access to ongoing education, conferences, networks, and job posting boards. Employers view membership with professional associations as commitment to your field and engagement with the community of healthcare management. The healthcare management field encompasses many professions including the areas of finance and information technology. **Find the organization that** is the best fit with your interest and career focus. Many organizations offer student discounts. Member costs vary from high to low, depending on each organization. **Remember – finding the right job is all about networking!!** Join an **association and** find the local chapter in your area so you

can attend meetings. You will find out about jobs and meet people who can help you get started. Check out these professional associations:

- [American College of Healthcare Executives](#)
- [American Health Information Management Association](#)
- [Healthcare Finance Management Association](#)
- [American Association of Healthcare Administrative Management](#)
- [Professional Association of Health Care Office Management](#)
- [Commission on Accreditation of Healthcare Management Education](#)
- [Association for Healthcare Administrative Professionals](#)

The University of Prayer

Students need extra time, energy, focus, quiet to accomplish academic work. Yet, time is what is needed for prayer. In fact, extra time is needed so desperately students must pray! Here are some quotes from those who experienced the power of taking time to pray:

“Work, work, from morning until late at night. In fact, I have so much to do that I shall have to spend the first three hours in prayer!”
~ Martin Luther (Father of the Protestant Reformation)

“For your work’s sake, break away from it, and give the soul a breathing time. Get a holy subject and keep to it till you have drawn somewhat from it to feed your soul upon, and then you will do your lifework with less fatigue because you will have more strength to spend upon it.” ~ Charles Spurgeon (known as the “Prince of Preachers”)

“All my life, I have risen regularly at four in the morning to go into the woods and talk with God. That’s where He reveals His secrets to me. When everybody else is asleep, I hear God best and learn my plan...” ~ George Washington Carver (Great American agricultural scientist, inventor, and professor)

News OK Marketing Ad in The Oklahoman

[MACU prepares healthcare managers of tomorrow in evolving industry by Michaela Marx Wheatly](#)

Talking points for News OK Article

- Passionate about developing talented managers and executives to work in healthcare
 - Healthcare Management is a career direction that offers job security
 - Employment in the field of HCM is expected to grow by 20% from 2016 – 2026.
 - Some of the factors that contribute to the bright outlook for a career in HCM are the large baby boomer population living longer and being more active, advances in medicine, and continual changes in technology, laws, and regulations.
 - Job prospects are also bright due to rising demand to replace baby boomer managers who are eligible for retirement over the next decade.
 - Oklahoma is one of the states with the highest concentration of jobs in healthcare management.
 - According to the US Department of Labor HCMs make an annual mean wage of \$88,000/year in Oklahoma.
 - Nationwide, in 2017 the median wage was \$98,350/year.
 - The lowest 10% earned less than 58,350
 - The highest 10% earned more than 176,130
 - Entry-level at the bachelor's degree
 - Forbes Magazine listed a Master's in HCM as the 7th best master's degree for employment.
 - MBAs with a healthcare emphasis or knowledge in healthcare IT are particularly in demand.
 - The MBA often takes the manager to the executive suite with advanced knowledge in strategy, operations, and leadership.
 - An opportunity to make a difference
 - This is a career with great influence and purpose!
 - We typically think that the frontline clinical people make the difference in the quality of healthcare; however, the clinical context requires robust management to assure that processes run smoothly, the financial and operations are strong for growth and to attract and maintain excellent human resources to meet patient needs.
 - Patients put their trust in their healthcare organization and healthcare managers and executives are responsible for raising a standard of healthcare excellence for their community.
 - Healthcare managers and executives:
 - Clinical (specialist in a medical department or service)
 - Generalists (those who manage or help to manage an entire healthcare organization or system)
 - Healthcare managers are needed in the fields of:
 - Finance

- Nursing
 - Pharmaceutical
 - Nursing Home
 - Health Information (IT)
- Work environment
 - Hospital
 - Outpatient care centers
 - Government
 - Nursing and residential care
 - Physician's practices
 - Consulting firms
- MACU is a diverse and engaging Christian environment for Higher Education
 - We are interested in helping people find opportunities to advance their careers, make a mid-career change, and advance to the C Suite as an executive
 - We are not only interested in helping students who are starting out in business and healthcare but also those who want to advance. An MBA this emphasis can take someone who is already functioning at a senior level to a position of director of chief officer. It is not uncommon for physicians to go back for an MBA to become better educated on the forces that shape the practice of medicine and revenue cycles.
 - We cater to working adults
 - Our goal is student success. We understand the challenges of having a career and working toward a degree.
- Our program objective is for graduates to have specialized knowledge in the business of healthcare
 - Our curriculum is aligned with competencies identified as necessary for success in the industry
 - We offer courses with a focus in healthcare in the areas of:
 - Human Resource Management and Development
 - Legal and Regulatory Compliance
 - Finance
 - Information Management
 - Operations Management
 - Strategy
 - Quality Improvement
 - We are rolling-out two new courses this fall
- We recognize that many students are young and need a starting point
 - To that end, we are currently engaged with nationally accredited providers of certification programs to investigate ways that we can offer greater value to our students for entry level positions.
 - Our goal is to offer students with credentials early in their academic career that will give them a marketable advantage for a healthcare position before finishing their degree.
 - Getting your foot in the door is important.
 - Our program is designed to give students the knowledge, skills, and abilities to be effective as a healthcare manager.

Program prepares healthcare managers of tomorrow in evolving industry

By Michaela Marx Wheatley, BrandInsight Editor

Oklahoma needs health professionals — as well as those who can manage them and an evolving healthcare industry. Mid-America Christian University (MACU) is meeting that need.

“One of the greatest challenges in the field of healthcare is its rapidly changing contexts resulting from technology, government regulations, compliance and laws,” said [Dr. Kelly Riesenmy](#), who serves as an associate professor and program director of [Health Care Management](#) in the School of Business Leadership at MACU.

MACU offers both a Bachelor of Science and a ~~master's~~ [Master of Business Administration](#) degree program in Health Care [Administration and Ethics Management](#). These [Health Care Management](#) programs explore real-world work challenges as they relate to situations in health care management

“Healthcare is adopting new trends more commonly seen in the corporate world, such as acquisition and mergers,” [Dr. Riesenmy](#) said. “Our curriculum integrates current trends in healthcare into coursework.”

MACU students learn about the challenges healthcare managers face in a transforming healthcare context and work with professors and peers on topics that are happening now in the healthcare industry.

“Typically, we think of the frontline clinical team having the greatest purpose and significance in healthcare delivery,” [Dr. Riesenmy](#) said. “But behind the clinical team are countless individuals who make the difference for quality of patient care by creating the environment for high performance and high reliability in the organization of healthcare. Our program prepares talented managers by giving them the skills and abilities to create and implement this kind of healthcare organization.”

She said MACU wants students to be transformational in their approach to leading and managing teams.

“To that end, our curriculum has a focus on healthcare management and business practices, principles of analysis and strategy, operations management and quality improvement methods. We equip students with the knowledge, skills and abilities to address the business problems specific to contemporary healthcare.”

The degree allows students to enter as generalists into the field of healthcare management, and prepares individuals for management careers in the areas of healthcare, medical records, health information, human resources and medical practice [management](#).

“It is not uncommon to see students with allied health degrees come back for a B.S. in Business with a Healthcare Management emphasis to become clinical managers within their respective field,” [Dr. Riesenmy](#) said. “Essentially, it prepares for any position within the organization of healthcare where talent in business skills and knowledge are required.”

A subsequent MBA with a Healthcare Management focus opens the door for upper level management and executive positions within healthcare. For individuals who are in clinical positions and ready to advance to positions as director or chief, the MBA is highly valued and leads to positions such as hospital administrator and program director, health system human resources director, nursing and residential care director, pharmaceutical product manager and positions progressing toward chief executive roles.

“The bachelor’s degree will get your foot in the door for a career that can put the individual on track for a management position in a [‘Bright Outlook’](#) job. The MBA in Health Care Management distinguishes individuals as someone with advanced knowledge and understanding about the business of healthcare,” [Dr. Riesenmy](#) said.

She said the university aimed to develop something that would get their students ready for their careers.

“The degree has the potential to place individuals in a position of great influence for helping others. One emphasis in the program is quality improvement in healthcare,” [Dr. Riesenmy](#) said.

These concepts are grounded in management science and business strategy. Healthcare systems ~~who have with~~ exceptional leadership and management see growth, attract and retain highly talented physicians and other clinical staff to serve patients with the highest quality of care.

“Excellent leaders and managers must have the knowledge and skills to understand the unique factors in the business and management of healthcare,” [Dr. Riesenmy](#) said.

Another way the program distinguishes itself among similar programs is its deep commitment to ethics. MACU is a diverse and engaging Christian environment.

“We have a biblical worldview which lays the foundation for our ethics. We believe that we are called to do great things because of what Jesus Christ did for us,” she said. “This call includes being creative, innovative and working with others for the greater good of individuals in our community and around the world.”

[Dr. Riesenmy](#) emphasized that healthcare is a relationship of trust.

“Our aim is to equip and empower students to become healthcare managers and executives who raise a standard of healthcare excellence for their community,” she said.

There is also a great need for these jobs as reflected in job outlook statistics.

“The job outlook is expected to grow 20 percent over the next 10 years,” [Dr. Riesenmy](#) said. “Factors such as the aging baby boomer population and people living and remaining active longer suggests a greater need for healthcare services. The baby boomer generation is preparing for retirement which requires succession of qualified individuals to fill those management and executive positions. The MBA in Health Care Management with knowledge in healthcare information systems have outstanding prospects for employment.”

Oklahoma is third in the nation for the greatest concentration of jobs in healthcare care management, according to the [Bureau of Labor Statistics](#). The annual wage in healthcare management services for Oklahoma averages \$88,990. Top paying industries within healthcare management are research and development, pharmaceuticals and business. Most jobs are in the contexts of general medical and surgical hospitals, outpatient care centers, medical and diagnostic labs and other specialty and ambulatory care services.

Students can earn their degree at MACU 100 percent online or by attending classes once a week on campus in Oklahoma City.

Enrollment is now under way for classes both on-ground and online. For more information, visit www.macu.edu.

CAREERS IN HCM USE YOUR TALENTS TO HELP OTHERS

- Medical Practice Manager
- Residential Care Director
- Hospital Administrator
- Healthcare Finance Manager
- Healthcare Information Management
- Clinical Managers (healthcare degrees with an administrative focus)
- Human Resource Manager within Healthcare Organizations

A bachelor's degree in HCM offers an entry level advantage because employers recognize the degree represents that the candidate has knowledge in business and healthcare management. The MBA offers individuals an advantage for upper management and executive level positions through advanced education in the specialization of healthcare strategy, planning, quality improvement, and revenue cycle management.

Bachelor of Science

Healthcare Management and Ethics

As the Healthcare sector continues to expand, organizations need Healthcare Managers more than ever – and this degree plan is designed to prepare students to enter the workforce with special knowledge and confidence. Focus is placed on the “hands-on” practice and business aspects of Healthcare Management systems, to provide the student knowledge and skills that can be immediately applied in a variety of settings, such as private practices, clinics, auxiliary services, or hospitals. Courses such as Human Resources, Legal Environment, Medical Practice Management, Operations, and Information Systems go beyond traditional business content to address the unique application of these topics within the Health Care industry. Consideration of Christian principles with respect to ethical and moral dilemmas in Health Care is an important component of each course. The opportunity to achieve two certifications are possible prior to graduation.

Health Care Management

Where Preparation Meets Opportunity

A career in Health Care Management (HCM)

- A formal Education is fundamental for a management position; a minimum of a bachelor's degree (except in nursing where experience may allow a nurse to work in leadership without additional preparation).
- Forbes Magazine lists a master's degree in health care management as the 7th best master's degree for a job.
- An MBA in health care management is an asset in mastering the skills and knowledge required for quick advancement in a health care management career.
- Employment growth in the field of medical/health services managers is projected to be 20% from 2016 to 2026, much faster than the average for all occupations.

Dill, K. (2014). Best and worst master's degrees for jobs. Forbes Magazine. Retrieved from <https://www.forbes.com/pictures/fjle45gfgk/no-7-best-masters-degree-for-jobs-health-care-administration/#4b3db3482064>

for eligibility

CQI HCM Curriculum Revisions Sheet 2019-2020

Course	Textbook	Revision/Rewrite	Status	Notes	Timeline	Assigned	Associated Certificate Programs	Notes on the course/revisions
HCA 3203 (Intro HCM)	Buchbinder, S. B. & Shanks, N. H. (2017). Introduction to Health Care Management	completed 8/2019	Complete	Course contents were revised and the course was formatted to accommodate certificate program.	Next run April 2019	Kelly Riesenmy Completed 8/19	CMAA (NHA) [not tied to years of experience, training only]	Include certificate prep. Completed: Textbook is current but course needs tweaking for clarity; needs rubrics. Need variety in assignments. Desperately in need of rubrics. Will include temporary rubrics until assignments and point allocations are revised. THE SLO ARE NOT WELL MATCHED WITH THE COURSE.
HC3213	New Textbook: Wagner, S.L. (2018). Fundamental of medical practice management. Chicago, IL: Health Administration Press.	completed by Robin McMurry on 7/8/2018	Complete		7/10/2018	Robin McMurry	CMAA (NHA) [not tied to years of experience, training only]	Include certificate prep
HCA3303 (Current Issues in HCM)	Need a textbook; engaging coursework	Priority 2	Needs a textbook and focus	Hasn't run since 2017?				In *any* courses claiming to be "Current Issues" I would always like to explore the possibility of a major assignment that could be easily linked to [whatever is the hot issue in healthcare]. For example, we have some business courses involving financial statement analysis that make it easy for the instructor to assign whatever company is in the news, deriving the financial statement data from the same website, so that the other parameters of the assignment don't have to change. This adds interest in the analysis. Let's be thinking how something like this might be possible in the context of this course.
HCA3313	Flynn, W. J., Mathis, R. L., Jackson, J. H., & Valentine, S. (2016). Healthcare human resource	Completed by Kelly Riesenmy on 10/22/19	Complete		Next run April and August 2019	Due 10/22		A question that I have to ask, because people keep asking me and I want to be able to offer a clear rationalization: What distinguishes Healthcare HR from other HR? Could we use the existing HR course in BBA/MGMT in place of this course?

HCA3503	Pozgar, G. D. (2014). Legal and ethical essentials of health care administration (2nd ed.).	Completed by Robin on 11/26/2019	complete		Next run June and September 2019	Due 11/26		History: Priority 1: Scott did a quick fix for the January 2019 run. Get feedback from Robin and Adam about how improve. Consider asking Adam to make revisions?
HCA4103	Dewar, D. M. (2017). Essentials of Health Economics (2nd ed.). Albany, NY: Jones & Bartlett	Completed by Kelly Riesenmy 3/15/2019	complete		Completed 3/15/2019	Kelly Riesenmy		
HCA4203	Langabeer, J.R., & Helton, J. (2016). Health care operations management: A systems perspective. Burlington, MA: Jones & Bartlett Learning.	completed by Kelly Riesenmy 7/1/2018	Complete		7/3/2018	Kelly Riesenmy		
HCA4303	Bowie, M.J. (2019). Essentials of health information management: Principles & practices (4th ed). Boston, MA: Cengage. With Mindtap	completed by Kelly Riesenmy 9/14/2018; Revised in 10/2019 to deep link to Mindtap	Complete	Course revision included deep linking Mindtap to D2L; removed all nongraded assignments from Mindtap. Prepared for certification program.	9/14/2018 and 10/2019	Kelly Riesenmy Completed	CEHRS Certificate (NHA)	Include certificate prep. Completed: Revision issues to address when revising for Certificates: Chpt. 8 Career Readiness provides incorrect answer in the automated manual grading correct response. Chapters 7&9 Learning Labs have new modules.

Faculty/Senate Checklist – Develop (Step #1)

MACU Faculty/Senate Policy Rev 11-09-2016

Do not change form wording

PURPOSE: Checklist to request approval to Develop a New Program (Step #1) (new major, emphasis, concentration or certificate)

Name of the new degree/emphasis/certificate to be developed: Master of Public Health

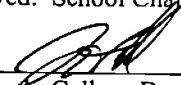

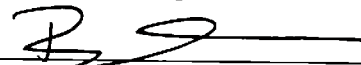

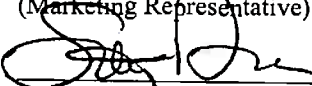

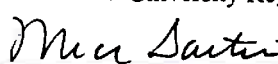

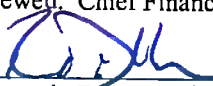

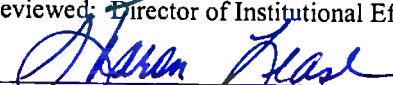

Submitted by: Drs. J Hall and Kelly Riesenmy College/School CAGS

Process to request approval “To Develop” a new degree/emphasis/certificate program:

- Fill out the attached Faculty/Senate Proposal form.
- Submit your completed proposal and required documentation to the persons listed below for signatures. You may email your proposal to reviewers and attach the email responses to this form – keeping in mind the required approval order.
- Proposals with all required signatures should be submitted for inclusion on the Faculty agenda a minimum of 7 days prior to the scheduled meeting.
- Submit your proposal and all supporting documents to the Dean in one electronic Word file. No PDF documents.

Required Signatures

1. Obtain all signatures **IN THE ORDER LISTED** for purpose of appropriate collaboration, communication and approval.
2. The signature form must always accompany your proposal. You can expect revisions at all levels of review.
3. Changes requested at any level below should be made before you receive that reviewer’s signature.
4. Submit your proposal to be listed on the next Faculty Meeting agenda: Upon receipt of notification of final approval of your proposal from the VPAA Office - submit an electronic copy of your proposal to the Dean’s Administrative Assistant.

MACU Faculty/Senate Policy Rev 11-09-2016

Proposed Degree Program Name: <small>Full information including degree</small>	Proposal to Develop: New Master of Public Health program.																								
Proposal <i>(explain request)</i>																									
This proposal is to develop a Master of Public Health degree in the College of Adult and Graduate Studies.																									
Rationale <i>(information supporting proposal – motivation, justification, reasoning; include documentation and sources of expected success of the new program)</i>																									
<p>Public Health is a growing area and one with few local options for graduate degrees. Both OU and OSU offer MPH degrees, but neither is 100% online. The large competitors (Phoenix, Capella, Liberty, Grand Canyon, SNHU, Purdue Global) offer online MPH degrees, but at a price point comparable to ours. This allows us to position ourselves in a niche as the local, 100% online option for those pursuing this degree. MACU has the opportunity to carve out areas of specialization to further distinguish our program from competitors.</p> <p>Our current MBA emphasis in Health Care Management provides some advantages as we work to develop the program. First, Dr. Kelly Riesenny has a doctorate in Organizational Leadership and has worked and taught in the field for a good deal of her career. Additionally, there are several courses in the HCM emphasis that can be used in the MPH as well, reducing development costs and increasing student count in these courses.</p> <p>Public Health is also a missional fit for MACU as we have the opportunity to intentionally prepare students to serve and study underserved and vulnerable segments of the populations of Oklahoma, the United States, and the world.</p>																									
Recruitment Forecasting <i>(data supporting proposal and estimated student enrollment per semester for the next 3-5 years)</i>																									
A master's in public health does not lead to a specific job, so evaluating BLS projection data is more complicated than in some areas. Below are BLS data for some of the fields identified as prospective areas of employment for MPH graduates:																									
<table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 40%;">BLS Job</th> <th style="width: 30%;">Oklahoma Growth by 2026</th> <th style="width: 30%;">US Growth by 2026</th> </tr> </thead> <tbody> <tr> <td>Social and Community Service Managers</td> <td style="text-align: center;">15.8%</td> <td style="text-align: center;">18%</td> </tr> <tr> <td>Community Health Workers</td> <td style="text-align: center;">10.9%</td> <td style="text-align: center;">17.9%</td> </tr> <tr> <td>Environmental Scientist, Including Health</td> <td style="text-align: center;">7.5%</td> <td style="text-align: center;">11.1%</td> </tr> <tr> <td>Epidemiologists</td> <td style="text-align: center;">0.0%</td> <td style="text-align: center;">8.2%</td> </tr> <tr> <td>Health Educators</td> <td style="text-align: center;">12.9%</td> <td style="text-align: center;">14.6%</td> </tr> <tr> <td>Healthcare Social Workers</td> <td style="text-align: center;">14.7%</td> <td style="text-align: center;">20.1%</td> </tr> <tr> <td>Medical and Health Services Managers</td> <td style="text-align: center;">12.0%</td> <td style="text-align: center;">20.5%</td> </tr> </tbody> </table>		BLS Job	Oklahoma Growth by 2026	US Growth by 2026	Social and Community Service Managers	15.8%	18%	Community Health Workers	10.9%	17.9%	Environmental Scientist, Including Health	7.5%	11.1%	Epidemiologists	0.0%	8.2%	Health Educators	12.9%	14.6%	Healthcare Social Workers	14.7%	20.1%	Medical and Health Services Managers	12.0%	20.5%
BLS Job	Oklahoma Growth by 2026	US Growth by 2026																							
Social and Community Service Managers	15.8%	18%																							
Community Health Workers	10.9%	17.9%																							
Environmental Scientist, Including Health	7.5%	11.1%																							
Epidemiologists	0.0%	8.2%																							
Health Educators	12.9%	14.6%																							
Healthcare Social Workers	14.7%	20.1%																							
Medical and Health Services Managers	12.0%	20.5%																							
NOTE: Compare these numbers to projections of a 7.4% increase for all jobs both in Oklahoma and nationally.																									
According to InterEd, the large Oklahoma organizations they interviewed indicated a preference for hiring candidates holding MPH degrees and two of these specifically indicated they would welcome additional MPH programs in Oklahoma. Several organizations also mentioned that they have tuition assistance programs to help employees further seek graduate education. InterEd research also confirms that "demand for public health workers is increasing". Given this, we anticipate an initial group of 15 students to begin the program, with subsequent groups of at least 15 for each start thereafter. Given two starts a year, a 70% retention rate, and a two-year time to graduation, enrollment could be as follows:																									

Faculty/Senate Checklist – Develop (Step #1)

MACU Faculty/Senate Policy Rev 11-09-2016

- Year one: 26 students (two groups of 15, less 4 retention losses)
- Year two: 48 students (two new groups of 15, less 8 retention losses from year one group two and year two, group one)
- We anticipate enrollment to stabilize at around 50 students, but see potential for growth beyond this.

Correlation to the Strategic Plan, Assessment System and Program Improvement

This program addresses the President’s initiative to start 2-3 new programs each year and meets the recommendation for new programs in healthcare management, but with a more flexible degree. The proposed program will have a full assessment system developed to evaluate progress and success on program and student learning outcomes.

Budget and Correlation to Strategic Planning *(include additional equipment, writing or development expenses, adjunct instructors and other expected costs; Note: HLC requires dedicated full time faculty for a new degree program-not required for emphasis or concentration.*

Curriculum cost estimates:

- 14 courses (42 hours)
 - 3 existing courses – no cost
 - 11 new courses
 - 5 created by Dr. Riesenmy over two years – contract (no cost)
 - 6 created by external content specialists over two years – \$12,000

Personnel needs

- FT Graduate Program Director (\$50,000 annually)
- PT faculty \$20,000 annually (8 courses)

Proposed Effective Date:

July 1, 2020

Program Description

(Proposed brief description to show program concept)

The Master of Public Health program provides a multidisciplinary view on rapidly changing and growing concerns in public health. The degree program emphasizes both caring for the individual and addressing how to find long-range sustainable solutions to population health concerns. Professionals will gain knowledge about the business of healthcare from a public health perspective by analyzing public health research, policy, and practice. Foundational courses focus on the study of patterns of disease, environmental health factors, and strategies for health promotion. The program provides students with the knowledge to effectively work, manage, and lead in government, public, private, and community health sectors.

<Proposal to Develop Master Public Health 9.24.19.docx>

Do not change form wording

PURPOSE: Checklist to request approval to Develop a New Program (Step #1) (new major, emphasis, concentration or certificate)

Name of the new degree/emphasis/certificate to be developed: Business Administration and Ethics (BBA), Health Care Management and Ethics, B.S.

Submitted by: Steve Clouse College/School CAS School of Business Administration and Ethics

Process to request approval “To Develop” a new degree/emphasis/certificate program:

- Fill out the attached Faculty/Senate Proposal form.
- Submit your completed proposal and required documentation to the persons listed below for signatures. You may email your proposal to reviewers and attach the email responses to this form – keeping in mind the required approval order.
- Proposals with all required signatures should be submitted for inclusion on the Faculty agenda a minimum of 7 days prior to the scheduled meeting.
- Submit your proposal and all supporting documents to the Dean in one electronic Word file. No PDF documents.

Required Signatures

1. Obtain all signatures **IN THE ORDER LISTED** for purpose of appropriate collaboration, communication and approval.
2. The signature form must always accompany your proposal. You can expect revisions at all levels of review.
3. Changes requested at any level below should be made before you receive that reviewer’s signature.
4. Submit your proposal to be listed on the next Faculty Meeting agenda: Upon receipt of notification of final approval of your proposal from the VPAA Office - submit an electronic copy of your proposal to the Dean’s Administrative Assistant.

Proposed Degree Program Name: Full information including degree.	Proposal to Develop: Business Administration and Ethics (BBA) with a Health Care Management and Ethics (HCM) Concentration
Proposal (<i>explain request</i>)	
This proposal is for approval of a new Health Care Management and Ethics Concentration with will be a part of the existing BBA degree program. The Concentration will consist of six (6) courses (eighteen hours). These courses will be in lieu of existing electives and will not extend time needed to earn the degree.	
Rationale (<i>information supporting proposal – motivation, justification, reasoning; include documentation and sources of expected success of the new program</i>)	
The need for Health Care Management staffing is one that is projected to grow significantly over the next several years. “Employment of medical and health services managers is projected to grow 18 percent from 2018 to 2028, much faster than the average for all occupations. As the large baby-boom population ages and people remain active later in life, there should be increased demand for healthcare services.” (https://www.bls.gov/ooh/management/medical-and-health-services-managers.htm)	
Recruitment Forecasting (<i>data supporting proposal and estimated student enrollment per semester for the next 3-5 years</i>)	
The concentration will allow students to complete their BBA degree and provide students to expand learning opportunities to students. This will be especially valuable to CAS students who do not have access to the HCM degree, but still want to have Health Care classes. As stated above, the demand for positions in the Health Care is higher than many other jobs. I would anticipate by calendar year 2020-2021 having six CAS students in this concentration, and that growing to fifteen students over the next two years.	
Correlation to the Strategic Plan, Assessment System and Program Improvement	
The existing assessment process will be used for the courses used in the concentration.	
Budget and Correlation to Strategic Planning (<i>include additional equipment, writing or development expenses, adjunct instructors and other expected costs; Note: HLC requires dedicated full time faculty for a new degree program-not required for emphasis or concentration.</i>)	
There will be no additional expenses as all courses used in the concentration are already used in the HCM degree. All courses are online, so there will be no additional adjunct expense.

Proposal Request to Make Changes to Existing Curriculum or for new courses: (state primary area of change – name of revised degree, new or revised course, etc.)

Proposal to Change: The following changes to the Health Care Management and Ethics, B.S. degree:

- Remove MGMT 2303 Management Principles from the Major Requirements of the degree plan.
- Add MGMT 3213 Applied Business Management to the Major Requirements of the degree plan.

Proposal to Change - explain revisions and actions being requested (show changes in ~~strikeout~~ and **new format)**

Health Care Management and Ethics, B.S.

Required prior to Major Courses

BUAD 2503 Business and Professional Communications

MGMT 2103 Computer Applications

Major Requirements

BUAD 3403 Business Finance

HC 3203 Introduction to Health Care Management

HC 3213 Fundamentals of Medical Practice Management

HC 3313 Health Care Human Resource Management

HC 3503 Legal Aspects of Health Care Management

HC 4103 Health Care Economics

HC 4203 Health Care Operations Management

HC 4303 Health Care Information Systems

~~MGMT 2303 Management Principles~~

MGMT 3213 Applied Business Management

MGMT 4303 Accounting for Managers

Total University Core	46
Total Orientation	03
Total Required Prior to Major Courses	06
Total Management and Ethics Major	30
Total Electives	37
Total Required Hours	122

Rationale (information supporting proposal – why you are making changes)

Replacing MGMT 2303 with the MGMT 3213 course will provides stronger introduction, support, and application of management concepts for students in the Management and Ethics degree. This course will also increase the upper division course work in the required courses for the major.

Other information (show new courses, course description changes, etc.)

The MGMT 3213 Applied Business Management course is currently in the BBA program. This is not a new course, but it will be new to the Management and Ethics program. The course description is:

“This three credit-hour course provides an introduction to the principles of management. The emphasis is on understanding organizational theory, human relations, interpersonal communications, production, business ethics, and the development of management thought.

Correlation to the Assessment System & Program Improvement

The MGMT 3213 course will provide consistent assessment of the Health Care Management and Ethics B.S. program outcomes.

Budget and Correlation to Strategic Planning (include additional adjunct or any other expected costs)

No anticipated cost associated with these changes.	
Other (Attach all pertinent degree program evaluation forms showing revisions <i>with</i> strikeout and highlights, e.g., old and new format)	
SUBMITTED BY: <ul style="list-style-type: none"> • Name/Title • College/School 	Dr. Kelly Riesenmy, Program Director Health Care Management and Ethics B.S. School of Business Leadership, College of Graduate and Adult Studies
Proposed Effective Date:	June 1, 2019

<p>Proposal Request to Make Changes to Existing Curriculum or for new courses: <i>(state primary area of change – name of revised degree, new or revised course, etc.)</i></p>	<p>Proposal to Change: Change the name and description of the Current Medical Terminology Course to better reflect expanded content</p>
<p>Proposal to Change - explain revisions and actions being requested <i>(show changes in strikeout and new format)</i></p>	
<p>HC 3213 Medical Terminology for Managers HC 3213 Fundamentals of Medical Practice Management</p> <p>Course Description: This course will focus on the medical terminology utilized by health care managers. The course will review the vocabulary of medical terms associated with body systems, medical specialty fields, disease processes, laboratory tests, and clinical procedures utilized in health care settings.</p> <p>This course will introduce students to the terminology, current issues, and changing role of management in the medical practice. Consideration will be given to the legal, ethical, regulatory, technological, practical, and inter-relational aspects of healthcare business management, so that the student may gain a better understanding of the language, planning, and analysis skills necessary to successful organization and administration of the medical practice.</p>	
<p>Rationale <i>(information supporting proposal – why you are making changes)</i></p>	
<p>The existing Medical Terminology course, which is typically the first course in the sequence for HCM students, concentrates exclusively on medical language in a format that is more appropriate for those seeking to become nurses or medical practitioners. By expanding the course content to include critical evaluation of current issues and a consideration of management requirements beyond terminology, the course is better aligned with the Program Outcomes for the degree.</p>	
<p>Other information <i>(show new courses, course description changes, etc.)</i></p>	
<p>Correlation to the Assessment System & Program Improvement</p>	
<p>The rewritten course gains some points of assessment, due to the broader and more general approach to health care management. This course will continue to support integrated, instructor led assessment.</p>	
<p>Budget and Correlation to Strategic Planning <i>(include additional adjunct or any other expected costs)</i></p>	
<p>Cost of course revision does not impact SBL budget. Revision of HC 3213 supports strategic objective 3.0 (alignment with certification programs), and the curriculum improvement plan for the HC degree.</p>	
<p>Other <i>(Attach all pertinent degree program evaluation forms showing revisions with strikeout and new format)</i></p>	
<p>SUBMITTED BY:</p> <ul style="list-style-type: none"> Name/Title College/School 	<p>William Scott McMurry, Interim Chair CAGS School of Business Leadership</p>
<p>Proposed Effective Date:</p>	<p>8/15/2018</p>

MACU Master of Public Health

Our Vision [ideas for consideration]

- Our vision is to prepare Christian leaders who will empower and educate their communities for better health and well-being in Oklahoma and beyond.
- Our vision is to prepare Christian leaders who will foster equality and promote health and well-being in their communities for God and His Kingdom.
- Our vision is to prepare Christian public health professionals to create, collaborate, and innovate to improve public health for God and His Kingdom.

Mission [modification of the University's mission statement for MPH]

Mid-America Christian University prepares students through a Wesleyan perspective to create, collaborate, and innovate to solve public health problems at the community and global levels for the glory of God through Jesus Christ and the good of society.

Goals [ideas for strategies to consider, can always add more and modify]

- Create an innovative and collaborative environment between students and faculty of different backgrounds, interests, and expertise.
- Create a learning community where students feel supported as they develop a fund of knowledge, competencies, and ethics in public health.
- Develop public health professionals who have a clear identity and realization of professional goals in public health service.
- Prepare students for the public health workforce through applied and integrated learning.
- Prepare public health professionals who will use Christian ethics to educate their communities and empower others to have good health and well-being.
- Prepare public health professionals who solve community health problems through innovative and collaborate interdisciplinary approaches.
- Engage community stakeholders to develop policies to improve urban (or Tribal) health outcomes.
- Develop public health professionalism.

Statement of Values [ideas for consideration]

- Biblical perspective – Students use scripture to shape their character, convictions, and integrity in public health to be worthy ambassadors of Jesus Christ.
- Excellence – Instruction of the highest quality is realized through an emphasis on evidence-based approaches to public health [at some point good to include 'and practical application']
- Equity – Promote the highest level of health for all people, believing that health is a fundamental right.

- Service – Emphasize integrity and stewardship through responsible resource management, professional decision making, and respectful promotion of public health at the highest standards of accountability and transparency who are worthy to be ambassadors for Jesus Christ.
- Continuous Quality Improvement – The MPH Program ensures the meaningful practice of public health through qualitative and quantitative measurements for continuous Program improvement. [I'll need to establish those methods and metrics.]

Public Health (Master's)

Market

A master's in public health does not lead to a specific job, so evaluating BLS projection data is more complicated than in some areas. Below are BLS data for some of the fields identified as prospective areas of employment for MPH graduates:

BLS Job	Oklahoma Growth by 2026	US Growth by 2026
Social and Community Service Managers	15.8%	18%
Community Health Workers	10.9%	17.9%
Environmental Scientist, Including Health	7.5%	11.1%
Epidemiologists	0.0%	8.2%
Health Educators	12.9%	14.6%
Healthcare Social Workers	14.7%	20.1%
Medical and Health Services Managers	12.0%	20.5%

NOTE: Compare these numbers to projections of a 7.4% increase for all jobs both in Oklahoma and nationally.

Competition ([link to data](#))

There are six schools in Oklahoma offering a Bachelor's degree in Public Health (ECU, Langston, OSU, SWOSU, UCO, and OU). At the Master's level, only OU and OSU offer public health degrees. OBU offers a certificate in Global and Public Health for MSN students. Several schools offer Health Care concentrations in their MBA program (similar to our concentration). There are no Oklahoma schools offering an MPH 100% online. Nationally, all of the big players offer MPH degrees online (Phoenix, Capella, Liberty, Grand Canyon, SNHU, Purdue Global), but the cost per credit hour for all of these is comparable to our current graduate rate. Baylor also has an online MPH program, but is priced much higher than our tuition (\$1716/hour).

Academic Needs:

Average length for an MPH program is 42-45 hours (14-15 courses). We have several courses in our MBA Healthcare Administration emphasis that could be included in the program, but would need to develop courses in research methods, epidemiology, biostatistics, community health, health communications, etc. Kelly estimates we will need at least 6 new courses, I put that number closer to 10.

Internships seem to be standard in these programs. The OSU program ([link](#)) offers the option of a written thesis or practicum experience, demonstrating the possibility of a non-internship degree.

No accreditations are required for this program. There is a CEPH ([Council on Education for Public Health](#)) accreditation available, but it is only held by large, top-rated programs. In Oklahoma, only OU holds this accreditation. OSU has applied for its undergrad program, but not graduate. None of the national online players hold CEPH accreditation.

Most MPH programs seem to have specific areas of focus. For example, OSU's program is in Rural and Underserved Communities. OU does not have specific emphases, but their program includes six hours of electives, creating space for specialization.

Given our management and leadership curriculum, we could easily find our niche in areas like:

- Health Services Administration
- Public Health Program Management
- Health Economics / Health Finance
- Management and Health Policy
- Public Health Leadership

I would love to see us branch into more missional areas like community health, urban health, or global health, but those are down the line.

Faculty Needs:

This would require a FT Program Director with a terminal degree in Public Health or a related field. According to Dr. Reisenmy, many of our current Health Care faculty would be qualified to teach in the program.

Pricing:

With few OK competitors (none online) and the large players in the same price range, there is no reason we can't offer this program at our regular graduate tuition rate.

Options

1. Offer an MPH with a specific focus.
2. Create an MPH Core with an initial area of focus that can be expanded to multiple emphases over time.

Is this a good bet for us?

Given the lack of competing degrees in the market, the expected growth in numerous job categories, the variety of directions the degree can be taken, and the variety of jobs possible with the degree, this seems like a viable program for MACU. It fits within the InterEd recommendation for new programs in healthcare management, but with a more flexible degree program. Startup costs would be relatively low, given the ability to use currently existing courses

and utilize Kelly's expertise in the field to help us get started. This is a longer project, given the need for HLC approval.

Academic Degree Program Inquiry Form

Institutions should complete this form for any new degree program to determine if prior HLC approval is required. If the institution is planning a new certificate or diploma program, it should complete HLC's [certificate program screening form](#). Contact changerequests@hlcommission.org with any questions.

Master of Public Health Degree

MidAmerica Christian University

College of Adult Graduate School

School of Business Leadership

Mission

Mid-America Christian University prepares students through a Wesleyan perspective to create, collaborate, and innovate to solve public health problems at the community and global levels for the glory of God through Jesus Christ and the good of society.

Program Description

The Master of Public Health is a 42-credit hour program that prepares students to plan, manage, and evaluate public health care services. Individuals completing this program will develop competencies to function as public health professionals in public and private sectors, at the community level, and in government agencies. Students will acquire leadership skills and abilities with core instruction in epidemiology, biostatistics, health and environmental health sciences, health policy and management, and social and behavioral sciences with cross-cutting competencies in communication, informatics, diversity and culture, program planning, and systems thinking. See Appendix A

Program Outcomes

Knowledge

- Explain public health history, philosophy, and values.
- Identify core functions of public health services.
- Recognize appropriate uses of quantitative and qualitative methods in assessing population health.
- Describe the trends in morbidity and mortality of populations.
- Name major causes and trends of morbidity and mortality at the international, national, and local community levels.
- Explain the science of prevention in population health through health promotion and education.
- Explain the critical importance of data in advancing public health initiatives.
- Describe the biological and genetic factors that affect population health.
- Explain behavioral and psychological factors that affect population health.
- Define the social, political, and economic determinants of health and how each influence population health and health equities/inequities.

Competencies

- Implement epidemiological methods to public health practice.
- Analyze public health concerns using quantitative and qualitative methods.
- Evaluate data using biostatistics, informatics, and other computer-based methods.
- Interpret research on public health, policy, and practice.
- Distinguish the systems and structures of the organization and functions of public health care in a variety of contexts.
- Evaluate community, societal, and structural factors that lead to bias, social inequities, and the cultural and racial challenges that undermine health equity.
- Assess population health needs, assets, and capacities at the community level.
- Design a population-based policy, program, project, or intervention.
- Apply principles of leadership for empowering others and fostering collaboration and decision-making.
- Demonstrate communication strategies for audience-specific public health content, in written and oral presentations.
- Apply systems thinking tools for policy making and program building in public health.
- Perform effectively on interdisciplinary teams.
- Design culturally competent educational programs for public health.

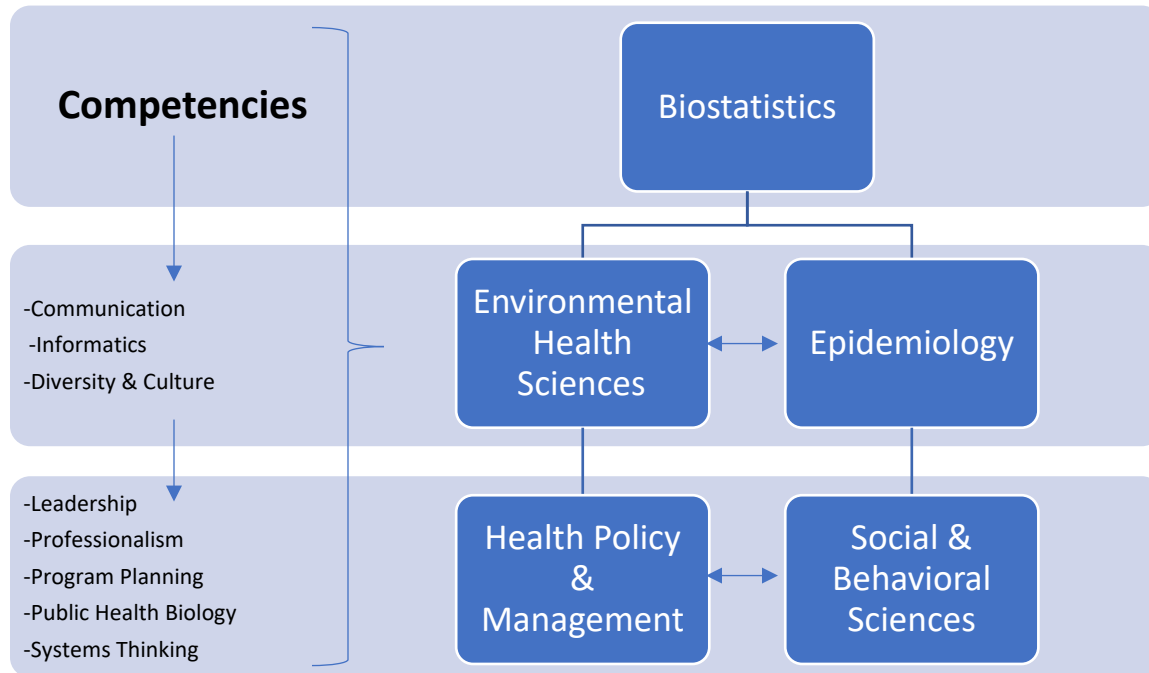

Core and Program Requirement		Credits

MPH Program Faculty

*Program Director: TBA

*One FTE Faculty: TBA

Adjunct Faculty Roster

Lamar Brown (PhD Ed & Leadership)

Al Clark (PhD Ed Psych, MS Healthcare Policy & Admin)

Kylie Harrison (PhD, MA Communications)

Adam Krejci (JD, Healthcare Focus)

Robin McMurry (PhD Nursing)

Claret Onukogu (DBA in Project Management, MBA, Public Health Experience)

Kelly Riesenmy (PhD Org Leadership, MA Psych, Healthcare Admin Experience)

Timothy Tardibono (JD, Public Policy)

* Need faculty who are credentialed to teach epidemiology and biostatistics.

HLC Program CIP Codes

<p>Public Health, General. A program that generally prepares individuals to plan, manage, and evaluate public health care services; to function as public health professionals in public agencies, the private sector, and other settings; and to provide leadership in the field of public health. Includes instruction in epidemiology, biostatistics, public health principles, preventive medicine, health policy and regulations, health care services and related administrative functions, public health law enforcement, health economics and budgeting, public communications, and professional standards and ethics. Examples: [Public Health, General (MPH)], [Public Health, General (DPH)] See also: 26.1309 - Epidemiology, 44.0503 - Health Policy Analysis.</p>		51.2201
---	---	---------

Courses from HCM that could transfer to HCM

A major with 36-42 credit hours (could make one of these a capstone @ 6 hours or eventually an internship@ 6 hours). Three existing courses could overlap from HCM with MPH, a fourth could be adapted to fit into the MPH domain.

Core Courses Required (21 hours) for Public Health Management (MBA)

- Epidemiology
- Biostatistics
- Environmental Health Factors
- Public Health System (HC4103 Essentials of Health Economics – **may need tweaking for master level standards. I also have a hot off the press book on Health Policy Issues that looks good.**)
- Health Policy and Management (HC5223 Legal Aspects of Healthcare Administration **Robin McMurry just finished a rewrite on HC5223 and it is awesome! Should not need tweaking.**)
- Management of Health Services Organizations (HC5213 Management Principles for Health Professionals – **very adaptable this should not need tweaking**)
- Research Methods (**what about ED5113 or POLS3213?(it is undergrad)**)

Electives or Emphasis [consider two separate emphasis could be a possibility]

Primary [Community Focus] (15 hours)

- Behavioral and Social Aspects of Public Health
- Cultural Content of Health Care in the US
- Public Health Education Methods
- Public Health Education Programs and Skills
- Grant Writing*

Secondary [Health Promotion Focus] (18 hours)

- Marketing of Public Health Service
- Community Health Analysis*
- Health Program Planning
- Health Program Evaluation
- Health Communication and Advocacy*
- Health Agency Management (HC4203 Health care operations management: A systems perspective)

***Could be in either emphasis or category of electives**

Master of Public Health

Statement about the program

- Requires HLC New Program Application
- Plan for Community Health Education and/or Urban Health
- Online meeting not just Oklahoma but a broader reach

Program Description

Outcomes

Courses (with descriptions)

Faculty

- Credentials required
- PhD faculty already at MACU
- Develop roster with faculty

Healthcare Management, Program Review, Section 17

External Review Documents (advisory boards, accrediting bodies, etc.) or
Other Substantive Evidence (i.e., student test scores on nationally-normed exam)

The Power of Certification

partnerships in the
industry by preparing
practitioners

Frequently Asked Question

- Enrollment & Advising FAQ: ***Do you offer a certificate in Coding & Billing***

- Student email:

*“Hi. I don't know how possible it would be... but I thought that it would be extremely helpful for those who have completed the Medical Terminology for Managers training course to have **some sort of certification so that we could put it on a resume or application**. I realize that it is not the same as a regular medical terminology course... but I lost my job back in February and have had an extremely difficult time finding steady work that I could do while I am in school. I feel like it would be a nice addition to be able to put on my resume that I send out to employers. Do you know if there is any way this would be possible?”*

Certificates Embedded into Courses

Fundamental of Medical Practice Management (HC3213)

- Certified Medical Administrative Assistant

Health Information Management Systems (HC4303)

- Certified Electronic Health Records Specialist

National Healthcareers Association (NHA)

Advantages to using a certification program:

- It is nationally recognized.
- The HCM curriculum prepares students with the KSAs to successfully set for the exam. NHA provides study materials that can be embedded into D2L for students to study for the exam.
- NHA will train proctors to administer the exam on site at MACU as part of the partnership (no additional charge). However, NHA has 500 testing sites around the country for student outside of Oklahoma City.

NHA Costs and Implementation

- Test prep package per certificate **\$69.00/students**
Package includes: study guide, practice exam, and remediation
- Exam package per student/per exam **\$117.00**
- Total package **\$186.00/student**
- Total package price for 2 certificates (e.g., CMAA & CEHRS) **\$372.00**

Healthcare Management Certificates

The New Big Thing!!

Why are Certificates Important?

Employers often prefer certification for specific roles in HCM... a certificate may provide an employment advantage for students.

NHA certification demonstrates a nationally-recognized measure of competency in the area of interest.

A certificate in an HCM-associated field demonstrates a personal commitment to the profession of HCM.

Certificate in Medical Administrative Assistant (CMAA)

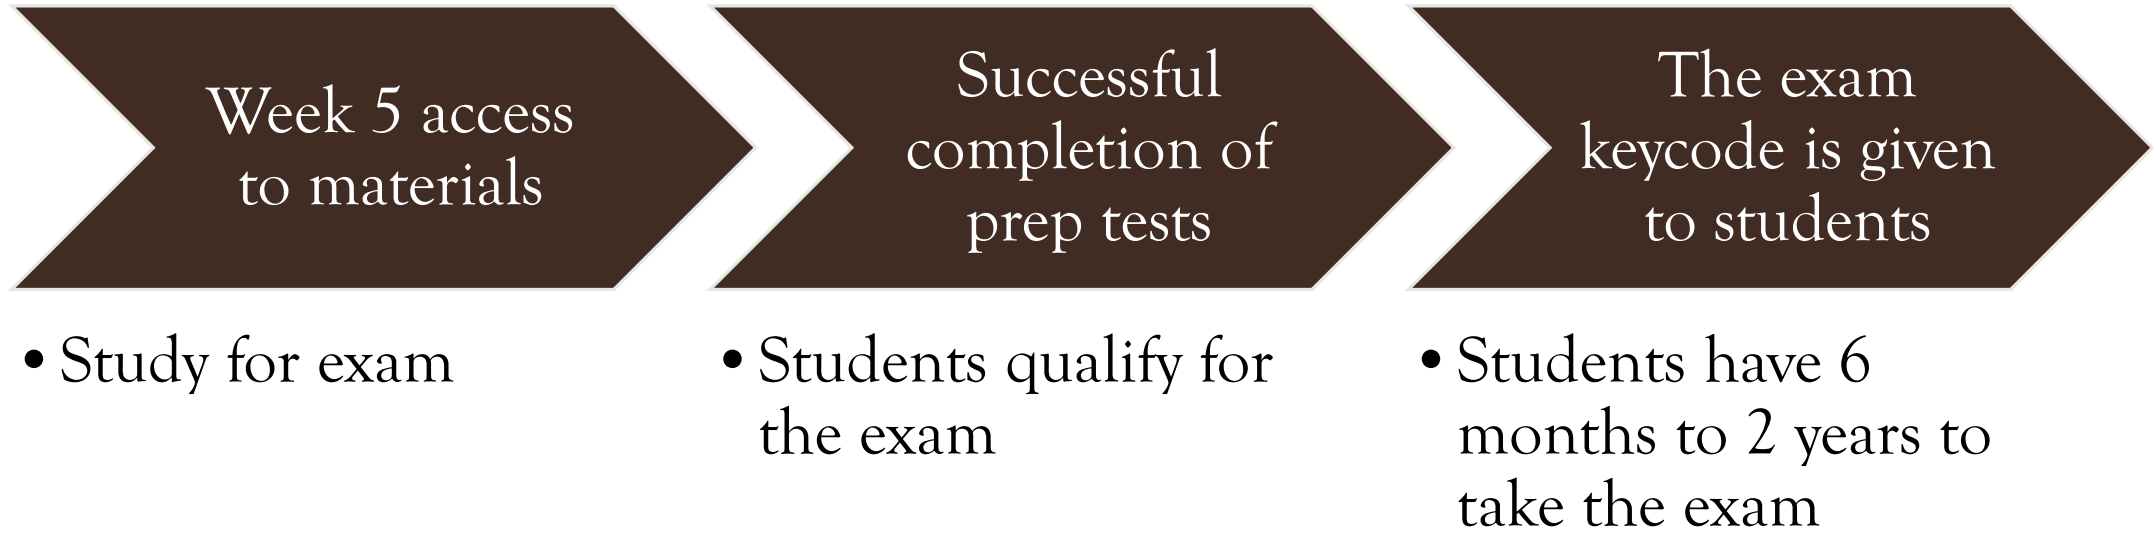

Medical Practice Management

- Frontline person in a clinic or practice
- Patient Experience
- Patient Scheduling
- Maintain Records
- Coordination of Practice Operations

Certificate in Electronic Health Records Specialist (CEHRS)

Health Information Systems

- Secures patient information
- Assures completeness and accuracy of patient data
- Verifies compliance with legal and regulatory requirements
- Compiles reports from data for insurance, physician, other...
- Performs basic coding for reimbursement
- Processes release of patient information

The Process...

Important Policy Information

Tuition Credit

- ◆ A candidate must provide evidence of a current certification in an equivalent or greater competency.
- ◆ All requests for course fee credit must be approved by the Program Director or Department Chair based on sufficient evidence supporting the request.
- ◆ No request will be granted after the end of the 2nd week of the course, or if the student has already registered with NHA and used the registration key to access certification activities.

The Future

College of Adult Graduate Studies

School of Business Leadership

Bachelor of Business Science

Healthcare Management (HCM) Certificate Program

Students will be eligible for two certification exams after completing the following required courses in the ASBL, BBS HCM emphasis. The certificates are awarded by the National Healthcareer Association (NHA). NHA is accredited by the National Commission for Certifying Agencies (NCCA) ensuring that all exams include job relevant knowledge and skills. Once the students' NHA account is activated, students will have access to the preparation materials, practice exams and to take the exam for two years. The preparation study will provide students with an indication of when they are ready to take the exam. Testing sites to take a proctored exam are located throughout the country. Certificates can be stacked.

Students must complete the following course of study to be eligible for certificate preparation study and exams:

- **University Core (46 Hrs)** Bible/Theology (12 hrs) Communication (9 hrs) U.S. History and Government (6 hrs) Science (6 hrs plus 1 hr of lab) Math (3 hrs) Social Sciences (3 hrs) Humanities (6 hrs – 3 hrs must be literature) See the Academic Program Requirements section of this Catalog for additional requirements.
- **Orientation Requirement Orientation (3 Hrs)** UNIV 1123 Success at MACU
- **Required prior to Major Courses Health Care Management Required Courses (6 Hrs)** BUAD 2503 Business and Professional Communications; MGMT 3213 Applied Business Management

Plus a “B” or better in the following HCM courses specific to the corresponding certificate:

Certificate in Medical Administrative Assistant (CMAA): *Certified Medical Administrative Assistant is a recognized credential for healthcare medical practice office skills and abilities. CMAA is the frontline person in the medical milieu who sets the stage for the patient’s experience. Important competencies include medical practice correspondence, use of computer systems for office tasks, patient scheduling, maintains files, updates patient and practice information, and coordinates practice operations.*

The student may begin preparing for the exam for the CMAA certificate after completing these courses.

- **HC 3213 Fundamentals of Medical Practice Management**
- **HC 4203 Health Care Operations Management**

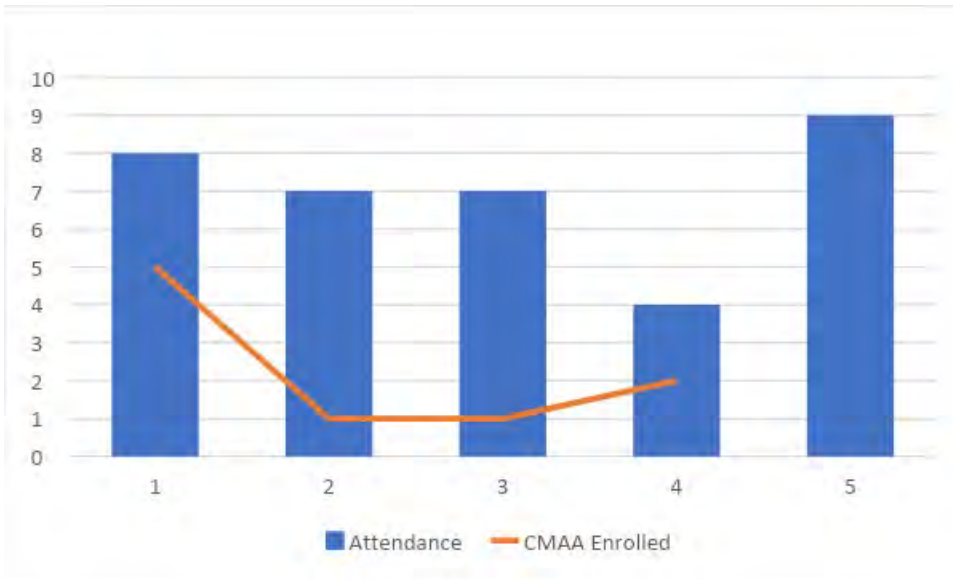

Certificate in Electronic Health Records Specialist (CEHRS) *Certified Electronic Health Records Specialists play a significant role in the security, completeness, and accuracy of patient data. Most employers require a certification to work with patient information. CEHRS may work to assure compliance for patient record audits, pull clinical information for reports, perform basic coding for reimbursement claims, process release of information, review patient records, collect patient data for insurance information, and discuss patient information with physicians and insurance professionals.*

The student may begin preparing for the exam for the CEHRS certificate after completing this course:

- **HC 4303 Health Care Information Systems**

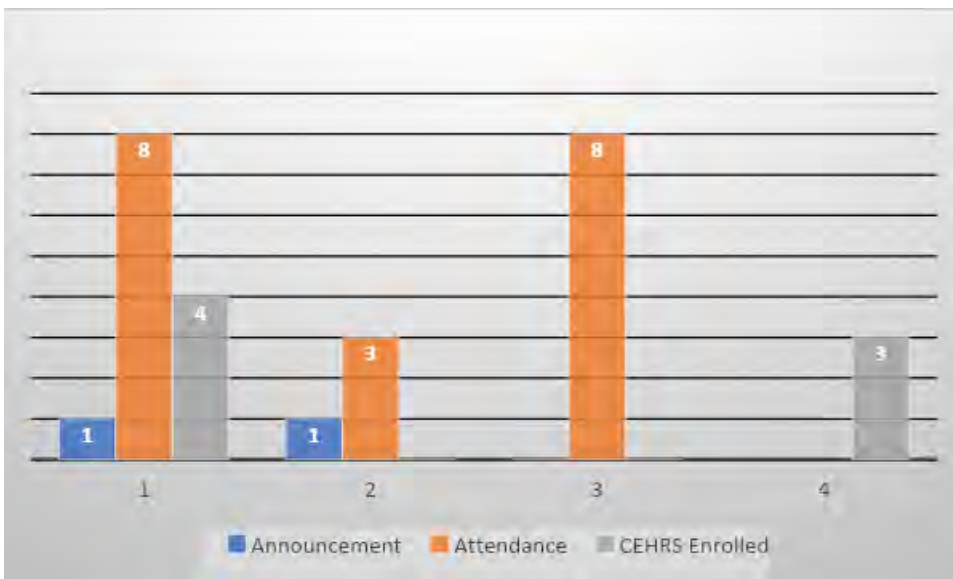

Progress Report

Certificated Medical Administrative Assistant (CMAA)

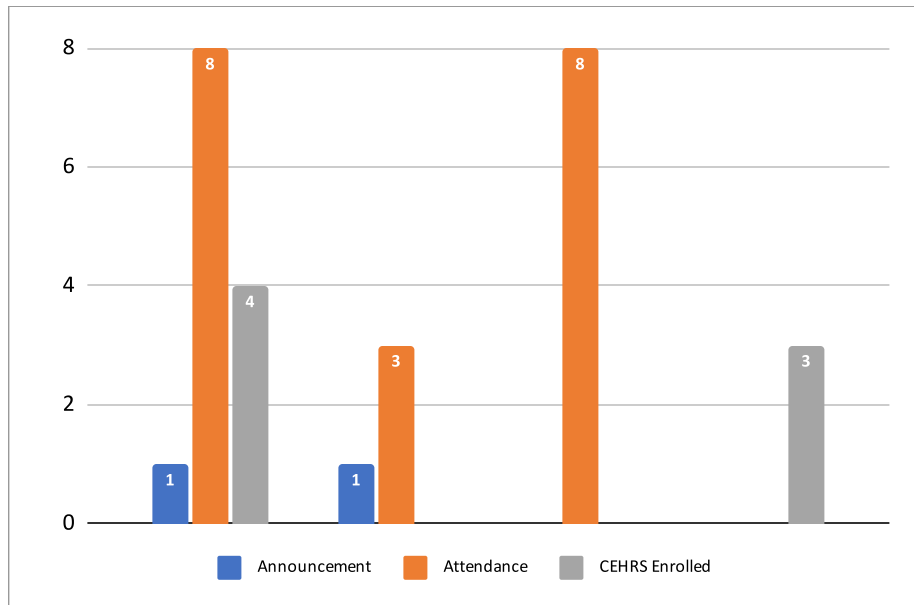

In the first year of the HCM – CMAA program, four sections qualify to begin the study preparation for the certification exam. Based on this data, new strategies should be employed to enhance enrollment into the CMAA certification process.

Certificated Electronic Health Records Specialist (CEHRS)

In the first year of the HCM-CEHRS program, three sections qualify to begin the study preparation for the certification exam. The last three students enrolled spontaneously before taking HC4303. New strategies will be employed to improve enrollment in CEHRS exam preparation process.

HC4303	Section	Assigned	Announce	Attendance	CEHRS Enrolled
2019	10W119F: Lawter		1	8	4
2020	02W120S: Riesenmy		1	3	0
2020	06W120S: Seal		0	8	0

Individual Performance Profile

Certified Medical Administrative Assistant (CMAA) Practice Test 2.0 A

Individual Name:	SMITH-OSUBU ALYSSA	Individual Score:	49.1%
Student Number:	9846785	Practice Time:	1 hr 21 min
Institution:	Mid America Christian University		
Test Date:	6/4/2020		
# of Questions:	110		

Individual Performance in the Major Content Areas

Sub-Scale	# Items	Individual Score	Individual Score (% Correct)										
			1	10	20	30	40	50	60	70	80	90	100
Scheduling	19	57.90%											
Patient Intake	18	44.40%											
Office Logistics	12	58.30%											
Compliance	16	56.30%											
Patient Education	11	45.50%											
General Office Policies and Procedures	15	40.00%											
Basic Medical Terminology	19	42.10%											

Topics To Review**Scheduling**

- Evaluate different types of patient scheduling.
- Determine scheduling needs of the facility, as well as new and established patients.
- Follow protocol for no-show, missed, cancelled, or follow-up appointments.
- Arrange for diagnostic testing and procedures.
- Confirm future appointments.

Patient Intake

- Verify insurance information.
- Ensure forms are updated or completed.
- Prepare encounter form.
- Prepare daily charts.

Office Logistics

- File medical records.
- Perform financial procedures.
- Evaluate mail deliveries.

Compliance

- Follow HIPAA guidelines.
- Follow OSHA guidelines.
- Follow the Center for Medicare/Medicaid Services (CMS) guidelines. (1 item)
 - Follow the Center for Medicare/Medicaid Services (CMS) guidelines (CMAA 2014 Task 4C)

Patient Education

- Explain the Patients' Bill of Rights.
- Explain the patients' insurance responsibilities.
- Explain pre- and post-instructions for testing and procedures.

General Office Policies and Procedures

- Perform office opening and closing procedures.
- Greet patients upon arrival.
- Apply telephone etiquette.
- Create correspondences.
- Demonstrate basic computer skills.

Basic Medical Terminology

- Use medical terminology to communicate with patients and physicians.
- Recognize abbreviations and acronyms used to complete administrative duties.
- Use word parts (i.e., prefixes, roots, suffixes) to define medical terminology.

Healthcare Management Program

FACULTY NEWSLETTER

Course Under Revision: HCA5233

Healthcare Finance will be the first official course revision. A new textbook will be ordered this month. A preliminary revision was done that includes an upload of current resources, a group project, and other interactive assignments.

Course Under Revision: HCA5223

The second full revision will be Healthcare Legal Environment. We also made a provisionary revision on this course. It will be the next course to get a new textbook and will soon be on the course designer's schedule.

I am so blessed to be a member of the SBL Team! A little about my background: I have worked in the healthcare field as a teacher, consultant, researcher, and clinician for 20+ years. At the University of Georgia, Center for Behavioral Research we studied the factors that influenced organizational outcomes in healthcare. As a consultant I helped kick-start EMR implementation for a local healthcare system. I worked at the VA Medical Center as the HIV/AIDS Coordinator and VA Regional Faculty for Patient Education.

Dr. Kelly Riesenmy

My family is a priority. I have 2 wonderful children in college at the University of Kansas. My office buddies are my little 16 y/o Shih Tzu, Angel & 17 y/o cat, Miss Kitty.

Online Teaching Tip

Teaching online requires building a community with your students. One strategy is to employ free Web 2.0 tools to better engage students. I recommend looking at Jing (Multimedia video tool) and Ted Ed (create an interactive lesson with a Ted Talk). Jing is great to use for grading feedback. Ted Ed brings elements of a topic to life! Let me know if you have any questions about either of these. Check out other resources at the link below.

Website (click link for resources): [Web 2.0 Guru](#)

Kelly Riesenmy

What is your tip?

BE THE NEXT FACULTY FEATURE TIP

Please let me know if you would like to share a valuable tip in the next Faculty Newsletter. We need your contributions!!

Consider a free membership to the **Institute of Healthcare Improvement (IHI)**. IHI has free resources that you can share with students.

Website (click link): [Institute for Healthcare Improvement](#)

A MESSAGE FROM OUR CHAIR

I'm very excited about the potential Dr. Riesenmy brings to the Healthcare Management program. We are fortunate to have found a Program Director with her experience and qualifications, who shares our vision of a best-in-class HCM program characterized by professional relevancy, pedagogical innovation, adult-student friendliness and Christian values. She has ambitious plans for change, but I have no doubt in the ability of our HCM faculty to implement and expand on those changes, constantly enhancing the student learning experience as we go. Kelly is anxious to hear your ideas about the classes you teach! I encourage you to contact either or both of us with your insights, as we begin the long process of bringing the HCM degree to the forefront of our offerings in the School of Business Leadership. – Scott McMurry

“If God has called you to a divine mission, God will provide the leadership resources to complete that mission.” C.G. Wilkes (1998) *Jesus on Leadership*.

D2L BEST PRACTICES

The Discussion Board has an often-overlooked area that is vitally important to your best practices as an instructor, the **Virtual Office**. This is a place where students can leave questions for you and you can answer for all students to see.

Virtual Office ▾

▾ Hide Topics for Virtual Office

Topic	Threads	Posts	Last Post
Virtual Office ▾ Feel free to use this discussion board to ask your instructor any questions you may have about operating in the class or about the course material.	4	16	 Kelly Riesenmy 2 minutes ago

I copy and paste the same message for each course 2 weeks prior to the start of class when I set-up the course shell. Here is an example:

Hi! I am here to serve you! I want you to be successful in this course so please do not hesitate to reach out to me with questions.

My office hours are M-S 10am-6pm CST

You may call or text me at 417-319-4733 or email me

I check my virtual office daily. You may leave your questions here. I am also happy to meet with you via google video chat. I am happy to answer questions, share the computer screen to explain something to you, or visit with you about the course.

I look forward to meeting you!

“Rank does not confer privilege or give power. It imposes responsibility.” Peter Drucker

WELCOME NEW FACULTY

Betty Glover, MS, SPHR, SHRM-SCP. Betty is a certified professional coach. She has an extensive career in the field HR but recently opened a boutique Learning & Development firm.

Adam Krejci, JD. Adam brings his expertise regarding the legal and regulatory aspects of HCM to our program.

Screencast-o-matic @ <https://screencast-o-matic.com>.

Here is a fun, just under five minute video called "Banning Boring Announcements!" Click here: [Banning Boring Announcements!](#)

"Therefore encourage one another and build each other up, just as in fact you are doing..." ~1 Thessalonians 5:11 (NIV)

Shalom!

Faculty News

FACULTY UPDATE

FACULTY SPOTLIGHT

Our part-time faculty are the most important aspect of the MACU experience for students. Here are a few comments from Student End of Course surveys. You make a difference in their lives!

“Dr. Roddy is an amazing professor. She takes extra care to make sure we are learning and concerned with our opinions on how the class is going.”

“Dr. Clark was great! This was the hardest, but most rewarding class to date!”

“Professor Shockey was very effective at the highest level.”

New Part-Faculty

We are happy to introduce Jenna Lawter, MHA. She lives in Oklahoma City. She has extensive experience in practice and operations management. Welcome Jenna!

HEALTHCARE MANAGEMENT

CHRONIC PROBLEMS IN ACADEME

Plagiarism

MACU Academic Honesty and Integrity Policy is very clear. Yet, students continue to struggle with high similarity reports on Turnitin (TII). We need to be

consistent about enforcing the MACU policy and help students

overcome this tendency. Ways to reduce plagiarism include:

Awareness. Post a reminder at the beginning of every course to remind students of the MACU Academic Honesty and Integrity Policy. Reinforce that consequences will occur for violations. Provide a brief overview of the consequences.

Education. Many students do not understand the concept of plagiarism. Evaluate

the student’s first offense. Does the student over quote? Does the student struggle with articulating the material? Feel free to send the TII report to me for a recommendation. Often, simply remediation of the issue begins with teaching students how to avoid paraphrasing and duplicating material. Teach them to read, consider, write, cite.

Student Early Alert System

If you have a student who requires additional help, or you need help with a student use the Early Alert System to notify the Success Coach. The form is at this link [STUDENT EARLY ALERT](#).

PROCESS FOR PLAGIARISM VIOLATIONS

- **First Offense:** Work with the student. Instruct the student on ways to avoid plagiarism. Many of our CAGS students need a refresher course on writing. Give students the option of a zero on the assignment or a revise and resubmit. Submit a Helpdesk Ticket within 10 days of notifying the student in writing.
- **Second Offense:** Clearly communicate with the student about the next consequence, a grade F for the course. Students are most often assigned to an online tutorial. Action at the level of the Dean is taken.

See details about the Academic Honesty and Integrity Policy in the MACU Policy and Resource Information Manual (see accompanying file).

“The task of the modern educator is not to cut down jungles but to irrigate deserts.”

C.S. Lewis (The Abolition of Man)

Health Care Management Program

Online Teaching Best Practices

Even though your performance expectations are listed on your contract with MACU, we encourage

Two Course
Revisions Go
Live in
August

FACULTY UPDATE JULY 2018

using online teaching best practices to create an engaging online environment for students. The following are a few best practices that will enhance your online classroom and motivate your students to be fully committed to the course. This month we will focus on using the *News Announcement* section of D2L.

1. Create a **Welcome Announcement**. Use graphics or a personal photo to personalize the message. Tell students about your professional background and something fun you

want student to know about you (e.g., I like to snow ski on spring break).

2. Post a **Weekly News Announcement**. Simply copy and paste the week overview located in the course content in D2L, into the News Announcement. Consider adding a graphic or use colorful font to highlight assignments. Or, create your own weekly overview. Offer tips on how performance could be improved in that week. Provide a resource on the topic that will enhance student learning.
3. Add an **announcement when you have finished grading** their work.

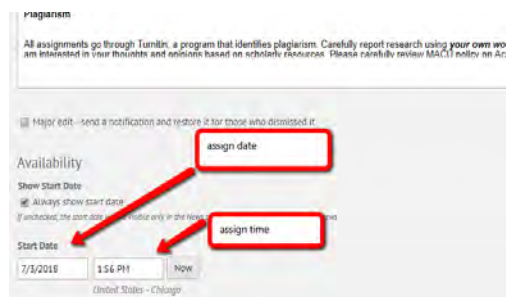

HC3213 will be retitled and focus on **Fundamentals of Medical Practice Management**

HC4203

4. Add a **devotional**. We all need a spiritual boost. Provide students with encouragement from God's Word to strengthen their commitment and resolve to complete the course.

The News Announcement area of D2L is an excellent resource you can leverage to engage students. Each News Announcement is automatically emailed to students. You can schedule when you want your announcement to be visible to students.

Let me know if you need help with some of the functions in D2L.

★ Best Practices Using News Announcement

- Michelle Mendenhall posts weekly announcements using graphics and colorful fonts
- Kyle Morton adds video resources and colorful graphics
- Stephany Finnie uses the News Announcements to integrate Biblical concepts into the course contents
- Shirley Roddy uses the News Announcements to give tips on how to perform well in the class

New Faculty!

Robin McMurry, PhD, RNC

Robin has a PhD in Nursing Philosophy and MS in Nursing. She brings a wealth of experience in healthcare management including serving as interim CEO, COO and CNO at Moore Medical Center. She is active faculty at Universities within the Oklahoma City area. She is a legal nurse consultant. We are blessed to have her on our faculty!

"Be good friends who love deeply; practice playing second fiddle." Romans 12:10 (The Message Bible)

Health Care Management Program

Grading Papers

Timing is everything; especially in grading papers. Students depend on instructor's comments and feedback on their assignments. For online instructors, grading feedback

“The truth of the faith can be preserved only by doing a theology of Jesus Christ, and by redoing it over and over again.”
Rahner (1978, p. 213)

Rahner, K. (1978). *Foundations of Christian faith: An introduction to the idea of Christianity*. New York, NY: Seabury.

FACULTY UPDATE August 2018

is perhaps one of the most valuable methods to teach and enhance student success. *Timely grading feedback is critically for improvement; students learn and grow from your comments.* Here are a few best practices to remember when grading papers:

- Use the grading rubrics. Copy the rubrics with feedback describing areas where points were deducted.
- Use track changes (blue or green; not red) to make corrections.
- Make comments on the paper.
- Personalize grading feedback by including the student's name.
- Be supportive and positive while encouraging your students by using the “sandwich technique” – offer comments about areas the student did well, describe ways they can improve, and end with supportive and encouraging comments.
- Work with students on improving content. Avoid the tendency of correcting every misspelled word. Do not do disheartened students.
- Correct APA format errors to illustrate accurate format. Include a link to Purdue OWL for APA instruction details.
- Upload student papers with your track changes and comments as an attached file with feedback.

New instructor agreement to debut in Sept. will include revised expectations on grading feedback. The revised contractual expectations for grading feedback are as follows:

Feedback

- a. Feedback on all student work must be completed, with comments, within 5 days of the due date.
- b. When available, rubrics must be used for grading and specific rubric scores explained in student feedback
- c. Feedback should be:
 - i. Personalized to the student
 - ii. Encouraging
 - iii. Instructive, explaining both strengths and areas for improvement
- d. As appropriate, feedback should point students to tutorial resources

This is why we teach...

Meet Jillian Herndon

Hello, my name is Jillian Herndon and I am the Practice Manager and Compliance Officer for the largest Long-Term Care practice in Oklahoma. I am also a freshman in the Health Care Management adult program at MACU. I have worked in the medical field since I was 18 years old. A lot of people ask me why I chose to get my degree in Health Care Management when I am already a Practice Manager. I chose this path not only because I want to better myself, but also because I own a medical credentialing and billing business. I felt that simply having experience was not enough to grow my business and that I needed a degree to grow successfully.

Jillian is counting on us to teach her how to excel in HCM!

Library Link Not Working? Let us know!! MACU library is updating the databases to better serve our students. Please let us know so that it can be addressed. Soon, we will enjoy databases specific to HCM and other management related sources.

D2L had a makeover!

On July 31st, the appearance of D2L changed but the functionality is the same. Even though the site has a new look, it operates the same. Review the video below at the link below.

Health Care Management Program

FACULTY UPDATE September 2018

WISDOM FROM
OSWALD
CHAMBERS

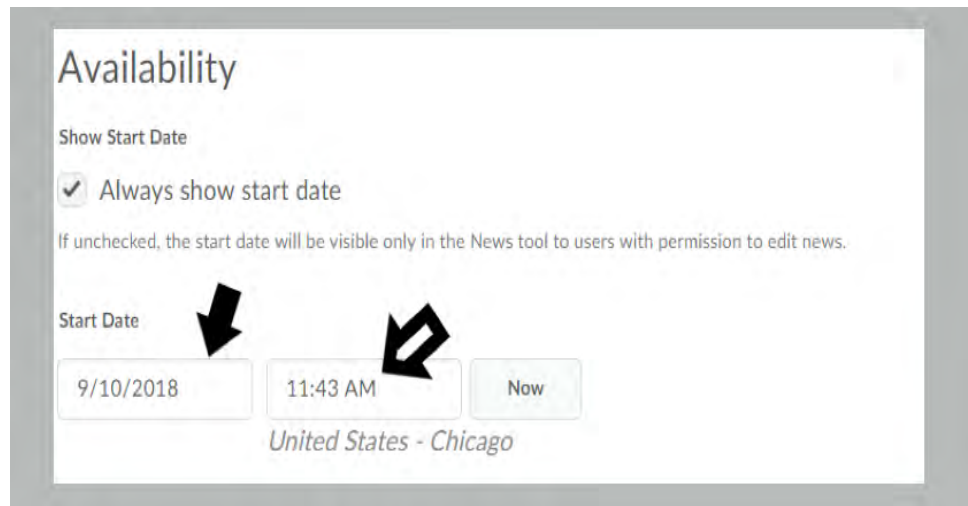

“God does not further our spiritual life in spite of our circumstances, but in and by our circumstances.”
From *Not Knowing Whither: The steps of Abraham’s faith* (1934)

A Tip for Success on the Revised Instructor Agreement

Schedule your weekly News Announcements

As part of the revised Instructor Agreement, you are required to post weekly news announcements to demonstrate presence in the online environment. You can accomplish this easily by *scheduling* news announcements. Create a news announcement with the overview for the week (copy and paste from the course content or create your own based on the course content). When creating the News Announcement, under “Availability” you can designate a start date and the time. This can be a time saver during a busy course week.

In addition to posting a News Announcement with the week overview, consider posting a devotional, word of encouragement, or a teaching resource. You may schedule these in advance as well.

APA Format

So the question is, "how do you cite a tweet that includes a reference to a pinterest post inspired by an infographic initially announced via face book live?"
That's an easy one.

Yes, we all know how this feels! Consistency in APA format can be a challenge. Our consistency in correcting errors is important. Our Chair, Scott McMurry has developed an APA Format template to help students learn and better adhere to the APA editorial style. Even though we don't want to over-focus on APA format, it does account for a small portion of their grade. All faculty working together to be consistent in grading and modeling APA format is key to our students' success.

The template is coming soon!

New faculty – Cindy Milam, MSN, RN Cindy is the Health Professions Simulations and Lab Director at Oklahoma City Community College. She has extensive experience as a clinical and administrative nurse. We are blessed to have her on our HCM faculty. Welcome to the team, Cindy!

New Course Roll-out

HC4303 Health Information Management Systems

New course contents includes Cengage's Mindtap. Mindtap uses simulation exercises in HIMS practices and electronic medical records so that students experience practical application of the content area. We are excited that students will engage in activities to enhance knowledge and skills needed for certification in HIM-related credentialing.

The new course will go live 10/23/2018

HCM Faculty Update

Our Goal: Student Success!!

Our goal is for every student to successfully graduate with his/her degree from MACU. Student retention and student success are synonymous. To reach this goal, we have to actively help students through their process of matriculation to graduation. Faculty objectives are student engagement, instruction, and encouragement.

Online

Online students need instructors who are fully engaged in the online environment.

On Campus

Our objectives:

- Engagement
 - Use the News Announcements in D2L weekly
 - Use the [Early Alert System](#) (you can access through this link) for struggling students. Our academic success coaches are incredible! They do fantastic work in retaining our students who need help.
- Instruction
 - Use every discussion board post as an opportunity to teach
 - Give grading feedback that is rich in content; use track changes (e.g., show students a better sentence structure).
- Encouragement
 - Send an email to check-in on students who go missing during the discussion board week.

Revised HC4303 Goes Live in November 2018!

Healthcare Information Management Systems

In this revised course, students will have access to Mindtap – a Cengage learning tool. The course uses Mindtap simulation projects so that students gain hands on experience with EHR. Many of the assignments are experiential with a video-based case study exploring issues faced by the director of HIM in a healthcare organization. Students will enjoy the learning process in the updated course! I have already received encouraging feedback from students who are looking forward to taking this course!

- Take extra time in grading a student paper who is struggling with the subject content or in writing and offer empowering suggestions with a positive tone.

Student Spotlight

Nicole Rodenberger-Dickey

I am motivated by helping people perform better work and building the most functional processes to accomplish that goal. I have a passion for uncovering ways to obtain the utmost quality work without sacrificing the metrics needed to drive business forward.

Nicole is an account manager for a Pharmacy Providers of Oklahoma (PPOk). In her role, she creates plans that provide fiscally sound choices for prescription medications for her customers. She is nationally certified as a pharmacy technician. She is currently working on her Bachelor of Science in HCM at MACU.

I am 31 years old, grew up in the southeastern corner of Oklahoma, but currently live in Oklahoma City with my husband, two year old daughter, and two puppies.

I accidentally fell into working in the managed care field of health care, specifically in pharmacy benefit management ten years ago as a temp and ended up loving the work. I have held many positions throughout my career, from frontline pharmacy technician to a vendor manager. My passion, specifically, within the PBM environment is finding ways to improve processes without sacrificing quality. I have thoroughly enjoyed my time at MACU and have used many of the things I learned in class toward real-life business goals.

It is exciting to consider how our work can shape the success of our students' lives. My prayer is that each of us will give our best to teach Nicole and her cohort the theories and principles in healthcare management so that they can improve the quality of healthcare in their communities.

Health Care Management Program

Transforming the Program: Matching program objectives to the field of healthcare

The School of Business Leadership, Health Care Management (HC) emphasis is transforming to match the knowledge, skills, and abilities (KSAs) necessary to work in health care management. The first phase of the transformation is to revise and update course textbooks and content. ***Health Care Legal Environment*** and ***Health Care Information Systems*** will be the first courses to be revised. We have made preliminary changes to both courses, but greater revision is scheduled to take place this summer.

Your success is our goal! Expect to see changes as we practice what we teach by implementing quality improvement processes for the Health Care Management Program.

We would like to feature you in our next newsletter. Submit your thoughts about health care management, study habits, a devotional, or work opportunity. We want student participation. You might consider submitting a brief piece as a cohort to encourage the upcoming cohort. This will be your spot to shine!

Why is APA Style Important?

Accuracy with APA format amid posting to discussion boards, writing essays, and developing presentations and proposals seems like an unnecessary inconvenience. However, the value of using an editorial style is very important! Here are a few reasons why:

- Promotes professionalism
- Removes questions about correct punctuation for a reference or proper form for numbers in a text
- Codifies rules for clear communication and presentation of written material (e.g., tables, graphics, headings, citations)
- Eliminates inconsistencies within a manuscript

Free APA Style resources on the web: [APA Style by the APA](#) and [Purdue OWL](#)

“Faith is the basis of any genuine relationship; the more sensitive and dynamic a relationship is, the greater the faith that must enter into it.” -TW Hunt (1986, p. 95).

Healthcare Management

New and Improved HCM Courses!!

Two Courses Go Live in August!!

By Dr. Kelly Riesenmy

One of my priorities as program director was to provide a curriculum that prepared students for a career in healthcare management.

I am happy to announce that two courses go live in August. **HC 3213** previously known as “Medical Terminology for Healthcare Managers” has been revised as “Fundamentals of Medical Practice Management.” Topics covered in this course include practice models, information technology and management, strategic planning, third party payers, revenue cycles in medical practice, and leading a medical practice.

The second course to go live in August is **HC 4203** “Healthcare Operations Management.” Students will learn about supply chain management, trend in healthcare operations such as applications for artificial intelligence, and quality improvement methods. Students will work in groups to

analyze and solve a case for process improvement. As a course capstone, students will prepare a “resume ready” major project - a business plan for an operation management project.

We are excited to offer new and improved courses that are competency based and prepare students for a career in healthcare management and leadership.

Jillian Herndon

Student

spotlight

Hello, my name is Jillian Herndon and I am the Practice Manager and Compliance Officer for the largest Long-Term Care practice in Oklahoma. I am also a freshman in the Health Care Management adult program at MACU. I have worked in the medical field since I was 18 years old. A lot of people ask me why I chose to get my degree in Health Care Management when I am already a Practice Manager. I chose this path not only because I want to better myself, but also because I own a medical credentialing and billing business. I felt that simply having experience was not enough to grow my business and that I needed a degree to grow successfully.

Holding a position as a Practice Manager is very rewarding. I not only supervise, but I teach daily. I have developed and trained each position in my office. Currently, I oversee 5 employees as the Practice Manager and 24 employees as the Compliance Officer. I work alongside our Chief Operating Officer when situations arise and together we develop solutions. I perform HR duties and provide staff with leave balances, send payroll to our accountant, and assist employees during open enrollment. I assist my staff during times of heavy workloads.

You are never too old to set another goal or to dream a new dream. ~ CS Lewis

“So, speak encouraging words to one another. Build up hope so you’ll all be together in this, no one left out, no one left behind. I know you’re already doing this; just keep on doing it.” 1 Thessalonians 5:11 (The Message Bible)

STUDENT CONTRIBUTIONS

We are thankful for students like Jillian who bring value to the program through experiences and knowledge. Interacting and networking with other students in the program is an important part of your academic development.

You will have colleagues for life!

ADULT SCHOOL OF BUSINESS LEADERSHIP (ASBL)

ASBL

Health Care Management Program

October 2018

IN THIS ISSUE

Student Success

by Dr. Kelly Riesenmy

We want our students to be successful, healthy, and happy at MACU. However, the path to student success has many roadblocks. Adult learners have full-time jobs, families, and activities which make it difficult to find time to effectively study and write. Here are a few tips that may help set guardrails as you drive the freeway to your success:

#1 Plan

The most important factor is to plan!

- Recruit a support team. Your support team may be your spouse, family member, or friend. These are your people who understand your drive and need for your degree. Ask them if they will help you keep timelines, provide encouragement, and help with your schedule.
- Arrange for time each day to work on your degree. Plan a minimum of 1-2 hours each day to stay on top of your assignments and discussion boards. Use the weekend for extended time to write. Most writing projects require 4 hours of uninterrupted focus.

SBL

#2 Take Breaks

It is critical to have time to refresh and re-energize.

- Schedule time for dinner with family or friends, your kids' activities, and a date with your spouse.
- Downtime replenishes the brain's stores of attention and memory at the neuronal level ([Scientific American](#)). Click link

#3 Live in the Moment

- When it is time to study, let your support team know you have to study. Ask them to step-in or be a buffer for distractions. Raise up your guardrails for quiet-time. Enjoy the learning process. This is your time and money – make the most of it!
- When it is time to relax, enjoy relaxing. Dance, play, have fun!

your career...

Source information at: [US Department of Labor - Bureau of Labor Statistics](#) (click link to learn more)

Do you love technology? Are you meticulous in your work? Consider working in HIM!

Technicians in HIM organize and manage health information. They ensure that all the data entered into the electronic health record is accurate and secure. Positions in this field require an understanding of medical classification codes and categorizing patient information for insurance databases and registries. HIM plays a crucial role in the quality of the patient record. Entry level median pay is \$39,180/year and is a fast growing field.

Excel in your work toward management positions to earn upward to \$98,350.00 annually. Your degree is a competitive advantage for these positions.

HC4303 Goes Live in November 2018!

Healthcare Information Management Systems

In this revised course, you will have access to Mindtap – a Cengage learning tool. The course uses Mindtap simulation projects so that students gain hands on experience with EHR. page 2

"Behold, the virgin shall be with child, and bear a Son, and they shall call His name Immanuel," which is translated, "God with us." —Matthew

1:23

His Birth in Me. "My little children, for whom I labor in birth again until Christ is formed in you..." ([Galatians 4:19](#)). Just as our Lord came into human history from outside it, He must also come into me from outside. Have I allowed my personal human life to become a "Bethlehem" for the Son of God? I cannot enter the realm of the kingdom of God unless I am born again from above by a birth totally unlike physical birth. "You must be born again" ([John 3:7](#)). This is not a command, but a fact based on the authority of God. The evidence of the new birth is that I yield myself so completely to God that "Christ is formed" in me. And once "Christ is formed" in me, His nature immediately begins to work through me.

Oswald Chambers
Christmas Devotional adapted from "My Utmost for His Highest"

Student Spotlight

We are blessed to have Matt Worcester leading the way in HIMs in our MACU HCM Program! Read his story

God is Good!!!!

I have been amazed by my whole introduction with MACU. Everything has been God centered and I have been, not only blessed, but in utter amazement with the college.

My name is Matt Worcester and I am full of energy as you can tell. I am fifty years young and am married to the love of my life going on thirty years. God has blessed me with 3 beautiful daughters. My oldest, Britani, went to be with Jesus on October 5, 2012. She was born totally disabled and lived to be 21 years. She was the center of our family and we were blessed every moment that she was with us. My daughter Ashli is 23 and Graduated this year in Social work and will begin work on her Masters. My youngest Mati is 19 and is a sophomore in college with a full softball scholarship. Needless to say, they keep us busy. My wife and I decided that since we now had an empty nest, that it was time that I finish what I started with college.

Worcester cont'd...

I currently work in a hospital as a Health Informatics Coordinator. I am pursuing my degree in Health Care Administration/Management with an end goal of an MBA in Health Care Administration/Management. I love life to the fullest and like to do my best to inspire everyone with the same inspiration that God has put into me.

My life has kind of been a roller coaster over the past 25 years. I started out very career driven and knowing which direction I was going. Then we had our first child and she was born with severe disabilities. My wife and I found ourselves having to put our careers on hold to focus on her and her needs. She passed away in 2012. I then had to regroup and decide what I was going to do.

Being a Chickasaw citizen, I decided that I wanted to go to work for the Chickasaw Nation. I started out working in Social Services helping the citizens with tribal needs. Shortly after, I took a job at the Chickasaw Nation Hospital as a Project Manager in the Business/Revenue part of the hospital. A year later I was offered the job as a Clinical Informatics Coordinator on the clinical side of the hospital. After working throughout the hospital, I decided that this is what I wanted to do in life.

I decided to go to college to finish my bachelor's degree. I scouted the colleges and found that MACU offered the HCM degree that I wanted. They also offered the master's degree in HCM. My goals are to obtain these two degrees. I have recently received my CAHIMS (certified associate in healthcare information and management systems) certification. This was a tough course but well worth the effort.

I have really found my passion working in the hospital. I have a strong desire to help create patient safety and provide a wonderful experience for every patient. My plans are to get the credentials that I need to be able to work in upper management in the administration at the hospital. I feel like that I can make an impact with my desires and passions towards patient concerns.

The new textbook is written for graduate students in HIM and health care administration executives. In the course, students will:

- Craft strategies for implementing HIM
- Develop a business report for selecting an electronic health records (EHR) platform
- Write a change management proposal to implement EHR

CAGS ASBL-HCM Student Update Summer 2019

In this issue:

- Career Development (pp. 1,3)

- Alumni Spotlight (p. 2)

Welcome to Summer!

“When a man’s heart is right with God the mysterious utterances of the Bible are spirit and life to him. Spirit truth is discernible only to a pure heart, not to a keen intellect. It is not a question of profundity of intellect, but of purity of heart.”

by Oswald Chambers, *Bringing Sons Unto Glory*

MID-AMERICA
CHRISTIAN UNIVERSITY

School of Adult Business Leadership Health Care Management Program

Career Development

Dr. Riesenmy

Education. Deciding on a career path can be one of the most challenging experiences in life. Making the decision to get a college degree is the first important step in meeting that challenge. According to the US Department of Labor Statistics (2018), individuals earning a bachelor’s degree will make on average 60% more than an individual with a high school diploma. Weekly earnings increase to 84% higher with a master’s degree ([Torpey, 2018](#)). Education is a great advantage in the career trajectory.

The choice to have an education with an emphasis in health care management and administration provides a strong foundation to launch a career. Several fields within health care management are considered [Bright Outlook](#) careers due to the demand and need (cont’d p. 3).

Alumni Spotlight

April Adkisson, MBA, CIC,
CISR

MBA with a Healthcare
Administration emphasis in
November 2018

Just after earning my degree, using the advice and guidance of Kelly Riesenmy, PhD, I was able to use my work experience combined with my education to set me on my chosen career path. I am so thankful to Dr. Riesenmy! When I went back to school for my MBA, I was a single mom with a young child, and engaged to be married.

While earning my MBA the following life events occurred:

- **I got married.**
- **Gained 4 wonderful stepchildren in the process!**
- **Sold my house.**
- **Went to Texas for a week to assist victims of Hurricane Harvey.**
 - **All of these events happened within three weeks.**
- **Then the last day of my second to last class, my grandmother unexpectedly passed away.**

Without the support of MACU, and especially Dr. Riesenmy, I would not have finished as strong as I did! Without my education, I would not be working at the level I am now.

Life happened, good and bad, but sometimes you must dig deep in your soul to remember why you are fighting to achieve more and be more. Then you become more and run the race you were meant to run. ~April Adkisson

Career Development (cont'd from p.1)

Goals and Vision. The next piece in career development is your career goal. In health care there are so many options! Entry level positions include pharmacy technician, health information technician, administrative assistant, and medical insurance claim examiner. Other less known career opportunities include community health education, insurance underwriter, operations, and finance. Getting your foot in the door is important, then as you find your niche and finish your education, the quality of your work will promote you within your area. Do you want to be the Chief Financial Officer at a hospital? Or, do you want to be the President of Human Resources within a large Health Care System. It is possible! MACU is preparing you to **“Dream Bigger, Do Greater.”**

Skills and Interests. You have an advantage if you are currently working in the field of health care. Your current skills and network are valuable resources to use to take you to the next level. If you are not in a position where you can gain the skills you need to work in your dream job, set out to obtain those skills. This can be accomplished through [job shadowing](#) or doing an [externship](#) through an agency in your area.

If your vision is not clear and you do not have a specific goal in mind, do not worry! God has given you interests and talents for a specific purpose. [Ephesians 2:10](#) tells us that God created us for a special work and that He has prepared good things for us to do. His heart is that we do good things to show our love and faith in Jesus. When your interests align with God’s Word, you can use them to guide you toward this special work He has for you to do. Ask Him to lead you, follow your interests and what you are good at doing, then trust God to open doors ~~that~~ **you** never knew were possible!

Developing Christian Ethics: Spiritual formation in course assignment

Dr. Riesenmy

If you look deep underneath the highest values and ethics in business and health care you will find underlying principles from God’s Word. Jesus provides the most valuable virtue in [Matthew 7:12](#) “...whatever you wish that others would do to you, do also to them...” This virtue comes through love. Love is uncommon in the secular world. However, as a Christian we are to develop a worldview which brings love, mercy, integrity, and peace into our workplace. Keeping in mind we are human beings; we ask the Holy Spirit to help us in this exercise. Then, we must use God’s Word to shape our lens of the workplace, our relationships, and in all areas of our lives. This is what we refer to in the academy as Spiritual Formation.

In your assignments, look for how God’s Word can provide a perspective on the work, the case, the task for which you have been assigned in the course. For example, [2 Peter 1: 4-7](#) provides an outline for the progression in forming Christian ethics. Examine these scriptures. How could each aspect of the divine nature relate to designing a quality improvement in healthcare? Or, use these verses to provide a framework to analyze a case for a report. God’s Word provides the right response to difficult dilemmas in life and work. Use His Word and Holy Spirit to shape your Christian ethics.

His Word is a Light for your path. [Psalm 119:105](#)

Healthcare Management Program

COVID 19 Check-in

We are concerned about you! As part of the MACU family, your needs and concerns are important to us. Please complete the 15-item survey to let us know how you are doing during this crisis. It should take less 3- 5 minutes to complete the survey:

[COVID19 HCM Student Check-in](#)

The survey is anonymous unless you include your name in the first response. See the survey for details.

Chat Cafe

We will start a new forum to connect with each other as the Healthcare Management Program through Chat Café.

Chat Café will begin as a weekly Google Video Chat to connect as a community of learning and provide students with the opportunity to interact with each other,

Dr. Riesenmy, and other faculty in the HCM Program. Please keep your eyes open for an invitation for these events.

Be Empowered! Tools for the Work...

As students of healthcare management and/or working in the field of healthcare, having the right tools to do the work is critical. Here are important tools to empower you in your work or to give you a better understanding of the occurrences of COVID19 in your area.

[Institute for Health Metrics and Evaluation](#) COVID19 projects for resources by state.

[Johns Hopkins University COVID19 Map](#) Used by the WHO to track COVID19 worldwide, includes GPS maps by county/region for cases.

Protect Yourself

Tips for social distancing

- Follow guidance from authorities where you live.
- If you need to shop for food or medicine at the grocery store or pharmacy, stay at least 6 feet away from others.
 - Use mail-order for medications, if possible.
 - Consider a grocery delivery service.
 - Cover your mouth and nose with a [cloth face cover](#) when around others, including when you have to go out in public, for example to the grocery store.

- Stay at least 6 feet between yourself and others, even when you wear a face covering.
- Avoid large and small gatherings in private places and public spaces, such as a friend's house, parks, restaurants, shops, or any other place. This advice applies to people of any age, including teens and younger adults. Children should not have in-person playdates while school is out. To help maintain social connections while social distancing, learn [tips to keep children healthy while school's out](#).
- Work from home when possible.
- If possible, avoid using any kind of public transportation, ridesharing, or taxis.
- If you are a student or parent, talk to your school about options for digital/distance learning.

Stay connected while staying away. It is very important to stay in touch with friends and family that don't live in your home. Call, video chat, or stay connected using social media. Everyone reacts differently to stressful situations and having to socially distance yourself from someone you love can be difficult. [Read tips for stress and coping](#).

How Germs Spread

Washing hands can keep you healthy and prevent the spread of respiratory and diarrheal infections from one person to the next. Germs can spread from other people or surfaces when you:

- Touch your eyes, nose, and mouth with unwashed hands
- Prepare or eat food and drinks with unwashed hands
- Touch a contaminated surface or objects
- Blow your nose, cough, or sneeze into hands and then touch other people's hands or common objects

Key Times to Wash Hands

You can help yourself and your loved ones stay healthy by washing your hands often, especially during these key times when you are likely to get and spread germs:

- **Before, during, and after** preparing food
- **Before** eating food
- **Before and after** caring for someone at home who is sick with vomiting or diarrhea
- **Before and after** treating a cut or wound
- **After** using the toilet
- **After** [changing diapers or cleaning up a child who has used the toilet](#)
- **After** blowing your nose, coughing, or sneezing
- **After** touching an animal, animal feed, or animal waste
- **After** handling pet food or pet treats
- **After** touching garbage

During the COVID-19 pandemic, you should also clean hands:

- After you have been in a public place and touched an item or surface that may be frequently touched by other people, such as door handles, tables, gas pumps, shopping carts, or electronic cashier registers/screens, etc.
- Before touching your eyes, nose, or mouth because that's how germs enter our bodies.

I want to pray for you. I understand that you and your family are under stress from health concerns, work delays, and perhaps financial difficulties. Prayer is always the most powerful response to any life situation, especially in times of crisis. Please come to one or both prayer times listed below, and we will go together to the Lord in prayer. You can share specific concerns or make an unspoken request. We will also pray together for our nation, those with the virus, and healthcare workers around the world. “Again I say to you, if two of you agree on earth about anything they ask, it will be done for them by my Father in heaven. For where two or three are gathered in my name, there am I among them.” Matt. 18:19-20 (ESV)

What does prayer accomplish?

- **Peace** “Do not be anxious about anything, but in everything by prayer and supplication with thanksgiving let your requests be made known to God. And the peace of God, which surpasses all understanding, will guard your hearts and your minds in Christ Jesus.” Phil. 4:6-7 (ESV)
- **Answers to Requests** “If you abide in me, and my words abide in you, ask whatever you wish, and it will be done for you.” John 15:7 (ESV)
- **Strength** “Likewise the Spirit helps us in our weakness. For we do not know what to pray for as we ought, but the Spirit himself intercedes for us with groanings too deep for words.” Romans 8:26 (ESV)
- **Hope** “Rejoice in hope, be patient in tribulation, be constant in prayer.” Romans 12:12 (ESV).

Prayer Times

Wednesday April 1st at 6pm join via Google Hangout on Laptop/PC webcam or smartphone at: [Wednesday Evening Prayer](#)

Thursday April 2nd at 10am join via Google Hangout on Laptop/PC webcam or smartphone at: [Thursday Morning Prayer](#)

Healthcare Management: The value proposition

By Dr. Kelly Riesenmy

The business of healthcare is a critical part of delivering quality care efficiently and at lower costs. The value proposition in healthcare is an equation: quality divided by total costs of care. Each course at MACU-HCM Program is designed to inform you about elements of this equation. We hope to shape your perspective on your role in the value proposition as a healthcare manager.

In the MACU's HCM Program, you are learning how to add value to healthcare by improving outcomes for a variety of different healthcare stakeholders – patients, providers, payers, and policy makers. Value is defined as design (frameworks for helping the patient find the right treatment at the right time), its execution (reliably doing it right every time to improve outcomes), and its costs over time (Johnson & Sollecito, 2020). Whether you are working in admissions, medical records, a private practice, or in billing your work is part of the value proposition equation. Consider how you add value to your organization's stakeholders. Then, think about where you would like for your career to be in ten years. During this journey, you need to ponder your purposes now as well as your future in HCM to live to the fullest God's plan to use you to add value in healthcare!

Ephesians 2:10 (AMP) says "For we are His workmanship [His own master work, a work of art], created in Christ Jesus [reborn from above—spiritually transformed, renewed, ready to be used] for good works, which God prepared [for us] beforehand [taking paths which He set], so that we would walk in them [living the good life which He prearranged and made ready for us]." Your work in HCM is a path that God designed for you. He has the good life already arranged for you to live. His plan is that you follow the paths that He planned for you to help others and make a difference for His purposes!

Johnson, J.K., & Sollecito, W.A. (2020). *McLaughlin and Kaluzny's continuous quality improvement in health care* (5th ed.). Burlington, MA: Jones & Bartlett.

Professional Development

KNOW YOURSELF LEAD YOURSELF

Understanding your personality is an asset in navigating work life. Your personality strengths and weaknesses can be leveraged as a tool to help you adjust your thoughts, feelings, and behaviors to work more effectively with others. In order to do that, first you need to know your personality traits. Learn more about how to relax, energize, approach problems, and find solutions through your personality.

Below is a link to the 16 Personalities Test. It is free but requires you to create an account. Use the site to explore articles about your personality type, as well as other personality types you encounter at work.

Hi, Kelly!

TYPE:	Assertive Protagonist	?
CODE:	ENFJ-A	?
ROLE:	Diplomat	?
STRATEGY:	People Mastery	?

★ Customize

Remember that personality can explain your approach to work, your ideas about change, your style in communicating with others, and why you work more easily with some people than others. If you have any questions about your personality test profile, feel free to give me a call or email me. Dr. Riesenmy 405/703-8238, kelly.riesenmy@macu.edu.

Get Connected

DO YOU WANT TO LAND THAT PERFECT JOB IN HCM? ARE YOU LOOKING FOR A PROMOTION? Then become a member of a professional association in healthcare management. As a member of a professional association, you have access to ongoing education, conferences, networks, and job posting boards. Employers view membership with professional associations as commitment to your field and engagement with the community of healthcare management. The healthcare management field encompasses many professions including the areas of finance and information technology. **Find the organization that** is the best fit with your interest and career focus. Many organizations offer student discounts. Member costs vary from high to low, depending on each organization. **Remember – finding the right job is all about networking!!** Join an **association and** find the local chapter in your area so you

can attend meetings. You will find out about jobs and meet people who can help you get started. Check out these professional associations:

- [American College of Healthcare Executives](#)
- [American Health Information Management Association](#)
- [Healthcare Finance Management Association](#)
- [American Association of Healthcare Administrative Management](#)
- [Professional Association of Health Care Office Management](#)
- [Commission on Accreditation of Healthcare Management Education](#)
- [Association for Healthcare Administrative Professionals](#)

The University of Prayer

Students need extra time, energy, focus, quiet to accomplish academic work. Yet, time is what is needed for prayer. In fact, extra time is needed so desperately students must pray! Here are some quotes from those who experienced the power of taking time to pray:

“Work, work, from morning until late at night. In fact, I have so much to do that I shall have to spend the first three hours in prayer!”
~ Martin Luther (Father of the Protestant Reformation)

“For your work’s sake, break away from it, and give the soul a breathing time. Get a holy subject and keep to it till you have drawn somewhat from it to feed your soul upon, and then you will do your lifework with less fatigue because you will have more strength to spend upon it.” ~ Charles Spurgeon (known as the “Prince of Preachers”)

“All my life, I have risen regularly at four in the morning to go into the woods and talk with God. That’s where He reveals His secrets to me. When everybody else is asleep, I hear God best and learn my plan...” ~ George Washington Carver (Great American agricultural scientist, inventor, and professor)

Handshake

Overview | How it works | Who's hiring | Career tips | Sign up

The #1 way college students find jobs

Join today to start your career.

Our goal is to see your education propel you into the career you have been preparing to enter. Handshake™ is a great resource to connect you to healthcare organizations with open positions and internships in management and administration. Unlike Indeed or Monster, Handshake™ will connect you with employers specifically interested in university students. Your advantage will come through a direct connection with employers linked to MACU. This means that recruiters who post on Handshake™ are interested in hiring MACU students/alumni. Handshake™ offers access to a Career Center which provides workshops and online resources to improve your resume and cover letters.

Most importantly, Handshake™ is free! You will be learning more about this from Student Success in the coming weeks. Please contact Dr. Riesenmy with the names of specific Healthcare Organizations you are interested in making a connection for employment.

Student Spotlight

“And let us consider how to stir up one another to love and good works,” Hebrews 10:24 (ESV). I love to highlight our students. Your stories and ambitions are inspiring and should be celebrated! Frankie Delatorres is a life-long learner who understands the value of education as a path to career advancement. This is her story. Thank you for sharing, Frankie!

I am a blessed wife and mother of four beautiful children. I began my college career in 2015, received my Associate Degree in 2016 and my Bachelor's Degree in 2017. I then decided to pursue my Master's Degree in Business Management and graduated in 2019 from Mid-American Christian University. I decided in March of 2020 to pursue a certificate degree in Health Care Management and I am glad I did, I believe gaining the knowledge in this field will open a few doors in the health care field that I am looking forward to working in. God has blessed me and showed me the path he wants me to follow and has been a wonderful spiritual advisor through tough times in my life. As I get

closer to this HCM program ending, I say thank you to the professor and my fellow student who have helped and guided me in my journey. I have always thought I could not go back to school and I am so glad I put these fears away and pursued my dream.

What sets you apart from the others in the job market...

Excellent Soft Skills

Take these quizzes to better understand your soft skills abilities:

[Listening Skills Assessment](#)

[Interpersonal Skills Test](#)

Give yourself additional time to explore the resources associated with the assessment tools. Set goals for improvement. Soft skills include the ability to give professional presentations and to effectively work in groups. Your HCM courses give you opportunities to practice and grow in these areas. Each course is an opportunity to develop soft skills!
