Please provide any additional information about or descriptions of the supervised clinical experiences:

Student teaching is the capstone of the professional education of teacher candidates at Mid-America Christian University. Six or more semesters have been spent in the study of the subject area, theories of learning, instructional strategies, and field experience. The student teaching experience then allows the teacher candidate to practice those theories and methodologies, bringing into focus many areas of the teaching and learning process and coordinating them into a meaningful culmination of his or her program of education. Teacher candidates will serve two, thirty-five (35) day placements or one 70 day placement with students after being matched to a cooperating teacher. An exception to this would be a 4 day week which would require 28 days as opposed to 35 or 56 days as opposed to 70 days. The candidate begins by observing and gradually takes an instructional role as time passes. The candidate increasingly takes on more duties until he or she assumes maximum responsibility for planning, instruction, assessment, and classroom management.

Enrollment and Program Completers

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

Race/Ethnicity	Total Enrolled	Subset of Program Completers
Two or more races	0	0
No Race/Ethnicity Reported	3	0

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2019-20.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

What are CIP Codes?

☐ No teachers prepared in academic year 2019-20

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2019-20. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. [\(\\$205\(b\)\(1\)\(H\)\)](#)

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

What are CIP Codes?

Do participants earn a degree upon completion of the program?

☒ Yes

☐ No

1. Did your program prepare teachers in mathematics in 2019-20?

If no, leave remaining questions for 2019-20 blank (or [clear responses already entered](#)).

- ☒ Yes
- ☐ No

2. Describe your goal.

We prepared 2 Math Education majors.

3. Did your program meet the goal?

- ☐ Yes
- ☒ No

4. Description of strategies used to achieve goal, if applicable:

The Oklahoma State Regents for Higher Education (OSHRE) offers a scholarship for teacher candidates whose area of certification is in one of the critical teacher shortage areas which include Math. The School of Teacher Education was also awarded a STEM grant through the U.S. Department of Agriculture, Office of Rural Development, to recruit new teachers in the areas of Math.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

The School of Teacher Education received a STEM grant through the U.S. Department of Agriculture, Office of Rural Development, to recruit new teachers in the areas of Math. Working with rural schools will move our school of teacher education towards encouraging interest in STEM in the area of Mathematics and increase recruiting of those students in Secondary Mathematics Education.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

Summary Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

Low-Performing

1. Is your teacher preparation program currently approved or accredited?

- ☒ Yes
- ☐ No

If yes, please specify the organization(s) that approved or accredited your program:

- ☒ State
- ☐ CAEP
- ☐ AAQEP
- ☐ Other specify:

2. Is your teacher preparation program currently under a designation as "low-performing" by the state?

- ☐ Yes
- ☒ No

On this page, review the questions regarding your program's use of technology. If you submitted an IPRC last year, this section is pre-loaded from your prior year's report; please review and update as necessary.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. [\(§205\(a\)\(1\)\(F\)\)](#)

Does your program prepare teachers to:

a. integrate technology effectively into curricula and instruction

- ☒ Yes
- ☐ No

b. use technology effectively to collect data to improve teaching and learning

- ☒ Yes
- ☐ No

c. use technology effectively to manage data to improve teaching and learning

- ☒ Yes
- ☐ No

d. use technology effectively to analyze data to improve teaching and learning

- ☒ Yes
- ☐ No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Our program prepares teacher candidates to integrate technology effectively into curricula and instruction and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning, for the purpose of increasing student academic achievement by requiring technology integration in all lessons and unit plans. We also require all teacher candidates to take EDUC 3233 Probability and Statistics, where they learn how to collect and analyze data, in order to prepare them for analyzing data to drive instruction. In their student teaching experience, candidates collect student data and analyze the results to apply data-driven decision making in their Praxis Performance Assessment for Teachers (PPAT). In EDUC 4203 Instructional Strategies I and EDUC 4213 Instructional Strategies II, 2 hours of SMARTboard training is provided by the technology trainer from a local school district. Teacher candidates teach a lesson using SMART technology in both of these classes as their first teaching experience. In methods courses faculty and adjunct instructors model and integrate a variety of technology resources for teachers candidates to use in their future classroom.

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

Teacher Candidates first experience with students with disabilities is in their field experience in EDUC 4223 Students with Exceptionalities. In this course, candidates learn about the different disabilities of students and strategies to teach and modify instruction for these types of students. Candidates also observe for 10 hours in 5 different classes for students with exceptionalities including gifted so they can experience how teachers work with these students to meet their needs. The candidates learn about individualized education plans, 504's, and various paperwork involved in identifying and planning for instruction for these students. Candidates are required to write lesson plans where they identify and modify for students in P12 classes, in their field experiences, in their methods courses as well as are evaluated on how well they implement the modifications in their lesson presentations and in their student teaching evaluations. Methods courses teach candidates about various strategies they can use to teach students with disabilities in each content area.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

During the teacher candidates' student teaching semester, candidates participate in individualized education program teams with their cooperating teacher. This gives them the experience of how the team interacts with setting goals for the student, the timeline for when the goals will be met, and how to accommodate for the student.

c. Effectively teach students who are limited English proficient.

In ECED 3223 Literacy Methods in Early Childhood and EDEL 3203 Methods of Intermediate Reading, Elementary and Early Childhood candidates learn the strategies they need to work with students who are limited English proficient as part of the content and strategies taught in the course. In EDEL 4304 Diagnostic and Prescriptive Reading candidate tutor a student in predominately Hispanic elementary school where they apply the strategies they previously learned in their literacy courses.

2. Does your program prepare special education teachers?

- ☐ Yes
- ☒ No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

c. Effectively teach students who are limited English proficient.

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

The mission of the School of Teacher Education is to prepare professional educators for the global vision of the Master Teacher, Jesus Christ, through Scholarship, Diversity, Community, Reflection, and Excellence. Within this context, the teacher education EPP develops the spiritual, moral, intellectual, and social domains of the teacher education candidates that make the professional educator. These domains are developed in a global pluralistic perspective through the use of current best practices and wisdom of the ages in the context of being a lifelong learner that in time leads to a better life through justice and freedom. The School of Teacher Education is committed to producing professional educators who are committed to excellence and, as a result, have a positive impact on student learning. To do so, the school has designed state-approved educational programs that are aligned with rigorous national and state standards: • Council for the Accreditation of Educator Preparation (CAEP) for the Elementary Education Program • National Council of Teachers of English (NCTE) Standards for the Secondary English Education Program • National Council for the Social Studies (NCSS) Standards for the Secondary Social Studies Program • National Council of Teachers of Mathematics (NCTM) Standards for the Secondary Mathematics Education Program • Office of Educational Quality and Accountability (OEQA) Standards for Vocal Music, for the Elementary/Secondary Vocal Education Program. National Association for the Education of Young Children (NAEYC), for the Early Childhood Education Program. In addition, the programs have been aligned to the Oklahoma General Competencies for Licensure and Certification. These programs qualify teacher candidates for licenses to teach at the elementary level or at the secondary level.
