ACCOUNTING AND ETHICS

BACHELOR OF BUSINESS ADMINISTRATION (BBA)

PROGRAM OVERVIEW

Accounting is more than just numbers — it's about solving business challenges by helping organizations strategically and effectively manage their finances and cash flow. In MACU's Accounting and Ethics program, you will gain a deep knowledge of accounting procedures and learn how to conduct every aspect of business with high ethical standards.

MACU's BBA in Accounting and Ethics combines both knowledge and application of theory in order to bring you an effective, well-rounded degree program that will prepare you for lower to mid-level accounting positions or to pursue graduate work and sit for the CPA Exam.

PROGRAM OUTCOMES

Throughout your program, you'll position yourself for success in the accounting field through the extensive study of taxation, auditing, managerial accounting, financial and accounting law and accounting information systems.

The program provides the coursework needed to meet the 30-hour accounting and 9-hour business requirement needed to sit for the Certified Public Accountant (CPA) or Certified Management Accountant (CMA) exams in Oklahoma. Students typically need a total of 150 hours to sit, which can be accomplished with a Master of Business Administration (MBA) from MACU.

See www.ok.gov/oab for a complete list of requirements.

PROGRAM COSTS

Courses in MACU's Accounting and Ethics program cost \$435/credit hour for lower division (University Core) classes and \$499/hour for upper division (Major) classes.
