

PROGRAM OVERVIEW

The Bachelor's degree in Interdisciplinary Studies emphasizes a broad learning experience and a wider perspective than that provided by traditional undergraduate majors. It is designed to offer the student the opportunity to participate in an interdisciplinary, coherent, academically sound and goal-oriented education directly relevant to the student's intellectual development and career aspirations.

It is appropriate for those students who seek a thorough grounding in the traditional arts and sciences from an interdisciplinary perspective. Each student in the Interdisciplinary Studies program becomes an active partner in the formulation of his or her program of study, working in consultation with an academic advisor to devise an appropriate individual degree plan.

Within the framework of two foundation areas, a university-wide Interdisciplinary Studies sequence, and a multidisciplinary concentration, a student may draw upon the resources of all schools of the University to create a truly customized degree program.

WHY INTERDISCIPLINARY STUDIES?

There is a long and fruitful history of scholars exploring multiple areas in support of their projects. This major is suited for students whose academic or personal goals require that they take courses from a number of different disciplines across the university and who are best served by not majoring in any particular field. MACU's program offers a wide range of flexibility to choose courses drawing from different disciplines of study.

ACCREDITATION

MACU is accredited through the Higher Learning Commission (HLC) of the North Central Association of Colleges and Schools (NCA).

PROGRAM COSTS

Courses in MACU's Interdisciplinary Studies program cost \$435/credit hour for lower division (University Core) classes and \$499/hour for upper division (Major) classes.
